Disclaimer

This document is a proof of concept created as an academic project at The International Butler Academy (TIBA). It is not representative of any real family, individuals, or organisations, even where similarities may appear to exist. All names, characters, residences, financial details, and personal circumstances described herein are entirely fictional. Some brands, products, and service providers mentioned in this document are real and some are fictional. Their inclusion is for illustrative purposes only and does not constitute a personal endorsement, recommendation, or commercial affiliation. The author has no connection to any brands or organisations referenced.

This document is intentionally comprehensive in length and detail to demonstrate the capability of artificial intelligence as a tool for creating, organising, and managing complex operational documents. It also serves to illustrate how AI-powered tools can be used to search, query, and extract information from large reference materials. This is a practical application for modern private service professionals. All illustrations were generated using SVG (Scalable Vector Graphics) code produced by AI. No photographs or copyrighted images are used. All phone numbers are fictional and follow the 555 convention.

22. Summary

1. Introduction

The Butler Book functions as the operational intelligence system for the Leigh household. In modern private service, a household often operates with a level of complexity comparable to a small organisation. Multiple residences, international travel, professional meetings, vendor relationships, and private guests must all be coordinated smoothly. Without structured documentation, critical details rely on memory or informal communication, both of which create risk. This eliminates ambiguity. It records essential information about the principals, their preferences, their schedules, and the operational philosophy that governs the household. The Butler Book allows any trained professional entering the household to understand how the environment functions and to provide consistent, high-quality service from day one. The Leigh household is relatively new to structured private service. The principals recently experienced a rapid expansion of financial resources through the success of Mr. Andrew Leigh's technology infrastructure investments, bringing the family's estimated net worth to about $120 million. As their professional activities expand internationally, the complexity of the household environment is increasing. The Butler Book provides the foundation for organising that complexity into a system that is reliable, discreet, and scalable. Chapter 1 focuses exclusively on principal intelligence: who the Leigh family are, what they value, how they live, and what service staff need to know to anticipate their needs. Chapters 2–4 address residences and property operations. Chapter 6 covers household management systems. Chapter 7 provides operational documents and worked examples.

2. Household Service Philosophy

The Leigh household service philosophy rests on three pillars: discretion, efficiency, and predictability.

Pillar	Definition	In Practice	Failure Looks Like
DISCRETION	Protecting the privacy of the principals and their guests absolutely	Never discuss guests, schedules, business, or personal matters outside the household. Vendor conversations reveal nothing.	A building doorman learns a guest's name. A cleaner mentions a meeting. A photo appears online.
EFFICIENCY	Enabling the principals to focus on their work without managing household logistics	Anticipate needs. Present solutions, not problems. Use the S-O-R format: Situation, Options, Recommendation.	The principal has to ask for something that should already be done. Staff present problems without solutions.
Predictability	Creating calm, stable environments where routines are consistent and surprises are avoided	Maintain routines. Preserve room arrangements. Avoid unnecessary change. Brief the principal before anything shifts.	Furniture moved without notice. A new product used that smells different. Schedule changes not communicated.

3. Household Structure & Family Composition

3.1 The Principals

Principal	Full Name	Age	Role
Mr. Leigh	Andrew James Leigh	Early thirties	Founder & Managing Partner, Leigh Infrastructure Capital
Mrs. Leigh	Kate Leigh (née Walsh)	Early thirties	Creative consultant; household design authority

Both principals maintain a private lifestyle. They prefer smaller gatherings and structured environments rather than large social events. The household is designed to support professional focus and quiet personal time.

3.2 Children

There are currently no children in the household. The principals have discussed starting a family in the medium-term. Staff should be aware that household requirements may shift significantly when children arrive, including scheduling, safety, dietary needs, and staffing levels.

3.3 Pets

The household has one pet: a male English Springer Spaniel named Winston, aged three. Winston is well-trained and accustomed to quiet indoor environments. Staff responsibilities include morning and evening walks (thirty minutes each), feeding twice daily (Orijen Original Adult kibble per veterinary guidelines), and ensuring guest-facing rooms are free of pet hair before meetings or arrivals.

4. Family History & Wealth Development

4.1 Background

Mr. Andrew Leigh grew up in a middle-class family in the greater Toronto area. His father, Robert Leigh, worked as a civil engineer, and his mother, Catherine Leigh (née Murray), was a secondary school teacher. The family valued education, discipline, and self-reliance. Andrew attended the University of Toronto, where he studied economics and computer science before entering the financial technology sector. Mrs. Kate Leigh (née Walsh) was raised in a creative, professional household in the Boston metropolitan area. Her father, Dr. David Walsh, is a retired architect, and her mother, Margaret Walsh (née Brennan), was a gallery curator. Kate studied design strategy at the Rhode Island School of Design and worked in the technology sector before stepping back to focus on philanthropic and creative projects.

4.2 Wealth Classification

The Leigh family wealth is newly acquired - first generation, with an estimated net worth of about $120 million (USD). This distinction matters for service staff. Unlike legacy families, the Leighs did not grow up with private service and are still developing their comfort level with household staff. Patience, professionalism, and clear com-

munication are essential. Staff should never assume the principals are familiar with traditional service protocols; instead, offer guidance discreetly and adapt to their evolving preferences.

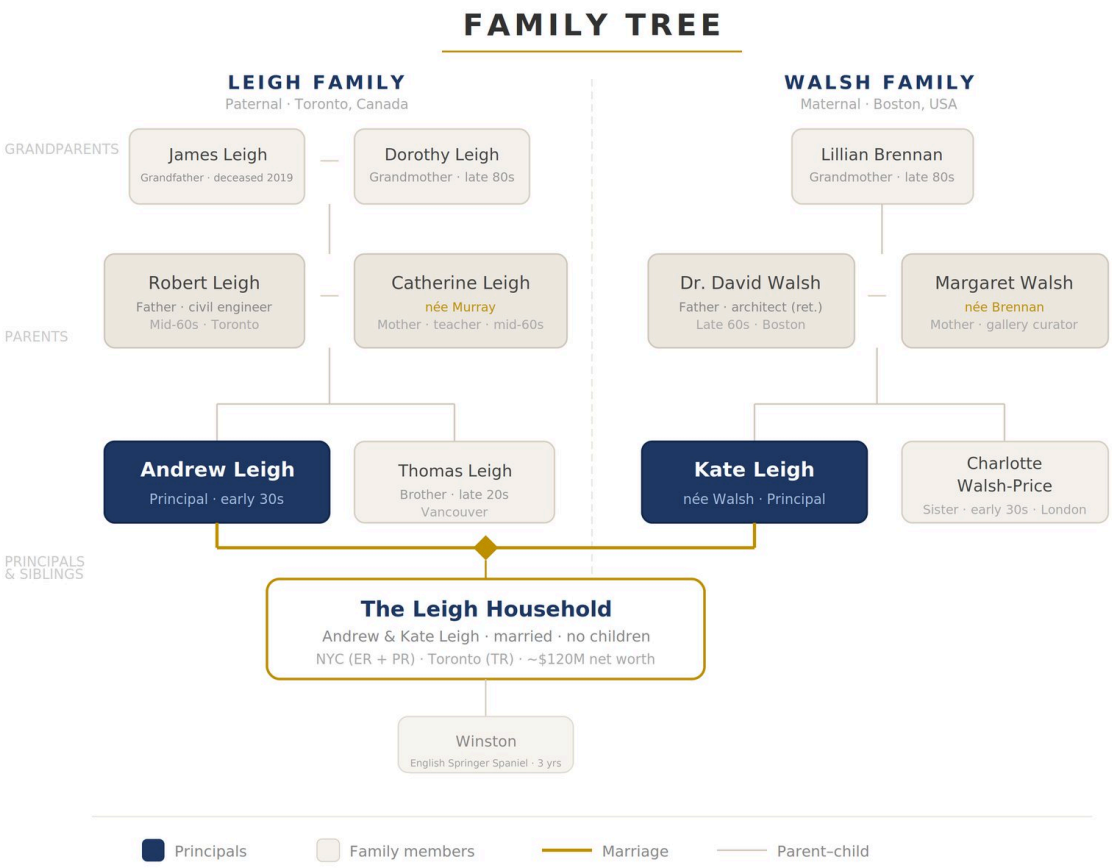

4.3 Wealth Development Timeline

The timeline below shows the progression of Mr. Leigh's investment strategy and the key milestones that led to the family's current financial position.

Year	Phase	Activity	Financial Impact
2018–2020	○ RESEARCH	Early infrastructure research. Mr. Leigh identified compute and data centre infrastructure as a long-term growth area ahead of mainstream AI adoption.	Pre-investment. Building thesis and network.
2020–2022	▶ SEED STAGE	Seed and Series A investments in companies providing hardware, cooling, and networking for large-scale AI workloads.	Initial capital deployed. ~$2–5M personal investment.
2023–2024	▲ RAPID GROWTH	Global demand for AI infrastructure surged. Portfolio companies appreciated significantly as hyperscalers expanded compute capacity.	Portfolio value: ~$15–30M. Fund interest growing.
2024–2025	★ MAJOR EXIT	Strategic exit from primary portfolio company. This was the principal capital event for the family.	Net proceeds: ~$80–100M. Life-changing liquidity event.
2025–Present	▶ EXPANSION	Launch of Leigh Infrastructure Capital as a formal fund. Growing team, international deal flow, structured operations.	AUM growing. Personal net worth: ~$120M. Household operations scaling.

5. Family Tree Diagram & Medical History

5.1 Visual Family Tree

Both families healthy. No children. Mrs. Leigh: seasonal pollen allergies (May–Jul).
Mr. Leigh's grandfather (James): coronary heart disease. Mrs. Leigh's grandmother (Lillian): Type 2 diabetes.

Canadian passport (Mr. Leigh): expires June 2026 — renew urgently

5.2 Leigh Family Medical History

Relation	Name	Age/Status	Location	Medical Notes
Father	Robert Leigh	Mid-sixties, living	Toronto, Canada	Managed hypertension; daily medication
Mother	Catherine Leigh	Mid-sixties, living	Toronto, Canada	No significant conditions
Brother	Thomas Leigh	Late twenties	Vancouver, Canada	No significant conditions

Relation	Name	Age/Status	Location	Medical Notes
Grandfather	James Leigh	Deceased (2019)	-	Coronary heart disease (contributing factor)
Grandmother	Dorothy Leigh	Late eighties, living	Toronto, Canada	Age-related mobility limitations

5.3 Walsh Family Medical History

Relation	Name	Age/Status	Location	Medical Notes
Father	Dr. David Walsh	Late sixties, living	Boston, USA	No significant conditions
Mother	Margaret Walsh	Late sixties, living	Boston, USA	Mild seasonal allergies
Sister	Charlotte Walsh-Price	Early thirties	London, UK	No significant conditions
Grandmother	Lillian Brennan	Late eighties, living	Cape Cod, USA	Type 2 diabetes (managed)

Service relevance: Mr. Leigh's paternal line shows cardiovascular history (grandfather). Mrs. Leigh's maternal grandmother has managed diabetes. Staff should support dietary and wellness routines consistently.

6. Cultural Heritage & Influences

6.1 Mr. Leigh

Mr. Leigh's heritage is Canadian with Scottish and English roots. His upbringing emphasised hard work, education, and pragmatism. He identifies as secular and does not practise any religion formally, though he respects religious traditions. Culturally, he is influenced by the technology and innovation culture of North America: data-driven reasoning, meritocracy, and self-improvement.

6.2 Mrs. Leigh

Mrs. Leigh's heritage is American with English and Irish ancestry. She grew up in a household that valued art, architecture, and cultural engagement. She identifies as culturally Christian (Episcopalian heritage) but does not attend services regularly. Thanksgiving is an important family gathering, and Christmas is observed with decorations, gift-giving, and family meals.

6.3 Service Implications

Holiday calendar: Thanksgiving (American), Christmas, and New Year's are the primary observances. No dietary restrictions related to religious practice. The household welcomes all cultural and religious backgrounds among staff and guests. Mrs. Leigh may request seasonal aesthetic touches (floral, table settings, décor).

7. Family Goals, Values & Mission Statement

7.1 Family Mission Statement

"To build a lasting foundation of integrity, curiosity, and generosity - investing in people, ideas, and infrastructure that will matter beyond our own lifetime."

7.2 Core Values

Value	Expression in Household Life
Integrity	Honesty in all dealings. Staff report issues directly. The principals value transparency over perfection.
Curiosity	Both principals are lifelong learners. The household supports intellectual exploration: books, materials, and information access.
Generosity	The Leighs are developing philanthropy focused on education access and technology equity. Staff may support related events.
Privacy	The family guards personal life carefully. Public exposure is minimised. Media inquiries always declined.
Quality over quantity	Fewer, higher-quality possessions, meals, relationships, and experiences. This informs purchasing, planning, and service.

7.3 Family Goals

Timeframe	Goals	Household Impact
Short-term (1–2 years)	Establish fully functional household operations across all three residences; complete Leigh Infrastructure Capital expansion; begin structured philanthropic giving.	Butler Book completion; staff hiring; systems and routines established.
Medium-term (3–5 years)	Potential family expansion (children); acquisition of a permanent estate property; build a small but trusted core household team.	Significant operational changes; nursery planning; possible additional staff; estate management.
Long-term (5+ years)	Establish the Leigh family as a respected name in infrastructure investment and philanthropy; create a legacy structure for future generations.	Mature household operations; possible family office integration; philanthropic event support.

8. Profile - Mr. Andrew Leigh

8.1 Professional Background

Andrew Leigh is the founder and managing partner of Leigh Infrastructure Capital, a private investment firm focused on long-term opportunities in AI infrastructure: data centres, semiconductor supply chains, networking, and energy systems for large-scale computing.

8.2 Personality & Service Implications

Trait	Description	Service Implication
Analytical	Approaches problems with data and logic; dislikes vague reasoning	Present information in structured, factual formats
Introverted	Recharges through solitude and quiet focus	Protect quiet time; minimise interruptions during work
Disciplined	Consistent routines; values punctuality and reliability	Be on time. Follow through. Consistency builds trust.
Direct	Communicates clearly; expects the same; dislikes ambiguity	Speak plainly. If unsure, say so. Don't over-explain.
Reserved but kind	Reserved, though not unfriendly. Shows appreciation through trust.	Don't interpret quietness as dissatisfaction.

Morning Routine

Rises around 6:30 AM. First activity: reviewing overnight market and tech developments. Breakfast: black coffee (medium roast, no sugar, no milk), Greek yoghurt with berries or scrambled eggs with toast. Prefers the meal ready quietly, without conversation.

Beverage Preferences

Time	Preference	Notes
Morning	Black coffee (medium roast)	No sugar, no milk. Served in his designated mug.
Midday	Still or sparkling water	Always available in meeting spaces
Afternoon	Green tea or black coffee	Green tea if energy stable; coffee if long afternoon
Evening	Water; occasional single malt whisky	Whisky is rare and only in relaxed settings. This must never be suggested.

Dining & Wardrobe

Prefers simple, high-quality meals: grilled proteins, seasonal vegetables, whole grains. Dislikes rich sauces and heavy cream dishes. Wardrobe is minimalist - tailored business wear in navy, charcoal, and white. Casual follows the same principle: clean lines, quality fabrics, no logos.

9. Profile - Mrs. Kate Leigh

9.1 Professional Background

Previously worked in design strategy in the technology sector, leading UX and brand identity projects. Now active in creative consulting, philanthropic planning, and household design direction. Her design background shapes everything about how the residences look and feel.

9.2 Personality & Service Implications

Trait	Description	Service Implication
Observant	Notices details others miss: misplaced objects, lighting changes, tone shifts	Maintain visual consistency. Small lapses will be noticed.
Thoughtful	Takes time before decisions; does not respond well to pressure	Allow time. Present options clearly and let her consider.
Creative	Thinks in design, mood, and experience; values beauty and coherence	Support her aesthetic vision. Ask before changing arrangements.
Warm but private	Friendly with staff but maintains professional boundaries	Be personable but not overly familiar.
Structured	Appreciates organisation; more intuitive than Mr. Leigh's approach	Keep systems clear. She wants to know the plan without managing it.

Morning Routine

Rises 7:00–7:30 AM. Begins with quiet time: journaling, reading, or reviewing her schedule. Breakfast: herbal tea (camomile or peppermint, loose-leaf, ceramic cup), seasonal fruit, avocado toast, or a smoothie. Values a calm, unhurried morning.

Beverage Preferences

Time	Preference	Notes
Morning	Herbal tea (camomile or peppermint)	Loose-leaf preferred. Ceramic cup, not a mug.
Midday	Still water with lemon or cucumber	Freshly sliced; never bottled flavoured water
Afternoon	Matcha latte or light Earl Grey	Matcha with oat milk; Earl Grey with splash of milk
Evening	Herbal tea or glass of white wine	Wine occasional; Sauvignon Blanc or Chardonnay preferred

Dining & Wardrobe

Enjoys Mediterranean and plant-forward cuisine. Appreciates variety, seasonal ingredients, and beautiful presentation. Strongly dislikes cilantro (genetic aversion) - this must be communicated to every food provider without exception. Wardrobe is curated: natural fabrics, structured silhouettes, muted palette with occasional accents.

Rotates more frequently than Mr. Leigh's.

10. Medical Needs, Allergies & Wellness

10.1 Mr. Leigh

Category	Detail	Action Required
Allergies	No known food or drug allergies	Standard protocols
Dietary sensitivity	Mild lactose sensitivity	Avoid heavy dairy; small amounts tolerated
Fitness	Morning run (30–45 min) 3–4x/week; occasional weights	Running gear ready; gym access maintained
Vision	Corrective lenses for extended screen work	Glasses cleaned and stored consistently

10.2 Mrs. Leigh

Category	Detail	Action Required
Allergies	Seasonal pollen allergy (spring)	Antihistamines stocked; limit fresh flowers in peak season
Food aversion	Cilantro (strong genetic aversion)	Must never include. Verify with ALL food providers.
Fitness	Yoga 3x/week; occasional Pilates	Mat and props available at all residences
Wellness	Values sleep quality and calm evenings	Bedroom: cool (68°F), dark, quiet

10.3 Emergency Medical Contacts

Contact	Name	Phone	Notes
Emergency services	911	911	Always first in life-threatening emergencies
Physician (Mr. Leigh)	Dr. Mark Sullivan	(212) 555-0234	NYC-based; annual physical
Physician (Mrs. Leigh)	Dr. Amy Park	(212) 555-0478	NYC-based
Dentist (both)	Dr. Michael Tanaka, DDS	(212) 555-0612	Bi-annual cleaning
Allergist (Mrs. Leigh)	Dr. Priya Nair	(212) 555-0891	Seasonal consultation
Veterinarian (Winston)	Dr. Karen Webb, Manhattan Vet Partners	(212) 555-0187	Emergency and routine

11. Personal Schedules

11.1 Weekly Schedule Comparison - Mr. vs Mrs. Leigh

The side-by-side view below shows how both principals' days typically overlap, helping staff coordinate service across the household.

Time	Mr. Andrew Leigh	Mrs. Kate Leigh	Staff Action
6:30 AM	Wake; review markets and tech news	- (sleeping)	Coffee prepared for Mr. L by 6:45
7:00 AM	Morning run (3–4x/week)	Wake; journaling, reading	Tea prepared for Mrs. L by 7:15
8:00 AM	Breakfast and daily planning	Breakfast (lighter, unhurried)	Both breakfasts ready; no conversation unless initiated
9:00 AM	Professional meetings / calls / focused work	Yoga or Pilates (3x/week)	ER meeting spaces ready; PR yoga area set
10:00–12:00	Continued meetings / deep work	Creative work, consulting, philanthropy	No interruptions to either principal
12:00 PM	Lunch (may eat at desk)	Lunch (dining area preferred)	Both lunches prepared; Mr. L flexible on location
1:00–4:00 PM	Research, investor calls, strategy	Projects, household planning, appointments	Afternoon beverages available; vendor coordination window
4:00–6:00 PM	Strategy work or late meetings	Personal time, walk with Winston	Winston walk coordinated; evening prep begins
7:00 PM	Dinner (shared with Mrs. Leigh)	Dinner (shared with Mr. Leigh)	Table set; meal served; wine if requested
9:00–10:30 PM	Reading, planning, wind-down	Reading, personal care, wind-down	Bedroom prepared: cool, dark, quiet

11.2 Weekend Patterns

Weekends are less structured. The principals typically sleep later (8:00–9:00 AM), enjoy a relaxed breakfast together, and may engage in personal activities: galleries, dining out, or neighbourhood exploration. Staff maintain residence readiness but reduce visible presence. Sunday evenings involve planning for the week ahead.

12. Extended Family, Significant Others & Pets

Person	Relationship	Location	Visit Frequency	Hosting Notes
Robert & Catherine Leigh	Mr. Leigh's parents	Toronto	Several times/year	Traditional; sit-down meals; Robert enjoys whisky

Person	Relationship	Location	Visit Frequency	Hosting Notes
Thomas Leigh	Mr. Leigh's brother	Vancouver	Occasional	Casual, tech-savvy; easy guest
Dr. David & Margaret Walsh	Mrs. Leigh's parents	Boston	Holidays, special occasions	Architecture discussions (Dr. H); afternoon tea (Margaret)
Charlotte Walsh-Price	Mrs. Leigh's sister	London	1–2 times/year	May visit with husband James; enjoys fine dining
Dorothy Leigh	Mr. Leigh's grandmother	Toronto	Rare (mobility)	Ensure ground-floor access; comfortable seating

13. Communication System

All household communication flows through the butler. Staff do not approach the principals directly with operational issues. **Household Staff → Butler → Mr. & Mrs. Leigh**

13.1 S-O-R Communication Format

Element	What It Means	Example
S - Situation	Brief factual summary of what happened or needs attention	"The floral vendor has raised prices by 12% starting next month."
O - Options	Two or three viable courses of action	"Option A: Accept increase. Option B: Negotiate. Option C: Get quotes from two alternatives."
R - Recommend.	The course of action the butler believes is best	"I recommend Option C. I've identified two alternatives and can have quotes by Friday."

13.2 Communication Channels

Channel	When to Use	Notes
In-person	Urgent matters; daily briefings	Keep concise. If the principal is focused, wait.
Text message	Time-sensitive logistical updates	Short, factual. No emojis or casual language.
Email	Non-urgent reports, summaries, options	Well-structured. Subject line indicates topic and urgency.
Written note	Sensitive reminders in private spaces	Handwritten, brief, placed discreetly.
Do not disturb	During meetings, work, and rest	Unless safety is at risk, all communication waits.

14. Principal Preference Matrix

Category	Mr. Leigh	Mrs. Leigh	Service Notes
Temperature	68–70°F	70–72°F	Default 70°F; adjust by occupant
Lighting	Functional, moderate	Warm, layered	Avoid harsh overhead in all settings
Noise	Silent during work	Quiet; soft background OK	No loud tasks during work or rest
Meetings	Small groups (2–6)	Informal settings preferred	ER for professional; PR for personal
Dining	Simple, clean, quality	Mediterranean, seasonal, beautiful	No cilantro (Mrs. L); light dairy (Mr. L)
Beverages	Black coffee; green tea; water	Herbal tea; matcha; white wine	Always available at all residences
Privacy	Very high	High	Guest identities always confidential
Communication	Direct, factual, structured	Thoughtful, clear, patient	Adapt tone to the principal addressed

15. Personality Comparison Matrix

This visual matrix compares the principals' personality traits on a spectrum, helping staff calibrate their approach to each individual.

Dimension	Mr. Leigh ◀——	Spectrum	——▶ Mrs. Leigh	Service Impact
Decision style	●●●●● Data-driven	◀ Analytical – Intuitive ▶	●●●○○ Design-led	Mr. L: present facts and numbers. Mrs. L: present options with context and mood.
Social energy	●●●●● Introvert	◀ Solitary – Social ▶	●●●○○ Selective	Mr. L: protect alone time. Mrs. L: comfortable with guests but values boundaries.
Communication	●●●●●○ Concise	◀ Direct – Nuanced ▶	●●●○○ Considered	Mr. L: get to the point. Mrs. L: allow space to think before responding.
Environment	●●●●○ Functional	◀ Minimal – Aesthetic ▶	●●●●●○ Curated	Mr. L: cares that it works. Mrs. L: cares how it looks AND works.

Dimension	Mr. Leigh ◀——	Spectrum	——▶ Mrs. Leigh	Service Impact
Pace	●●●●○ Steady fast	◀ Fast – Reflective ▶	●●●○○ Moderate	Mr. L: efficient and rapid. Mrs. L: thoughtful, don't rush her.
Feedback style	●●●● Implicit	◀ Subtle – Expressive ▶	●●● Gentle direct	Mr. L: silence = OK. Mrs. L: will mention things, but kindly.
Routine rigidity	●●●●● Very consistent	◀ Fixed – Flexible ▶	●●● Structured flex	Mr. L: don't change routines. Mrs. L: open to seasonal/mood shifts.
Trust building	●●●● Through reliability	◀ Performance – Connection ▶	●●●● Through respect	Mr. L: be consistent and competent. Mrs. L: show you understand her vision.

16. Residence Overview

The Leigh household operates across three residences, each serving a distinct purpose. The following map shows the relationship between properties and their operational roles.

	NYC Executive Residence (Tribeca)	NYC Private Residence (West Village)	Toronto Business Residence (Yorkville)
Primary Role	Professional hub and work base. 3,800 sq ft high-rise condo.	Personal living and recovery. 4,200 sq ft brownstone (1885).	International travel and meeting base. 2,200 sq ft condo.
Service Style	Executive hospitality: calm, precise, discreet	Domestic calm: minimal disruption	Hybrid: hotel readiness + meeting capability
Occupancy	Weekdays during business; event-based	Primary residence; most nights	Intermittent; business trips
Typical Guests	Investors, founders, legal counsel	Family, close friends	Canadian partners, advisors
Temperature	69°F (meeting-optimised)	70–72°F (comfort-optimised)	70°F / 21°C (Canadian standard)
Aesthetic Authority	Mr. Leigh (functional); Mrs. Leigh (décor)	Mrs. Leigh (primary authority)	Functional; minimal décor
Primary Risk	Confidentiality + guest access	Routine disruption + clutter	Travel friction + vendor gaps
Security Priority	Very high (business discussions)	High (personal privacy)	High (international travel)
Annual Budget Share	26% of operating costs	35% of operating costs	17% of operating costs
Staff Presence	Butler primary; housekeeper support	All staff; primary operations base	Remote preparation; concierge support

17. Social & Professional Networks

Guests are typically connected to professional relationships: investment partners, founders, advisors, or researchers. The principals rarely host large gatherings; meetings are small and focused. Hospitality emphasises privacy and professional atmosphere.

Category	Typical Profile	Hosting Style	Key Considerations
Investor/partner	Fund managers, institutional reps	ER; formal hospitality	Confidentiality essential; NDAs may apply
Founder/operator	Tech company leaders	ER or PR; semi-formal	May be younger, less formal; adapt
Legal/advisory	Lawyers, accountants, consultants	ER; professional	Document security; private spaces
Family	Parents, siblings, extended family	PR; warm, domestic	Personalised touches; family dietary prefs
Close friends	University or personal connections	PR; casual	Relaxed; Winston may be present

18. Household Culture & Expectations

The Leigh household is professional, private, and quietly aspirational. Staff are valued team members. Professionalism is non-negotiable. The Leighs expect reliability, initiative, and emotional intelligence - not perfection, but honesty and the ability to learn.

18.1 Expectations of Staff

Punctuality: Arrive early. Prepare before the principals need anything. **Discretion:** What happens in the household stays in the household. No exceptions. **Initiative:** Anticipate needs. Don't wait to be asked for things that should already be done. **Accountability:** Own mistakes. Report issues immediately. Never hide problems. **Adaptability:** Schedules change. Plans shift. The best staff adjust without drama.

18.2 Will Not Tolerate

Gossip about the household, principals, or guests. Dishonesty or concealment of mistakes. Visible disorganisation in guest-facing spaces. Unsolicited opinions on the principals' lifestyle or decisions. Loud or disruptive behaviour during work or rest hours.

19. Standards of Living & Service

The Leigh household operates at a high-quality, discreet service level. Not theatrical luxury - modern, refined, and understated. The goal is smooth support: the principals feel their environment simply works.

Context	Style	Description
Daily home life	Invisible support	Rooms reset, meals prepared, environment maintained - all without visible staff unless needed
Professional meetings	Executive hospitality	Calm, precise, efficient. Refreshments placed without interruption. Available but not hovering.
Private dining (2)	Attentive but unobtrusive	Courses served quietly. Wine poured without being asked. Plates cleared when both finished.
Small dinner (4–6)	Formal but warm	Structured with flexibility. Read the table energy and adapt pace.
Family visits	Warm domestic	More relaxed. Tea service, home-cooked meals, comfort. Still professional.
Travel transitions	Hotel-level readiness	Residence ready before arrival. Essentials stocked. No friction.

20. Lifestyle Profile

Dimension	Description
Formality	Structured casual. Day-to-day informal in tone but organised in practice. Professional standards when hosting.
Pace	Moderate-to-fast, driven by Mr. Leigh's schedule. Travel and deadlines create periods of intensity. Staff prepared for rapid transitions.
Public profile	Deliberately low. No media, no public social media, all press declined. Staff never confirm the principals' location or schedule to anyone.
Social life	Small, intimate gatherings. 2–4 friends, simple meals, good conversation. Large events extremely rare.
Travel	Frequent, business-driven. NYC–Toronto most common. Occasional SF, London, Singapore. Detailed in Chapters 2–4.

21. Security & Privacy

Security centres on privacy protection rather than physical threats. A security consulting retainer (currently with ClearPath Security, $8,000/year) provides quarterly risk assessments, travel security briefings, and cybersecurity audits. The primary risk is information leakage: guest identities, business discussions, travel schedules, and personal habits. Verify guest identities before allowing access to any residence. Never discuss household details in public areas (lobbies, elevators, building common spaces). Decline entry to unexpected or unverified visitors until confirmed with the butler. No photographs of residences, principals, or guests by staff under any circumstances.

Personal phones on silent and out of sight during service hours. Sensitive printed documents secured or shredded after use. All media inquiries declined without exception. Provide no information - not even address confirmation.

22. Summary

Chapter 1 provides a complete profile of the principals and their household. It documents who the Leigh family are, where they come from, what they value, how they live, and what they expect from their service team. Key takeaways: The Leighs are a young couple (~$120M net worth) building household operations for the first time. Patience and clear communication are essential. Discretion is the single most important quality the principals value in staff. The philosophy prioritises calm, organised, predictable environments supporting professional focus and personal wellbeing. Service should be modern, understated, and invisible. The principals should feel supported without feeling managed. Both principals are intelligent, observant, and direct. Competence earns trust; honesty earns respect. Parts 2–4 address residences, management systems, and operational documents.

23. Personal Biometrics and Physical Details

Accurate physical measurements are essential for wardrobe management, valet service, travel arrangements (airline seating), medical emergencies, and gift purchasing. Updated annually or when significant changes occur.

EYEWEAR REFERENCE

For replacement if lost or damaged

MR. LEIGH — GLASSES

Lindberg Spirit Titanium · rimless

No frame around lenses — rimless design
Ultra-thin titanium temples and bridge
Progressive lenses for screen work

Rx (Mar 2025)	OD: -1.25 / -0.50 × 90 / +1.00 OS: -1.50 / -0.25 × 85 / +1.00
Backup	ER office drawer + PR nightstand

MRS. LEIGH — SUNGLASSES

Celine CL40251I · tortoiseshell

Tortoiseshell acetate frame
Slightly oversized, angular shape
Dark brown gradient lenses

Stored	PR entry console · handbag
Replace	Celine boutique or Saks Fifth Avenue

23.1 Mr. Andrew Leigh

Attribute	Detail	Notes
Height	6’0” (183 cm)	Tall frame; consider seat selection for flights (aisle preferred for legroom)
Weight	180 lbs (82 kg)	Athletic build; stable weight
Suit size	42 Regular	Slim-fit preferred; navy and charcoal only

Attribute	Detail	Notes
Shirt size	16” neck / 34” sleeve	Slim-fit dress shirts; no spread collar (prefers point or semi-spread)
Trouser size	33” waist / 32” inseam	Flat-front only; no pleats
Shoe size	11 US / 44 EU / 10.5 UK	Medium width; prefers leather sole for dress, rubber for casual
Belt size	34”	Simple, quality leather; no logos
Ring size	10 (left ring finger)	Wedding band: platinum, plain
Glasses	Progressive lenses for extended screen work	Frame: Lindberg Spirit Titanium (rimless). Prescription on file with Dr. Murray. Backup pair in ER office drawer and PR bedroom nightstand.
Glasses prescription	OD: SPH −1.25, CYL −0.50, AXIS 90, ADD +1.00 | OS: SPH −1.50, CYL −0.25, AXIS 85, ADD +1.00	Updated March 2025. Annual exam scheduled with Dr. Murray. Prescription valid 2 years.
Contact lenses	Not worn	Glasses only
Blood type	A+	On file with Dr. Murray; noted for emergency medical situations

23.2 Mrs. Kate Leigh

Attribute	Detail	Notes
Height	5’6” (168 cm)	Petite-to-medium frame
Weight	130 lbs (59 kg)	Yoga-fit; stable weight
Dress size	US 4 / EU 36 / UK 8	Structured silhouettes preferred; natural fabrics
Top size	US Small / EU 36	Prefers slightly relaxed fit; no tight or clingy fabrics
Trouser / skirt	US 4 / 27” waist	High-waisted preferred
Shoe size	8 US / 38.5 EU / 5.5 UK	Narrow foot; prefers structured shoes with support
Ring size	6 (left ring finger)	Wedding band and engagement ring: platinum with diamond
Glasses	Not required for daily use	Sunglasses: Celine CL40251I (tortoiseshell). Kept in PR entry console and handbag.
Contact lenses	Not worn	-
Blood type	O+	On file with Dr. Park

23.3 Winston

Attribute	Detail
Breed	English Springer Spaniel
Weight	48 lbs (22 kg)
Collar size	16” adjustable; currently on 3rd notch
Harness	Ruffwear Front Range (size Medium, grey)
Microchip	Yes; registered with HomeAgain. Chip # on file with Dr. Webb.

24. Preferred Toiletries and Personal Care Products

These are the exact products used by the principals. Do not substitute without permission. Maintain stock at all residences.

24.1 Mr. Leigh

Product	Brand / Specific Item	Where Stocked	Reorder
Body wash	Aesop Coriander Seed Body Cleanser	All residences	Monthly check

Toothpaste	Marvis Whitening Mint	All residences	Monthly
Toothbrush	Philips Sonicare DiamondClean (rose gold)	PR primary; manual travel backup	Brush head quarterly
Perfume	Le Labo Santal 33 (signature scent)	PR vanity; small travel size	Annual (50ml lasts ~6 months)
Hair styling	Oribe Dry Texturizing Spray	PR vanity	Bi-monthly

25. Expanded Medical Intelligence

This section supplements the medical contacts in Section 10 with detailed clinical history, vaccine records, and surgical history. This information is strictly confidential and should only be referenced in medical emergencies or when coordinating with healthcare providers.

25.1 Mr. Leigh - Clinical Summary

Category	Detail
VACCINATION RECORD	
COVID-19	Fully vaccinated + 2 boosters. Most recent: Pfizer bivalent, October 2025. Next due: per CDC guidance.
Influenza	Annual. Most recent: October 2025. Schedule each October with Dr. Murray.
Tetanus/Tdap	Last booster: 2021. Next due: 2031.
Hepatitis A/B	Completed series (childhood). No boosters needed.
SURGICAL HISTORY	
Wisdom teeth extraction	2014. Oral surgeon in Toronto. No complications. Routine.
No other surgical history	-
ONGOING MONITORING	
Annual physical	Scheduled each January with Dr. Mark Sullivan, (212) 555-0234
Dental cleaning	Bi-annual with Dr. Michael Tanaka, (212) 555-0612. Next: June 2026.
Eye exam	Annual. Last: March 2025. Prescription updated. Next: March 2026.
Cardiovascular screening	Recommended due to paternal family history (grandfather: coronary heart disease). Discussed with Dr. Murray. Baseline ECG completed 2025; results normal.
Dermatology	Annual skin check. No current provider established in NYC; to be scheduled.

25.2 Mrs. Leigh - Clinical Summary

Category	Detail
VACCINATION RECORD	
COVID-19	Fully vaccinated + 2 boosters. Most recent: Pfizer bivalent, October 2025.
Influenza	Annual. Most recent: October 2025.
Tetanus/Tdap	Last booster: 2022. Next due: 2032.
HPV	Completed series (college years).
ALLERGY MANAGEMENT	

Category	Detail
Seasonal pollen allergy	Spring (March–May). Symptoms: congestion, sneezing, eye irritation. Managed with OTC antihistamine (Allegra 180mg daily during season). Prescription on file with Dr. Priya Nair, (212) 555-0891.
Cilantro aversion	Genetic (OR6A2 gene variant). Not a medical allergy but a strong aversion causing nausea. Treat as absolute dietary restriction.
SURGICAL HISTORY	
Appendectomy	2018. Laparoscopic, routine. Full recovery. No ongoing implications.
No other surgical history	-
ONGOING MONITORING	
Annual physical	With Dr. Amy Park, (212) 555-0478
Dental cleaning	Bi-annual with Dr. Tanaka. Next: June 2026.
Allergist	Seasonal consultation with Dr. Priya Nair. Pre-season visit: February each year.
Dermatology	Annual skin check. Provider: Dr. Lisa Park, Manhattan Dermatology, (212) 555-1920. Next: September 2026.
OB/GYN	Annual well-woman exam. Provider: Dr. Amanda Torres, (212) 555-1835. Family planning discussions ongoing per principals' medium-term goals.

25.3 Winston - Veterinary Record

Category	Detail
Primary vet	Dr. Karen Webb, Manhattan Veterinary Partners, (212) 555-0187
Rabies vaccine	Current. Last: April 2025. Next due: April 2026 (annual in NYC per law).
DHPP (distemper combo)	Current. Last: April 2025. Next: April 2026.
Bordetella	Current. Last: April 2025. Required for boarding.
Lyme disease	Vaccinated. Annual booster each April.
Heartworm prevention	Monthly. Heartgard Plus (26–50 lb dosage). Administered 1st of each month.
Flea/tick prevention	Monthly. NexGard Chewable (24.1–60 lb). Administered 1st of each month.
Neutered	Yes. Procedure at age 1 (2024). No complications.
Microchip	HomeAgain. Chip #: 985121098765432. Registered to Mr. Andrew Leigh.

Category	Detail
Known conditions	None currently. Springer Spaniels prone to ear infections; ears checked weekly.
Emergency vet	BluePearl Emergency, (212) 555-1999. Open 24/7. 15-minute drive from PR.

26. Disability Access and Accommodation

While neither principal currently requires disability accommodations, the household should be prepared for guests who do - particularly Mr. Leigh's grandmother, Dorothy Leigh (late eighties, age-related mobility limitations), and any future accessibility needs.

26.1 Accessibility by Residence

Consideration	Executive Residence (Tribeca)	Private Residence (West Village)	Toronto (Yorkville)
Building entry	Fully accessible. Lobby-level entry, elevator to unit.	STOOP ACCESS ONLY. 5 brownstone steps to front door. No ramp currently installed.	Fully accessible. Lobby-level entry, elevator to unit.
Elevator	Yes. Building elevators to all floors. ADA-compliant.	NO ELEVATOR. 4-story brownstone. Internal stairs only.	Yes. Building elevators. ADA-compliant.
Bathroom	Walk-in shower (ER en-suite). Grab bar: not currently installed but can be added.	Soaking tub + walk-in shower (PR en-suite). No grab bars. Tub entry may be difficult for mobility-limited guests.	Walk-in shower (TR en-suite). No grab bar.
Doorways	Standard 32"+. Wheelchair accessible.	Some original brownstone doorways may be 28–30". NOT wheelchair accessible on upper floors.	Standard 32"+. Wheelchair accessible.
Key limitation	No significant limitations.	Multi-floor brownstone without elevator is the primary barrier. Guest bedroom is on 3rd floor (2 flights up).	No significant limitations.

26.2 Accommodation Protocols for Dorothy Leigh

When Mr. Leigh's grandmother Dorothy visits (rare, due to mobility), the following accommodations apply: Host at Executive Residence (Tribeca) ONLY. Fully accessible. Elevator to unit. No stairs required. ER guest bathroom: place non-slip bath mat. Ensure clear path from bedroom to bathroom (no cables, rugs, or obstacles). Seating: ensure a firm, supportive armchair is available (the B and B Italia chairs have good lumbar support). Avoid low, soft seating that is difficult to exit. Lighting: increase to full brightness in hallways and bathrooms (fall prevention). Override normal dimmed settings. Temperature: Dorothy may prefer warmer (72–74°F). Adjust

Nest zone for the guest area. Meal service: serve at the dining table (not coffee table or casual setting). Ensure stable chair with arms. Emergency: BluePearl is for Winston only. For Dorothy, nearest ER: NewYork-Presbyterian Lower Manhattan, (212) 312-5000. Ambulance: 911.

26.3 Future Accessibility Planning

If the principals start a family (medium-term goal per Chapter 1, Section 7.3), the Private Residence will need child-safety modifications: stair gates (all floors), cabinet locks (kitchen and bathroom), outlet covers, and window guards (NYC law requires them in residences with children under 10). A separate child-safety audit should be commissioned when the time comes.

27. Dietary, Medical and Preference Classification System

This section establishes a clear 4-tier classification to distinguish between medical necessities (which affect safety), functional restrictions (which affect comfort), and personal preferences (which affect satisfaction). Every staff member must understand these distinctions. Confusing a preference with an allergy can cause unnecessary alarm; confusing an allergy with a preference can cause harm.

27.1 Classification Framework

Tier	Type	Code	Definition	Consequence if Ignored	Staff Response
TIER 1	⚠ Medical Allergy	RED	A clinically diagnosed immune-system reaction to a substance. Can cause symptoms ranging from discomfort to anaphylaxis (life-threatening).	Potential medical emergency. Could require EpiPen, hospital visit, or emergency services.	ABSOLUTE. Eliminate all contact. Verify with every provider. No exceptions, no estimates. If accidental exposure: call 911 if severe.
TIER 2	◆ Genetic Aversion	GOLD	A genetically determined reaction to a substance that causes strong physical discomfort (nausea, taste revulsion) but is NOT life-threatening and NOT an immune response.	Nausea, strong discomfort, ruined meal, principal distress. Not a medical emergency.	This is a strict household rule. Treat with the same operational seriousness as an allergy - always verify, always exclude - but understand this is not a medical emergency if accidental exposure occurs.

Tier	Type	Code	Definition	Consequence if Ignored	Staff Response
TIER 3	▶ Sensitivity	BLUE	A food or environmental sensitivity that causes mild-to-moderate discomfort (digestive issues, congestion) but is manageable and not dangerous.	Discomfort. Digestive upset. Congestion. Annoyance. Not an emergency.	MANAGE THOUGHTFULLY. Reduce exposure. Offer alternatives. Small amounts may be acceptable - check with the principal. Do not panic if accidental exposure occurs.
TIER 4	○ Preference	GREY	A personal choice about what the principal likes, wants, or enjoys. Not medically or genetically driven.	Displeasure. Inconvenience. Not a health issue.	RESPECT AND FULFIL. These matter for service quality but do not carry health consequences. If unavailable, offer the closest alternative and communicate clearly.

27.2 Leigh Household Classification Register

This is the definitive classification of every dietary, medical, and environmental item in the household.

27.2.1 Mrs. Kate Leigh

Item	Tier	Type	Detail	What to Do	What NOT to Do
Seasonal pollen	TIER 1	⚠ Medical Allergy	True immune-system allergy to seasonal pollen (March–May). Diagnosed by Dr. Priya Nair. Managed with Allegra 180mg daily during season.	Stock Allegra before March. Reduce or eliminate fresh flowers in spring (especially at PR). Increase HVAC filter changes (every 90 days: January, April, July, October). Monitor symptoms.	Do not dismiss as "just hayfever." This is a real allergy that affects her quality of life. Do not bring strongly scented flowers into the home during allergy season.

Item	Tier	Type	Detail	What to Do	What NOT to Do
Cilantro	TIER 2	◆ Genetic Aversion	OR6A2 gene variant causes cilantro to taste like soap and triggers nausea. NOT a food allergy. NOT life-threatening. But the physical response is real and involuntary.	Must never include cilantro in any dish. Verify with every food provider, chef, caterer, and restaurant. Label clearly in kitchen. Remove from PR herb garden.	Do not call it an "allergy" to medical professionals (it is not one). Do not treat accidental exposure as a medical emergency - but DO apologise, remove the dish, and replace it immediately. Do not assume she is being "picky."
Mediterranean cuisine	TIER 4	○ Preference	Enjoys Mediterranean and plant-forward cuisine. Seasonal ingredients. Beautiful presentation.	Plan menus accordingly. Source quality produce from Citarella and farmers markets.	Do not serve heavily processed food. Do not neglect presentation - she notices.
Sauvignon Blanc	TIER 4	○ Preference	Preferred white wine. Marlborough NZ or Loire Valley.	Keep 2 bottles chilled at all times.	Not a restriction - she also enjoys Chardonnay and rosé.
Warm lighting	TIER 4	○ Preference	Strongly dislikes harsh overhead lighting. Prefers layered, warm light.	Lutron evening scene: floor lamps at 60%, overhead OFF.	Not a medical issue but a consistent, strongly held preference.
No synthetic fragrances	TIER 4	○ Preference	Dislikes synthetic scents in cleaning products and personal care. Prefers Seventh Generation, Aesop.	Use only approved products.	Not an allergy. She will not have a medical reaction. But it matters to her.

27.2.2 Mr. Andrew Leigh

Item	Tier	Type	Detail	What to Do	What NOT to Do
Lactose	TIER 3	▶ Sensitivity	Mild lactose sensitivity causing digestive discomfort with heavy dairy. Small amounts tolerated (splash of cream, hard cheese, butter). NOT an allergy. NOT dangerous.	Avoid heavy dairy dishes (cream sauces, large cheese portions, ice cream). Light dairy is fine: butter for cooking, parmesan as garnish, yoghurt for breakfast.	Do not eliminate all dairy - he eats Greek yoghurt daily. Do not call it an "allergy." Do not panic if he eats cheese at a dinner - he manages it himself for small amounts.
Black coffee	TIER 4	○ Preference	Counter Culture medium roast, black, no sugar, no milk. Specific mug at ER.	Grind fresh. Serve in his designated mug. Have it ready by 6:45 AM.	Not a restriction. If Counter Culture runs out, any quality medium roast is acceptable temporarily. But reorder immediately.
Simple meals	TIER 4	○ Preference	Prefers clean, simple food: grilled protein, seasonal vegetables, quality ingredients.	Plan accordingly. Don't over-complicate his meals.	Not a dietary restriction. He will eat rich food at restaurants or special occasions.
Silence during work	TIER 4	○ Preference	Requires absolute silence during focused work blocks. No interruptions, no cleaning, no noise.	Enforce quiet zones per SOP. Crestron office scene.	Not a medical need but a functional requirement for his work. Treat with operational seriousness.
68–70°F temperature	TIER 4	○ Preference	Prefers cooler environment than Mrs. Leigh (who prefers 70–72°F).	Set Nest zones accordingly. Office: 68–69°F.	A preference, not a medical requirement. Compromise zones (e.g., meeting lounge) default to 69°F.

27.2.3 Winston

Item	Tier	Type	Detail	What to Do
Ear infections	TIER 3	▶ Sensitivity (breed)	English Springer Spaniels are prone to ear infections due to long, floppy ears that trap moisture.	Check ears weekly. Clean with vet-approved ear solution after baths or rain. If redness, odour, or head shaking: schedule vet visit with Dr. Webb.
Orijen food	TIER 4	○ Preference (vet-recommended)	Orijen Original Adult kibble per Dr. Webb' recommendation. Not a medical requirement but the vet's preferred brand.	Feed twice daily (8 AM + 6:30 PM). If Orijen unavailable temporarily: any high-protein, grain-inclusive kibble is acceptable for 1–2 days. Reorder immediately.

27.3 Quick Classification Card (Laminate for Service Zone)

Post this in each residence service zone for immediate reference.

	Type	Person	Item	Action Level
⚠	Medical Allergy	Mrs. Leigh	Seasonal pollen (spring)	ELIMINATE exposure. Stock Allegra. Reduce flowers March–May.
◆	Genetic Aversion	Mrs. Leigh	Cilantro	Must never include. Verify every food source. Not an emergency if accidental.
▶	Sensitivity	Mr. Leigh	Lactose (mild)	Avoid heavy dairy. Light amounts OK. He self-manages.
▶	Sensitivity	Winston	Ear infections (breed)	Weekly ear check. Vet if redness or odour.
○	Preference	Mrs. Leigh	Mediterranean cuisine, warm lighting, no synthetic scent	Respect and fulfil. Not health-related.
○	Preference	Mr. Leigh	Black coffee, simple meals, silence during work, cool temps	Respect and fulfil. Not health-related.

The rule: Tier 1 and Tier 2 are operational absolutes - you must prevent exposure every time. Tier 3 requires thoughtful management - reduce exposure but don't panic. Tier 4 is about service excellence - meeting preferences consistently is what separates good service from great service, but missing a preference is never a safety issue.

- End of Classification System -

28. Lifestyle Context and Wealth-Appropriate Standards

At about $120 million in net worth, the Leigh household is in the ultra-high-net-worth (UHNW) category. However, this is first-generation wealth earned within the past 3-5 years. The principals are still developing their lifestyle infrastructure. They are not flashy spenders. They value quality, discretion, and long-term thinking over display. Staff should understand that the household is intentionally conservative for this wealth bracket - but it is scaling up, and the butler should anticipate growing complexity.

28.1 Lifestyle Scaling Roadmap

The following table shows where the household currently stands versus where it is likely heading. Staff should be prepared for each of these developments.

Area	Current Status	Planned / Likely (1-3 years)	Butler Preparation
Properties	3 residences (NYC x2, Toronto). Total real estate ~$23-28M.	4th property likely: vacation home in the Hamptons (East Hampton or Bridgehampton, $5-15M range). Mrs. Leigh has been researching areas. Mr. Leigh sees it as a client entertainment venue.	Begin learning Hamptons vendor networks, seasonal staffing, and property management norms. Flag when the principals start scheduling Hamptons visits.
Art collection	Modest: 3 original works at PR (~$30-50K total), 2 framed photographs at ER ($8-15K). Mrs. Leigh collects slowly and intentionally.	Growing collection. Mrs. Leigh attends gallery openings and art fairs (Frieze, Armory Show). Acquisitions in the $10-50K range becoming more frequent. Possible first major piece ($100K+) within 2 years.	Learn art handling basics: never touch glass or canvas, climate control awareness, insurance documentation for new acquisitions. Build relationship with ArtSecure NYC (212) 555-1372). Photograph and log all new pieces.
Wine	Casual: 20-30 bottles stored in PR kitchen and ER service zone. No cellar. Drinking wines ($20-60/bottle) plus a few special bottles ($100-200).	Mrs. Leigh is developing her palate. Likely investment: proper wine storage (EuroCave unit, ~$3,000-5,000) at PR within the year. Collection may grow to 100-200 bottles. Possible wine advisor relationship.	Research wine storage options for PR brownstone (basement is climate-appropriate). Track what the principals drink and build a preference profile. When wine storage arrives, implement inventory tracking per Chapter 6 beverage management.
Fitness	Mr. Leigh: runs outdoors 3-4x/week, occasional gym (building fitness centre at ER). Mrs. Leigh: yoga studio membership, occasional Pilates.	Home gym likely at PR. The 4th floor has a flex bedroom (280 sq ft) that could convert. Equipment: Peloton, free weights, yoga space. Estimated: $8,000-15,000 setup.	If home gym is approved: research equipment delivery and installation. Ensure floor protection (brownstone hardwood). Maintain equipment cleaning schedule. Building fitness centre at ER remains available as supplement.

Area	Current Status	Planned / Likely (1-3 years)	Butler Preparation
Staffing	4 staff: butler ($130K), housekeeper ($58K), chef ($62K, 4 days/week), shared PA. No personal trainer, stylist, or nanny.	Chef may move to full-time ($55-65K) as entertaining increases. Personal trainer possible (2-3 sessions/week, ~$15-20K/yr). If children arrive: nanny ($75-100K) becomes the largest new expense.	Track principal satisfaction with current staffing. When workload increases (Hamptons, more entertaining, children), present a staffing proposal using S-O-R format.
Vehicle (Toronto)	2024 BMW X5 xDrive40i (leased, ~CAD $55K value). Functional, not luxury-tier.	At lease end (June 2028), likely upgrade to Porsche Cayenne, Range Rover Sport, or Mercedes GLE. Budget: CAD $90-130K. May shift from lease to purchase.	Research replacement options 6 months before lease end. Present 3 options with cost comparison. Consider hybrid/electric to align with sustainability values.
Philanthropy	Early stage. Education and technology equity focus. No formal foundation yet.	Leigh Family Foundation likely within 2-3 years. Annual giving target: $1.2–2M (0.4-0.8% of net worth). May hire a philanthropy advisor.	Support event logistics for charitable dinners. Maintain guest lists with philanthropic connections. Track giving in Chapter 6 philanthropy section.

28.2 Leigh Infrastructure Capital - Family Office Context

Mr. Leigh's firm, Leigh Infrastructure Capital (LIC), operates from a separate commercial office in Midtown Manhattan (Park Avenue, 15th floor, ~2,500 sq ft). The firm employs 8 people including Mr. Leigh. The butler does not manage the office, but should understand the relationship:

Aspect	Detail	Butler Relevance
Location	375 Park Avenue, 15th Floor, New York, NY 10152	Not a household property. Butler does not visit unless specifically asked.
Staff	Mr. Leigh (Managing Partner), 2 analysts, 1 associate, 1 operations manager, shared PA (also serves household), 1 compliance officer, 1 office manager, 1 intern	The shared PA is the only overlap between office and household. Coordinate scheduling through the PA.
Relationship to household	LIC is the source of the family's wealth and Mr. Leigh's primary professional identity. Investors visit both the LIC office and the Executive Residence. The ER functions as an extension of LIC for high-touch meetings.	Understand that ER meetings are business-critical. The quality of hospitality at the ER reflects on LIC. Investor guests at the ER should receive the same standard as the LIC office.
Financial separation	LIC expenses are entirely separate from household expenses. The butler does not track, manage, or report on LIC finances. The household operating budget ($515,000 from Chapter 6 (revised budget)) is purely personal.	If a vendor invoice is ambiguously business vs. personal, flag it with the PA. Never charge household expenses to LIC or vice versa.

28.3 Art Collection - Expanded Register

Mrs. Leigh is building the collection deliberately. She prefers contemporary work by emerging and mid-career artists, with a focus on landscape, light, and texture. She does not buy art as investment - she buys what she connects with emotionally. The butler should log each acquisition and coordinate with ArtSecure NYC for handling.

Piece	Artist	Medium	Location	Year Acquired	Insurance Value	Care Notes
EXECUTIVE RESIDENCE (TRIBECA)						
Landscape I	Thomas Ruff (print, signed ed.)	C-print, framed aluminium	Meeting lounge, north wall	2025	$12,000	UV-protective glass. No direct sunlight. Dust frame monthly.
Landscape II	Thomas Ruff (print, signed ed.)	C-print, framed aluminium	Meeting lounge, east wall	2025	$12,000	Pair with Landscape I. Exact spacing documented (48” centre-to-centre).
Untitled (Console)	Local ceramicist (commissioned)	Glazed stoneware vessel	Foyer console table	2025	$1,800	Decorative only. Handle with care. Do not move without Mrs. Leigh approval.
PRIVATE RESIDENCE (WEST VILLAGE)						
Horizon Line	Emerging painter (acquired at Frieze 2025)	Oil on linen, 60” x 48”	Living room, above fireplace	2025	$35,000	Largest and most valuable piece. Climate-controlled room. No cleaning products near it. Professional cleaning only.
Self-Portrait (Garden)	Mrs. Leigh (her own photograph)	Archival pigment print, framed	Living room, bookshelf wall	2024	$500 (sentimental)	Personal significance. Treat with extreme care despite low monetary value.
Light Study #4	Mrs. Leigh (her own photograph)	Archival pigment print, framed	Living room, bookshelf wall	2024	$500 (sentimental)	Same as above. Mrs. Leigh’s own work from her RISD days.

Piece	Artist	Medium	Location	Year Acquired	Insurance Value	Care Notes
Travel ceramics (3 pieces)	Various (collected from Japan, Portugal, Mexico)	Ceramic vessels	Living room bookshelves	2023-2025	$800-1,200 each	Each has a travel memory attached. Handle individually. Never group-clean.
Seasonal floral arrangement	Bloom and Branch (weekly)	Fresh flowers	Foyer console, dining table	Ongoing	N/A	Weekly delivery. Mrs. Leigh approves styles seasonally. Low-scent in spring (allergy).
				TOTAL INSURED VALUE	~$65,000	Growing. Update annually with accountant.

28.4 Wine Collection - Current Inventory

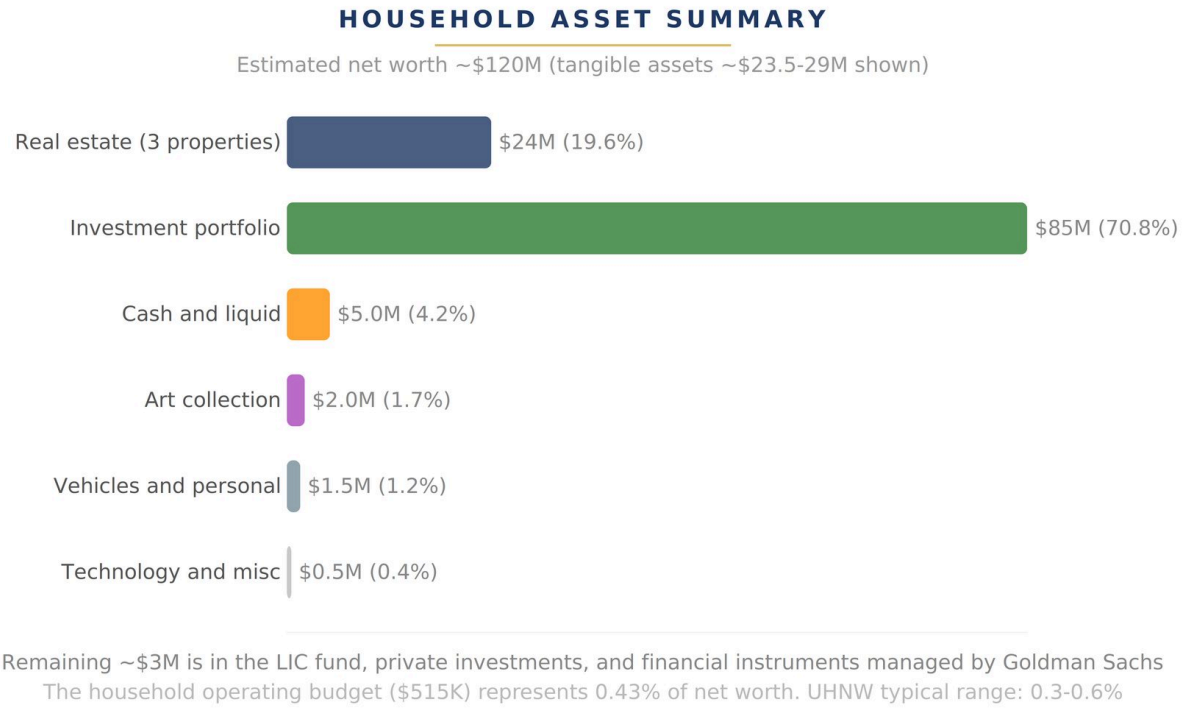

Wine	Type	Qty	Location	Price Range	Notes
DRINKING WINES (regular rotation)					
Cloudy Bay Sauvignon Blanc	White (NZ Marlborough)	4-6 bottles	PR kitchen wine rack	$22-28/bottle	Mrs. Leigh's everyday white. Always have 2+ chilled.
Sancerre (Domaine Vacheron)	White (Loire Valley)	2-3 bottles	PR kitchen	$35-45/bottle	Special occasions white. Mrs. Leigh prefers this for guests.
Willamette Valley Pinot Noir	Red (Oregon)	3-4 bottles	PR kitchen	$25-35/bottle	Pair with steak, roast chicken. Mr. Leigh's preferred red.
Barolo (Pio Cesare)	Red (Piedmont)	2 bottles	PR kitchen	$55-70/bottle	Special occasion red. Decant 1 hour before serving.
SPECIAL BOTTLES (reserved)					
Dom Pérignon 2012	Champagne	2 bottles	PR kitchen (back of rack)	$200/bottle	Anniversary, major celebration only. Do not open without principal instruction.

Wine	Type	Qty	Location	Price Range	Notes
Château Margaux 2015	Red (Bordeaux)	1 bottle	PR kitchen (back of rack)	$450	Gift from investor. Significant. Do not open without principal instruction.
SPIRITS					
Glenfiddich 15 Year	Single malt whisky	1 bottle	ER bar area	$65	Mr. Leigh, rare occasions. Never suggest.
Hendrick's Gin	Gin	1 bottle	ER bar area	$35	For guests. Serve with Fever-Tree tonic + cucumber.
		~25 bottles total		Total value: ~$1,800-2,200	Wine storage upgrade planned

Planned upgrade: EuroCave Performance 259 wine cabinet (~$4,500) for the PR basement. Holds 259 bottles. Temperature-controlled at 55°F. Mrs. Leigh is researching models. When approved, butler to coordinate delivery, installation, and inventory transfer.

28.5 Total Household Asset Summary

For insurance and estate planning purposes, the butler maintains awareness of the total household asset picture (excluding LIC business assets, investment portfolio, and cash holdings, which are managed by Goldman Sachs and PwC).

Category	Est. Value	Notes
Real estate (3 properties)	$23-28 million	ER $8.5-10M + PR $12-15M + TR CAD $3.5-4.5M
Furnishings (all residences)	$280,000-350,000	ER: ~$90K (Minotti, B and B Italia, Crestron, Samsung, Sub-Zero). PR: ~$180K (De Padova, Cassina, La Cornue, Savoir, vintage rug, fireplace). TR: ~$25K (BoConcept, West Elm, Breville, LG).
Art collection	~$65,000	Growing. See Section 28.3. Update annually.
Wine and spirits	~$2,000	Modest. Expected to grow with wine storage upgrade.
Jewellery	~$45,000-60,000	Mrs. Leigh engagement ring (~$35-45K). Wedding bands (2, platinum). Watch collection modest (Apple Watches, not luxury mechanical).
Vehicle (Toronto)	~$42,000 (lease residual)	BMW X5 leased. Not an owned asset. Upgrade planned at lease end.
Technology and electronics	~$35,000	MacBooks, iPads, iPhones, Apple Watches, TVs, Sonos, Crestron, Eero, smart home systems across 3 residences.
Personal effects and clothing	~$60,000-80,000	Conservative estimate. Quality wardrobe (both principals). No major luxury goods (Birkin, etc.).
TOTAL TANGIBLE HOUSEHOLD ASSETS	~$23.5-29M	96-97% is real estate. Remainder is modest for this wealth level - consistent with new wealth, still building.

Context: At $120M net worth, the tangible household assets (~$28M) represent about 23% of total wealth. The remaining 77% is in the LIC fund, public/private investments, cash, and financial instruments managed by Goldman Sachs. This is a healthy, investment-heavy allocation consistent with a founder who made wealth through financial returns rather than lifestyle accumulation. The household asset base will grow naturally as the principals settle into their lifestyle over the next 3-5 years.

Chapter 2: Executive Residence (Tribeca)

Key abbreviations: ER = Executive Residence, Tribeca | GFCI = Ground Fault Circuit Interrupter | AFCI = Arc Fault Circuit Interrupter | HVAC = Heating, Ventilation, and Air Conditioning | AV = Audio-Visual | HOA = Homeowner's Association | UPS = Uninterruptible Power Supply. Full glossary in Table of Contents.

Table of Contents

1. Introduction to Residence Intelligence
2. Residence Portfolio Overview
3. NYC Executive Residence - Full Profile

1. Introduction to Residence Intelligence

For a household at the ~$120 million net worth level operating across three residences in two countries, property management is not a side note - it is a discipline. Each residence functions as a distinct operating environment with its own purpose, service style, rhythm, and risk profile. Staff must understand each property as thoroughly as they understand the principals themselves. This chapter provides deep-dive intelligence on every residence: the neighborhood context, the building relationship, the exact layout, room-by-room operational notes, technology infrastructure, furnishings and art, security systems, and the specific character of service expected in each space. **Why this level of detail matters:** A $120M household doesn't tolerate estimates. When the butler prepares the Executive Residence for a meeting with a sovereign wealth fund representative, every detail - the temperature, the water brand, the positioning of chairs, the angle of the display - reflects on the principals. When Mrs. Leigh returns to the Private Residence after a long day, the lighting must be exactly right, the temperature must be exactly right, and the silence must be complete. This section ensures that consistency is possible regardless of which staff member is on duty.

2. Residence Portfolio Overview

2.1 Portfolio at a Glance

	NYC Executive Residence	NYC Private Residence	Toronto Business Residence
Neighborhood	Tribeca, Manhattan	West Village, Manhattan	Yorkville, Toronto

	NYC Executive Residence	NYC Private Residence	Toronto Business Residence
Property type	High-floor condominium in luxury tower	Brownstone (full ownership, 4 floors)	High-rise condominium
Approximate size	3,800 sq ft (353 m^2)	4,200 sq ft (390 m^2) across 4 floors	2,200 sq ft (204 m^2)
Bedrooms / Bathrooms	2 bed / 2.5 bath	4 bed / 3.5 bath	2 bed / 2 bath
Estimated value	$8.5–$10M	$12–$15M	CAD $3.5–$4.5M (~$2.5–$3.3M USD)
Ownership	Owned (condo)	Owned (freehold)	Owned (condo)
Primary purpose	Professional hub; investor meetings; work base	Personal living; family; recovery; Winston's home	International travel base; Canadian business meetings
Service style	Executive hospitality	Domestic calm	Hotel-level hybrid
Primary risk	Confidentiality breach	Routine disruption	Travel friction
Annual operating budget	$59,800 (26% of total)	$80,500 (35% of total)	$14,400 USD equiv. (17% of total)

2.2 Property Acquisition Context

The three residences were acquired over a two-year period following the principal capital event in 2024–2025. The NYC Executive Residence was the first acquisition, purchased to support the growing meeting schedule of Leigh Infrastructure Capital. The West Village brownstone was acquired as the family's primary home - Mrs. Leigh fell in love with the architectural character and the quiet, tree-lined street. The Toronto property was added to reduce cross-border travel friction for Mr. Leigh's Canadian partnerships. The total real estate portfolio represents about $20–$28 million of the family's ~$120M net worth (17–23%), which is a conservative allocation consistent with the principals' preference for liquidity and investment-focused capital deployment.

3. NYC Executive Residence - Full Profile

3.1 Property Intelligence

Attribute	Detail
Address	[Confidential - filed separately for security]
Neighborhood	Tribeca, Lower Manhattan. One of NYC's most prestigious and private neighborhoods, favored by finance professionals, creatives, and high-net-worth families. Quiet cobblestone streets with proximity to FiDi.
Building	Luxury residential tower, 60+ floors, built 2016. Full-time doorman, concierge, package room, private resident elevators, fitness centre, rooftop terrace. Managed by a reputable property management firm.

Attribute	Detail
Unit position	Upper floors (40+). Corner unit with north and east exposure. Exceptional natural light; partial Hudson River views. Sound insulation is excellent.
Size	About 3,800 sq ft (353 m^2). Open-plan living and meeting area; two bedrooms; 2.5 bathrooms; separate kitchen with service pantry; home office; storage.
Parking	One reserved space in building garage. Rarely used (car service preferred). Available for guest or vendor parking when needed.
HOA / building fees	About $4,200/month. Covers doorman, concierge, common areas, fitness, roof, water, building insurance.
Property tax	About $48,000/year (managed by the family's accountant, not the butler).

3.2 Building Relationship

The relationship with building management is a critical operational asset. The butler should build a professional, respectful rapport with the following building contacts:

Role	Name	Contact	Relationship Notes
Building manager	David Kowalski	(212) 555-0310	Primary contact for all building issues. Professional and responsive. Schedule a quarterly check-in to maintain relationship.
Head concierge	Marco Rossi	(212) 555-0311	Manages package reception, guest access, and building amenities. Knows the Leighs by name. Discreet and helpful.
Doorman (day shift)	James Thornton	(212) 555-0312	On duty 7 AM–3 PM. First point of contact for guest arrivals. Has been briefed on confidentiality standards.
Doorman (evening)	Carlos Mendez	(212) 555-0313	On duty 3–11 PM. Professional. Handles late meeting arrivals. Knows key repeat visitors by sight.
Security desk	Building security team	(212) 555-0314	24/7. Guest registration, CCTV monitoring, emergency response. All guest pre-registration goes through this desk.

Critical protocol: Guest names are provided to building security no more than 2 hours before arrival, and only by the butler. Never provide a full day's guest list in advance. After the meeting, confirm with security that the guest record is handled per building privacy policy.

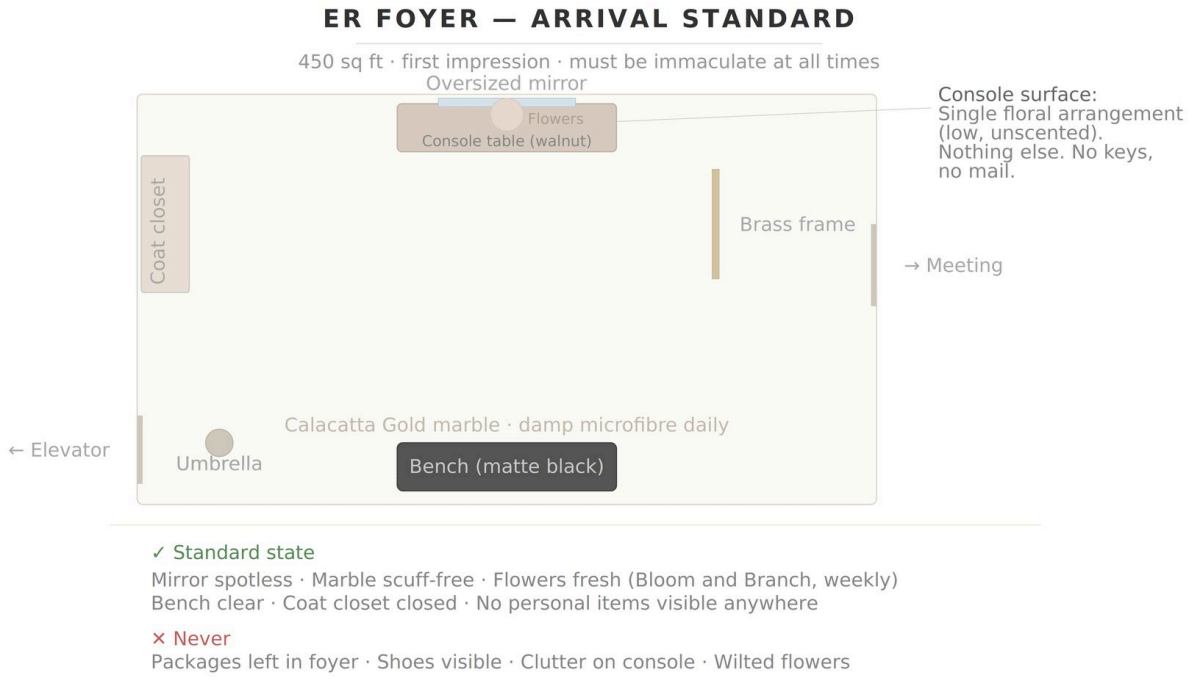

3.3 Detailed Zone Diagram

The Executive Residence is divided into five operational zones. The diagram below shows the spatial flow and relationship between zones.

EXECUTIVE RESIDENCE - ZONE LAYOUT (3,800 sq ft)					
ELEVATOR LOBBY Private keyed access	→	A: FOYER 450 sq ft • First impression	→	B: MEETING 600 sq ft • Presentations	B2: DINING 350 sq ft • 6-seat table
		|		|	
		C: OFFICE 350 sq ft • Mr. Leigh's work	← →	E: SERVICE 400 sq ft • Kitchen + pantry	E2: PANTRY 150 sq ft • Staging area
		|			
		D: PRIMARY SUITE 550 sq ft • Bed + sitting	←	D2: EN-SUITE 200 sq ft • Marble bath	GUEST BATH 100 sq ft • Powder room

3.4 Room-by-Room Intelligence

Zone A: Foyer / Reception (450 sq ft)

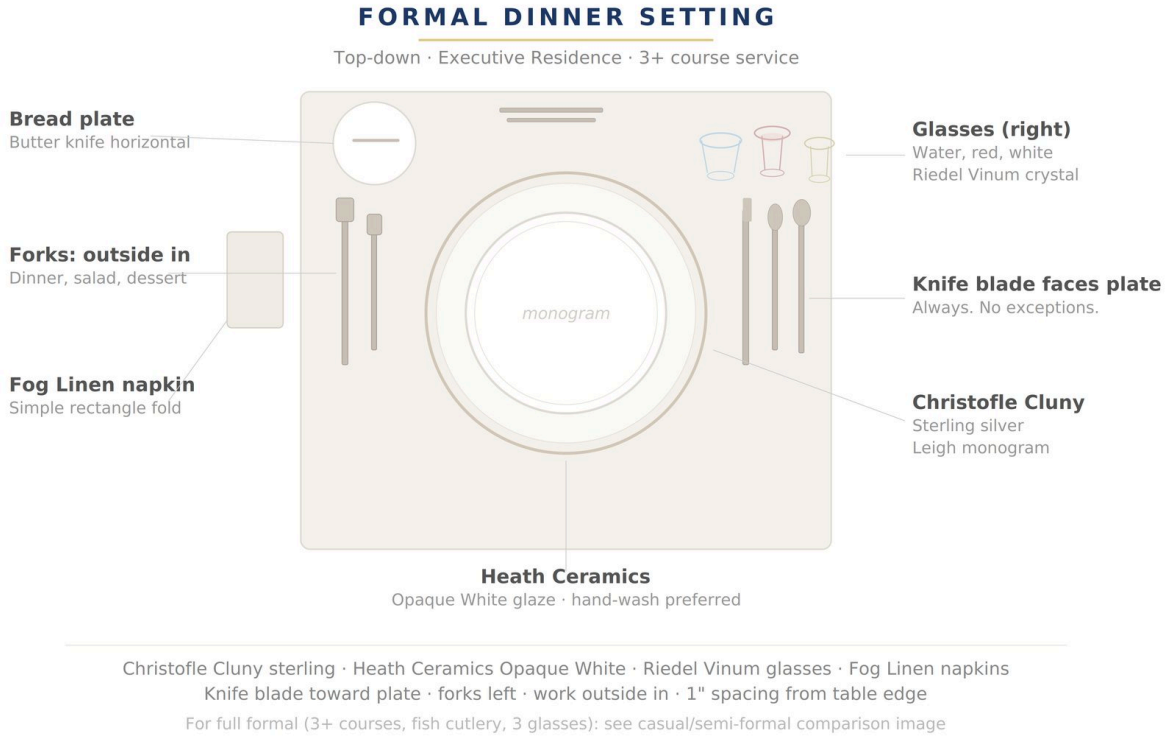

Element	Detail	Operational Standard
Purpose	Controlled arrival point. First and last impression for every guest.	Must be immaculate at all times. No personal items, packages, or clutter visible.
Flooring	Honed Italian marble (Calacatta Gold). Light grey veining.	Wipe with damp microfibre daily. No abrasive cleaners. Polish monthly with stone-safe product. Address scuffs immediately.
Lighting	Recessed LEDs on dimmer. Accent pendants over console table.	Daytime: 70% brightness. Evening: 50%. Meeting arrivals: 65% (professional but warm). Bulbs checked weekly.
Furniture	Console table (walnut, custom). Oversized mirror (brass frame). Umbrella stand (matte black). Bench with storage (guest coats).	Console surface: always empty except a single fresh floral arrangement (low, unscented). Bench seat clear. Mirror spotless.
Coat handling	Walk-in coat closet adjacent to foyer. Quality wooden hangers (30+). Garment brush. Lint roller.	Hang guest coats immediately on arrival. Retrieve and present coats as guests depart. Brush visible lint before returning. Empty closet nightly.
Scent	No active scent diffusion. Natural ventilation.	The foyer should smell of nothing. If cooking odours drift, address ventilation before guest arrival.
Common pitfalls	Packages left by doorman. Shoes or bags visible. Console cluttered. Lighting wrong for time of day. Guest confusion about where to go.	Packages moved to storage within 15 minutes of delivery. Shoes stored in closet. Guest guided immediately upon entry.

Zone B: Meeting Lounge (600 sq ft)

Element	Detail	Operational Standard
Purpose	Primary discussion space for professional meetings. Must support confidential, high-stakes conversations with investor-grade polish.	This room sets the tone for every business interaction in the household. Perfection is the minimum standard.
Seating	Two Minotti sofas (grey wool blend, 3-seat each) facing each other. Two B&B Italia armchairs at ends. Custom coffee table (bronze + glass).	Cushions aligned after every use. Fabric lint-rolled weekly. No indentations visible. Coffee table surface always clear except water service.
Technology	82-inch Samsung The Frame (art mode when idle). Sonos ceiling speakers. Crestron control system for AV, lighting, and blinds. 4K webcam + mic array for video calls.	AV tested 30 minutes before every meeting. Art mode active when no meeting. Remote batteries checked weekly. Backup HDMI cable in console drawer.
Lighting	Lutron automated blinds (north-facing). Recessed LEDs on scene control. Floor lamp (Flos Arco replica) for accent.	Meeting scene: blinds at 60%, LEDs at 65%, floor lamp off. Casual scene: blinds open, LEDs at 40%, floor lamp on. Scenes pre-set in Crestron.

Element	Detail	Operational Standard
Flooring	Wide-plank white oak hardwood. Low-pile wool rug (custom, neutral tone) under seating area.	Vacuum rug 3x/week. Hardwood dust-mopped daily. No wet mopping (damages finish). Rug professionally cleaned annually.
Art	Two large-format contemporary photographs (landscapes). Framed in slim black aluminium.	Never touch glass with bare hands. Dust frames monthly with microfibre. If repositioned for any reason, return to exact marks (noted on wall with pencil).
Water service	Acqua Panna (still) and San Pellegrino (sparkling) in glass bottles. Riedel tumblers. Marble coasters.	Pre-stage on side console before meetings. Place on coffee table only when guests are seated. Refill proactively. Remove all service within 15 minutes of meeting end.
Sound	Room must be silent during meetings. Sonos off. HVAC on whisper mode. Kitchen activity paused.	Confirm silence before guests enter. If construction or street noise is audible, close windows and activate white noise machine (stored in console).

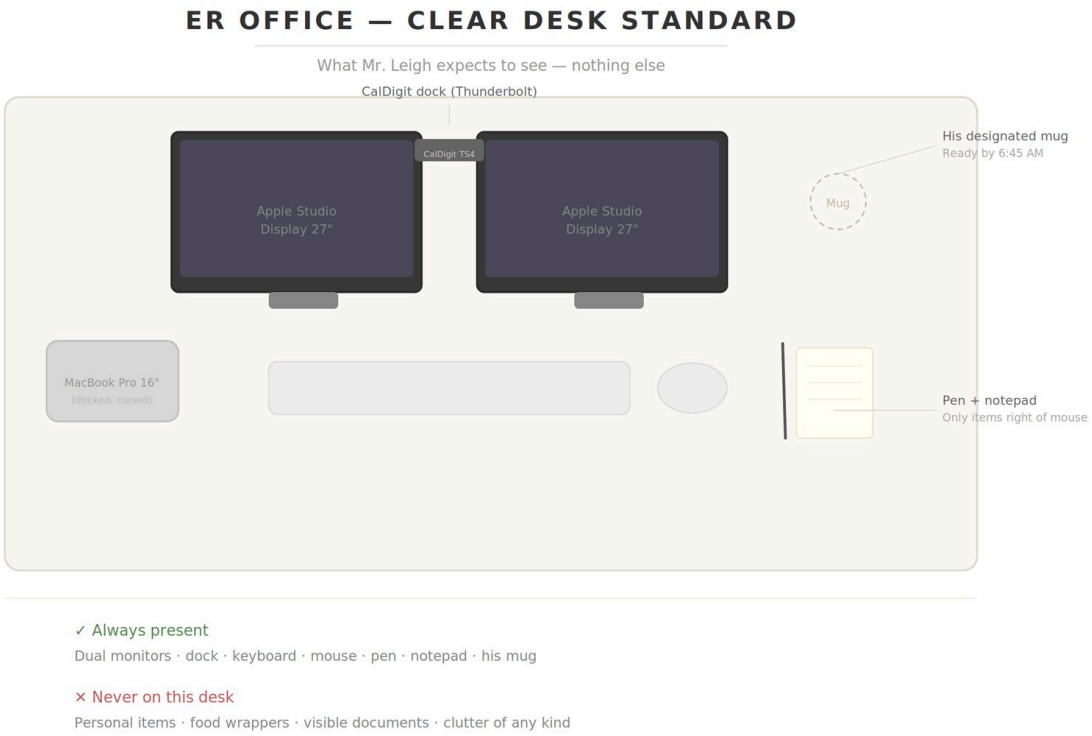

Zone B2: Executive Dining (350 sq ft)

Element	Detail	Operational Standard
Purpose	Professional dinners and working meals. Seats 6 comfortably; 8 maximum for special occasions.	Not theatrical. Clean, modern, and understated. The food and conversation are the focus, not the table.

Element	Detail	Operational Standard
Table	Custom walnut dining table, 8-foot, seats 6–8. Matching chairs (upholstered in charcoal linen).	Surface protected with felt pads under all serving items. Wipe with damp cloth after every meal. Chair seats inspected for stains weekly.
Tableware	Wedgwood Gio collection (white, modern). Riedel Vinum wine glasses. Christofle Cluny flatware (silver plate). Irish linen napkins (white).	Full inventory maintained: 8 place settings minimum. Inspect for chips before each use. Flatware polished monthly. Linen pressed before each use.
Lighting	Pendant chandelier (brushed brass, dimmable). Recessed accents on art wall.	Dinner scene: pendant at 45%, accents at 30%. Intimate and warm. Never harsh or clinical.

Zone C: Private Office (350 sq ft)

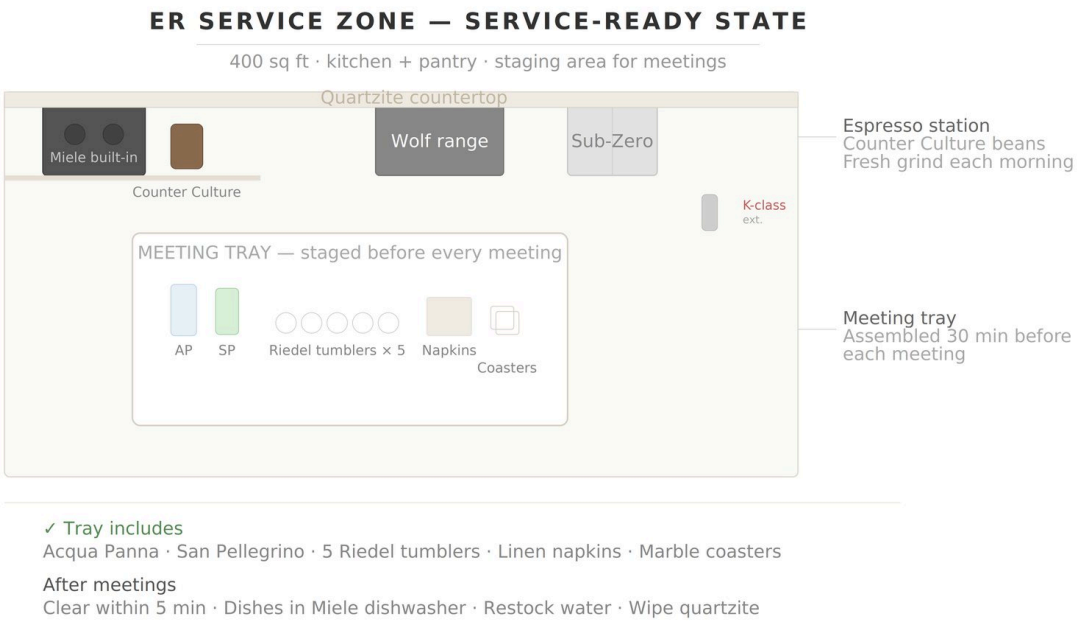

Element	Detail	Operational Standard
Purpose	Mr. Leigh's confidential workspace. Deep focus, calls, document review, strategy work. This room is his sanctuary.	SILENCE is absolute. Do not enter without invitation. Do not knock unless urgent. Clear desk standard enforced daily.
Desk	Custom standing/sitting desk (motorised). Dual 27-inch monitors. Docking station for laptop. Integrated cable management.	Desk surface: monitors, keyboard, mouse, one pen, one notepad. Nothing else. All cables hidden. Chargers in consistent positions.

Element	Detail	Operational Standard
Seating	Herman Miller Aeron chair (fully adjustable). Reading chair (Vitra Eames replica) with ottoman in corner.	Aeron adjusted to Mr. Leigh's settings (documented). Reading chair cushion brushed weekly.
Storage	Built-in walnut shelving. Locked filing cabinet (Mr. Leigh holds key). Shredder (cross-cut, commercial grade).	Butler does not access locked cabinet. Shredder emptied weekly. Shelves dusted bi-weekly.
Technology	Dedicated high-speed ethernet connection. Mesh Wi-Fi node in room. UPS (uninterruptible power supply) for monitors and docking station.	Internet speed tested monthly. UPS battery tested quarterly. If power flickers, UPS provides 15 minutes - enough time to save work.
Temperature	68–69°F during work blocks. Mr. Leigh prefers slightly cooler than the rest of the residence.	Thermostat set independently for this zone if possible. If not, adjust building HVAC schedule to cool this area during work hours.

Zone D: Primary Suite (550 sq ft + 200 sq ft en-suite)

Element	Detail	Operational Standard
Purpose	Overnight accommodation for late work nights or when the Private Residence is being prepared. Not used nightly - this is a backup/convenience.	Hotel-level readiness at all times, even if not expected to be used. Fresh linens, towels, water.
Bed	King-size platform bed (custom walnut frame). Frette linens (white, 600 thread count). Cashmere throw.	Linens changed weekly regardless of use. Bed made to hotel standard. Throw folded at foot of bed.
En-suite bathroom	Walk-in rain shower (marble tile). Dual vanity. Heated floors. Dornbracht fixtures.	Spotless. Towels folded in hotel presentation. Aesop toiletries stocked (body wash, shampoo, conditioner, lotion). Heated floors on timer (activate 30 min before expected use).
Temperature	67–68°F. Cool for sleeping.	Thermostat adjusted by 6 PM if overnight stay is planned. Blackout curtains drawn.

Zone E: Service Zone / Kitchen (400 sq ft + 150 sq ft pantry)

Element	Detail	Operational Standard
Purpose	Hospitality staging. All food and beverage preparation. Must operate invisibly during meetings.	The most critical operational zone. Everything that reaches the guest was prepared here. It must be flawless and silent.
Kitchen	Sub-Zero refrigerator/freezer. Wolf 6-burner range with double oven. Miele dishwasher (ultra-quiet). Quartzite countertops. Walnut cabinetry.	Counters clear at all times except during active prep. Appliances wiped daily. Dishwasher run after every event; never leave dirty dishes overnight. Soft-close cabinets mandatory.
Pantry	Walk-in with adjustable shelving. Dry goods, canned items, beverages, backup glassware, serving trays, meeting tray kits.	Organised by category with labels. FIFO rotation (first in, first out). Inventory checked weekly. Meeting tray kits pre-assembled and ready.
Sound isolation	Solid-core door between kitchen and meeting lounge. Felt pads on all cabinet doors.	Door closed during all meetings. No blender, food processor, or loud appliance use during meetings. Gentle movements. Whisper zone.
Coffee station	Miele built-in espresso machine. Baratza Encore grinder. Counter Culture Coffee beans. Serving tray with cups, saucers, spoons, sugar, milk alternatives.	Machine cleaned daily. Beans ground fresh (never pre-ground). Espresso machine descaled monthly. Serving tray restocked after every use.

3.5 Technology Infrastructure Map

System	Equipment	Location	Maintenance	Backup Plan
Internet	1 Gbps fibre (Verizon Fios). Eero Pro mesh system (3 nodes).	Utility closet; nodes in office, meeting, bedroom	Speed test monthly; firmware quarterly; restart monthly	Mobile hotspot (Verizon) in office drawer
AV / conferencing	Samsung The Frame 82". Sonos ceiling speakers (4). Crestron processor. Logitech Rally camera + mic.	Meeting lounge	Test before every meeting. Firmware quarterly.	Laptop + HDMI direct to TV. Backup cable in console.
Office tech	Dual 27" monitors. CalDigit dock. UPS. Ethernet switch.	Private office	Monthly internet test. UPS battery quarterly.	Wi-Fi fallback. UPS provides 15 min.
Climate	Nest Learning Thermostat (zoned). 3 zones: meeting, office, bedroom.	Wall-mounted per zone	Battery check monthly. Calibrate seasonally.	Manual HVAC override at building panel.
Lighting	Lutron Caseta system. Automated blinds. Scene control via app and wall switches.	Throughout residence	Scene programming updated as needed. Bulbs replaced proactively.	Manual switch override at each fixture.
Security	Building CCTV (lobby, elevators, corridors). Unit: smart lock (August Pro) + deadbolt. Alarm panel (building-integrated).	Entry door; building common areas	Lock battery bimonthly. Test alarm quarterly.	Physical key backup (butler carries copy).

3.6 Security Profile

Layer	Description	Managed By
Building perimeter	24/7 doorman. CCTV at entries, lobby, elevators, garage. Visitor registration required.	Building security team
Unit access	Smart lock (August Pro) with auto-lock. Physical deadbolt as backup. Only butler and principals have codes/keys.	Butler + principals
Guest access protocol	Pre-register with security 2 hours before. Butler meets at unit door. No unescorted guests in sensitive areas (office, bedroom).	Butler coordinates with building
Vendor access	Scheduled only. Butler or housekeeper present during all vendor work. No unsupervised access.	Butler schedules and escorts

Layer	Description	Managed By
Document security	Shredder in office. Locked filing cabinet (Mr. Leigh's key). No printed documents left visible after meetings.	Butler enforces; Mr. Leigh controls cabinet
Digital security	Dedicated primary network (WPA3). Separate guest network. IoT devices on isolated network. Passwords rotated quarterly.	Butler manages; IT vendor supports

3.7 Furnishings & Art Register

High-value items in the Executive Residence are documented for insurance, maintenance, and placement accuracy. The butler should photograph each item annually and update valuations as needed.

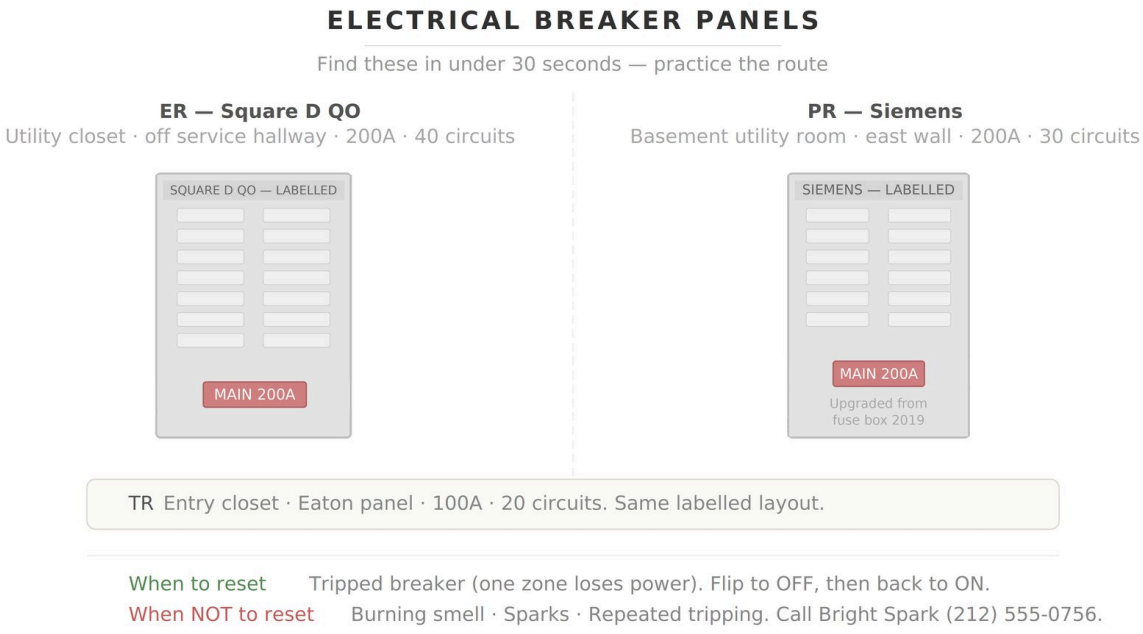

Item	Description	Location	Est. Value	Care Notes
Minotti sofas (2)	Freeman Duvet 3-seat, grey wool blend	Meeting lounge	$18,000 each	Professional upholstery clean annually. Lint-roll weekly.
B&B Italia armchairs (2)	Metropolitan, charcoal leather	Meeting lounge	$6,500 each	Leather conditioner quarterly. No direct sunlight.
Dining table	Custom walnut, 8-foot	Executive dining	$12,000	Felt pads under all items. No heat directly on surface.
Christofle flatware	Cluny pattern, 8 place settings	Kitchen storage	$4,800	Polish monthly. Hand wash only. Never dishwasher.
Contemporary photographs (2)	Large-format landscapes, framed	Meeting lounge wall	$8,000–$15,000	Do not touch glass. Dust frames monthly. Note exact position marks.
Console table	Custom walnut with brass hardware	Foyer	$5,500	Polish brass monthly. Wipe walnut with damp cloth only.
Flos Arco floor lamp	Replica, marble base, arched chrome	Meeting lounge	$2,800	Dust chrome weekly. Do not drag (marble base scratches floors).
Frette linen collection	Sheets, pillowcases, duvet cover (Primary Suite)	Bedroom	$3,200	Machine wash cool, gentle. Line dry or tumble low. Iron while damp.

3.8 Vendor Network - Executive Residence

Service	Vendor	Contact	Phone	Response	Notes
Building mgmt	Pinnacle Property Services	David Kowalski	(212) 555-0310	Same day	Quarterly check-in
IT / AV	ClearPath Tech Solutions	Ryan Park	(212) 555-0425	2–6 hours	Crestron certified
Cleaning	Sterling Home Services	Maria Santos	(212) 555-0538	Scheduled	Low-scent only
HVAC	Metro Climate Control	Building dispatch	(212) 555-0642	Same/next day	Nest-compatible
Electrician	Bright Spark Electric	Tom Brennan	(212) 555-0756	24–48 hr	Lutron certified
Plumber	Reliable Plumbing NYC	Dispatch	(212) 555-0933	Same/next day	Emergency line available
Florist	Bloom & Branch	Sophie Laurent	(212) 555-1265	Same day	Weekly foyer arrangement; low-scent
Art handler	ArtSecure NYC	By appointment	(212) 555-1372	1–2 weeks	For repositioning or cleaning

Building Systems - Executive Residence (Tribeca)

Electrical System

Component	Detail	Location	Inspection	Emergency Procedure
Main breaker panel	200-amp main panel, Square D QO series (modern, 2016 build)	Utility closet (adjacent to service zone, behind laundry area)	Annual visual inspection. Label all circuits. Electrician check every 3 years.	Tripped breaker: identify which circuit. Check for cause before resetting. If burning smell or sparks: do not reset. Call Bright Spark Electric (212) 555-0756.
Circuit capacity	40 circuits. Labelled by zone (Foyer, Meeting, Office, Kitchen, Bedroom, HVAC, AV). Dedicated 20A circuits for Sub-Zero, Wolf range, and Miele dishwasher.	Panel door (labelled)	Verify labels annually. Label any unlabelled circuits.	If unknown circuit trips: do NOT reset blindly. Check for burning smell or sparks first.
GFCI outlets (bathroom)	2 GFCI outlets (one per bathroom)	Primary en-suite vanity; guest powder room	Test monthly: press TEST button, confirm power cuts. Press RESET to restore.	If GFCI won't reset: do not force. Contact Bright Spark Electric.
GFCI outlets (kitchen)	2 GFCI outlets	Kitchen counter (near sink); service pantry	Test monthly alongside bathroom GFCIs.	Same procedure. Kitchen GFCI protects against water + appliance faults.
AFCI breakers	AFCI breakers on all bedroom circuits (2016 code compliant)	Breaker panel	Required by code for bedrooms. Should not trip frequently; if recurring, call electrician.	Recurring trips may indicate loose wiring. Urgent: call Bright Spark Electric (212) 555-0756
Voltage	120V / 240V for range and dryer. All standard US.	All outlets	N/A	Standard US: 120V/60Hz. Confirm adapters for any European appliances.

Plumbing and Water

Component	Detail	Location	Maintenance	Emergency
Main water shutoff	Quarter-turn ball valve (brass)	Utility closet, lower left. Clearly labelled "MAIN WATER."	Test valve annually (turn off, confirm flow stops, turn on). If stiff, lubricate or replace.	SHUT OFF IMMEDIATELY in case of major leak before calling plumber.
Pipe material	Copper supply lines; PVC drain lines. 2016 installation. No lead. No galvanized.	-	Copper: inspect for green patina (corrosion) annually. PVC: check joints for leaks quarterly.	If pipe bursts: shut main valve. Towels on leak. Call undefined

Component	Detail	Location	Maintenance	Emergency
Hot water	Building-supplied hot water (centralised boiler). No unit water heater.	N/A (building system)	Flush sediment annually. Check temperature setting (120°F / 49°C recommended).	No hot water: check pilot light (gas) or breaker (electric). If neither works, call plumber.
Water quality	NYC municipal water (excellent quality). Building has additional filtration in basement.	-	Water testing not required for condo units. If concerned: request test from building management.	If discolouration or odour: stop using. Test immediately. Contact building management.

HVAC and Heating

Component	Detail	Location	Maintenance	Notes
Heating type	Forced-air central HVAC (building system, unit fan coils)	Fan coil units in ceiling (per zone). Thermostat controls per zone via Nest.	Filter change quarterly. Fan coil inspection annually (building HVAC vendor). Schedule in October.	Building controls boiler; unit controls distribution only.
Cooling type	Central air conditioning (same system as heating, reversible fan coils)	Same fan coil units	AC service annually in April. Check condensate drain for clogs.	If AC stops: check thermostat, then check breaker, then call Metro Climate (212) 555-0642.
Air filtration	MERV-11 filters in fan coil units (3 zones)	Behind return air grilles (ceiling-mounted)	Replace every 3 months. March, June, September, December. Stock 6 spares.	Mrs. Leigh allergy: clean filters critical in spring.
Thermostat	Nest Learning Thermostat (3 zones: Meeting/Office, Bedroom, Service)	Wall-mounted per zone	Battery check monthly. Calibrate seasonally. Update eco-schedules.	See residence chapter for zone details and set temperatures.

Fire Safety

Component	Detail	Location	Testing	Last Tested	Next Due
Smoke detectors	Kidde hardwired + battery backup (4 units)	Foyer, meeting lounge, kitchen, bedroom	Test monthly: press button. Replace batteries every 6 months (January + July).	January 2026	July 2026
CO detectors	Kidde CO alarm (2 units, hardwired)	Kitchen hallway, bedroom hallway	Test monthly with smoke detectors. Replace unit every 5–7 years.	January 2026	July 2026

Component	Detail	Location	Testing	Last Tested	Next Due
Fire extinguisher	ABC dry chemical, 5 lb (1 unit). Plus kitchen: wet chemical K-class (1 unit)	Service zone wall mount. Kitchen K-class: next to Wolf range.	Inspect gauge monthly (needle in green zone). Professional inspection annually.	January 2026	January 2027
Sprinkler system	Building-wide automatic sprinkler system. Maintained by building management. Unit has sprinkler heads in all rooms.	-	Building responsibility. Annual inspection by building. Butler confirms inspection certificate is current.	-	-
Fire escape / egress	Building fire stairs (2 stairwells, clearly marked). Assembly point: building lobby or sidewalk across street.	-	Ensure clear at all times. Never block with furniture or storage.	-	-
Max occupancy	Per NYC fire code for residential condo: not formally posted. Practical limit for events: 30 persons. Leigh household typical: 2–8.	-	Per fire code. Never exceed for events.	-	-

Elevator

Attribute	Detail
Type	Building passenger elevators (4 cars). ADA-compliant. Keyed access to residential floors.
Certification	NYC DOB elevator inspection. Current certificate posted in each car. Building responsibility.
Inspection schedule	Annual by NYC Department of Buildings. Building management handles. Butler confirms current certificate is posted.
Emergency	If stuck: use emergency phone in car (connects to building security). Do NOT force doors. Building security responds.

Utility Providers

Utility	Provider	Account	Monthly Cost	Emergency	Notes
Electricity	Con Edison	[On file]	Included in HOA	Con Ed outage: 1-800-752-6633. Check conedison.com outage map.	Building has emergency generator for common areas and elevators. Unit does not have backup power (use UPS in office).
Gas	Con Edison (natural gas)	Included in HOA	Included in HOA	Gas smell: evacuate immediately. Call 911 then Con Ed: 1-800-752-6633.	Wolf range uses gas. If burner won't light: check pilot. If gas smell with no flame: shut off valve behind range, ventilate, evacuate if strong.
Water	NYC DEP (municipal)	Building-wide	Included in HOA	Building main shutoff: building maintenance. Unit shutoff: utility closet.	NYC water is fluoridated and excellent quality. Brita pitcher in fridge for taste preference.
Trash / recycling	Building waste service	N/A	Included in HOA	N/A	Trash room on each floor. Separate bins for recycling (paper, plastic/metal/glass) and general waste.

Waste Management

Type	Provider / Method	Schedule	Notes
General waste	Building trash chute / trash room (each floor)	Daily disposal by staff. Building collects nightly.	Bag all waste. No loose items in chute. Double-bag wet waste.
Recycling (paper)	Building recycling room	As generated. Building collects per NYC schedule.	Flatten cardboard. No food-contaminated paper.
Recycling (plastic/metal/glass)	Building recycling room	As generated.	Rinse containers. Remove caps. No styrofoam in NYC recycling.
Oversized / bulk items	Building management coordinates	By request	Contact David Kowalski. Building arranges pickup. May require advance scheduling.

Type	Provider / Method	Schedule	Notes
Shredded documents	Cross-cut shredder in office (Zone C)	After every meeting and as generated	Shred all printed meeting materials, drafts, and confidential documents. Empty shredder bin weekly.

Wall and Ceiling Construction

Element	Material	Year	Notes
Walls (all rooms)	Standard 5/8" drywall (Type X fire-rated where required by code). Smooth finish, painted.	2016 (new construction)	No asbestos risk (post-2000 construction). Patch minor holes with lightweight spackle. For larger repairs: contact building-approved contractor.
Ceilings	5/8" drywall with recessed lighting cutouts. Smooth finish.	2016	Check for water stains from above (indicates leak from upper floor). Report any discolouration to building management immediately.
Bathroom walls	Cement board (Durock) behind tile. Calacatta marble tile on walls and floor in en-suite.	2016	Cement board is moisture-resistant. Grout resealed every 12–18 months to prevent water infiltration.

Concierge Systems

Feature	Detail	Access	Notes
Package reception	All packages received at front desk. Notification via building app or phone call.	Butler collects during business hours. Concierge holds until collection.	High-value packages (>$500): request signature confirmation. Butler picks up same day.
Guest registration	Pre-register guests with security desk 2 hours before arrival. Name, expected time, host unit.	Butler calls or emails security desk: (212) 555-0314	Guest names not stored longer than 24 hours per building privacy policy.
Amenity booking	Fitness centre (no booking needed). Rooftop terrace (booking required for private events).	Via building app or concierge Marco Rossi (212) 555-0311	Rooftop: reserve 2 weeks ahead for events. $500 deposit. Not typically used by the Leighs.
Maintenance requests	Submit via building app or call David Kowalski (212) 555-0310.	Butler submits on behalf of unit	Urgent: call directly. Non-urgent: app submission with photos.

Chapter 3: Private Residence (West Village)

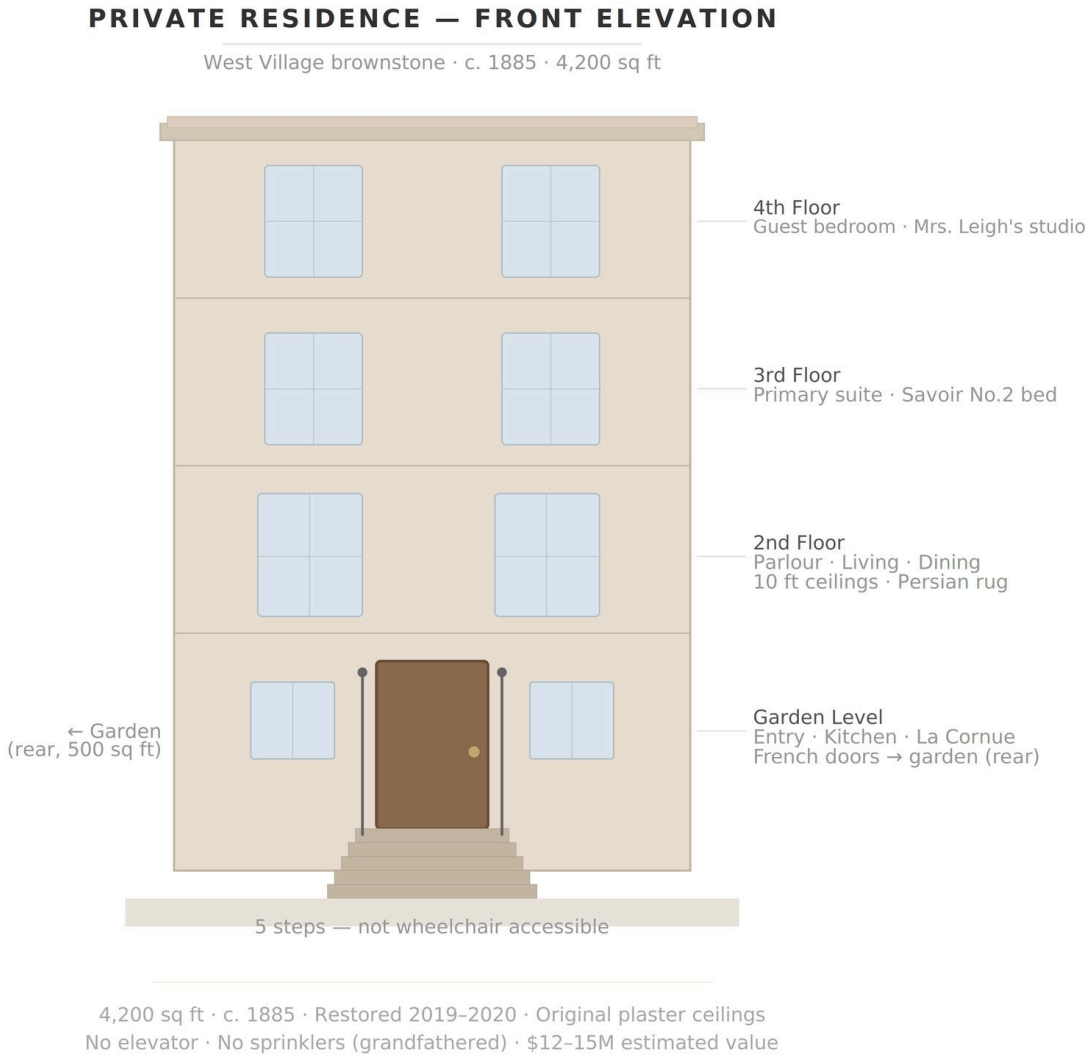

Key abbreviations: PR = Private Residence, West Village | GFCI = Ground Fault Circuit Interrupter | AFCI = Arc Fault Circuit Interrupter | HVAC = Heating, Ventilation, and Air Conditioning | DSNY = Dept. of Sanitation NY | DIY = Do It Yourself. Full glossary in Table of Contents.

Table of Contents

4. NYC Private Residence - Full Profile

4. NYC Private Residence - Full Profile

4.1 Property Intelligence

Attribute	Detail
Address	[Confidential - filed separately for security]
Neighborhood	West Village, Manhattan. A quiet, historic, tree-lined neighborhood with a village-like character rare in Manhattan. Mrs. Leigh chose this location for its architectural charm, walkability, and the sense of being apart from the city's intensity. Proximity to independent galleries, boutiques, and restaurants aligns with her aesthetic sensibility.

Attribute	Detail
Property type	Four-story brownstone, circa 1885. Fully renovated 2019–2020 by prior owner. Freehold ownership (the Leighs own the building outright, including the lot). No HOA. No shared walls on one side (corner position).
Lot size	About 20 ft x 85 ft (1,700 sq ft lot). Rear garden: 20 ft x 25 ft (500 sq ft) with mature plantings, stone patio, and privacy fencing.
Interior size	About 4,200 sq ft (390 m^2) across four floors plus finished basement. Ceiling heights: 10 ft (parlour floor), 9 ft (upper floors), 8 ft (basement).
Bedrooms / Bathrooms	4 bedrooms / 3.5 bathrooms. Primary suite (3rd floor, 650 sq ft with en-suite and walk-in closet). Guest bedroom (3rd floor, 280 sq ft with en-suite). Two additional bedrooms (4th floor, one used as Mrs. Leigh's studio). Powder room on parlour floor.
Parking	No private garage. Street parking (residential permit). Car service preferred for all transport.
Estimated value	$12–$15 million. West Village brownstones in this condition and location are among the most sought-after residential properties in Manhattan.
Property tax	About $65,000/year (managed by the family's accountant).
Insurance	Comprehensive homeowner's policy including flood, contents, liability. Policy details held by family accountant. Butler maintains inventory for claims.

4.2 Neighbourhood Context

The West Village is one of Manhattan's most desirable residential neighborhoods, known for its Federal and Greek Revival townhouses, intimate scale, and creative energy. Unlike Tribeca (where the Executive Residence is located), the West Village feels unhurried and personal. This is intentional - the Private Residence is where the principals decompress. Key nearby amenities for staff awareness:

Category	Establishment	Distance	Notes
Grocery (premium)	Citarella	4-minute walk	High-quality produce, seafood, prepared foods. Primary grocery source.
Grocery (organic)	Whole Foods (Union Square)	12-minute walk or delivery	Bulk staples, organic options. Use for delivery orders.
Pharmacy	CVS (7th Avenue)	5-minute walk	Prescriptions, OTC medications, emergency supplies.
Veterinary	Manhattan Veterinary Partners	10-minute walk	Dr. Karen Webb. Winston's primary vet. (212) 555-0187.
Hardware	Village Hardware	6-minute walk	Emergency supplies: bulbs, batteries, tools, keys.

Category	Establishment	Distance	Notes
Dry cleaner	Marcel's Fine Garment Care	7-minute walk	Preferred dry cleaner. Pickup and delivery available. (212) 555-1480.
Dog park	Hudson River Park dog run	8-minute walk	Off-leash hours: before 9 AM and after 9 PM. Winston's preferred park.
Hospital (nearest ER)	Lenox Health Greenwich Village	5-minute walk	Emergency department. 24/7.

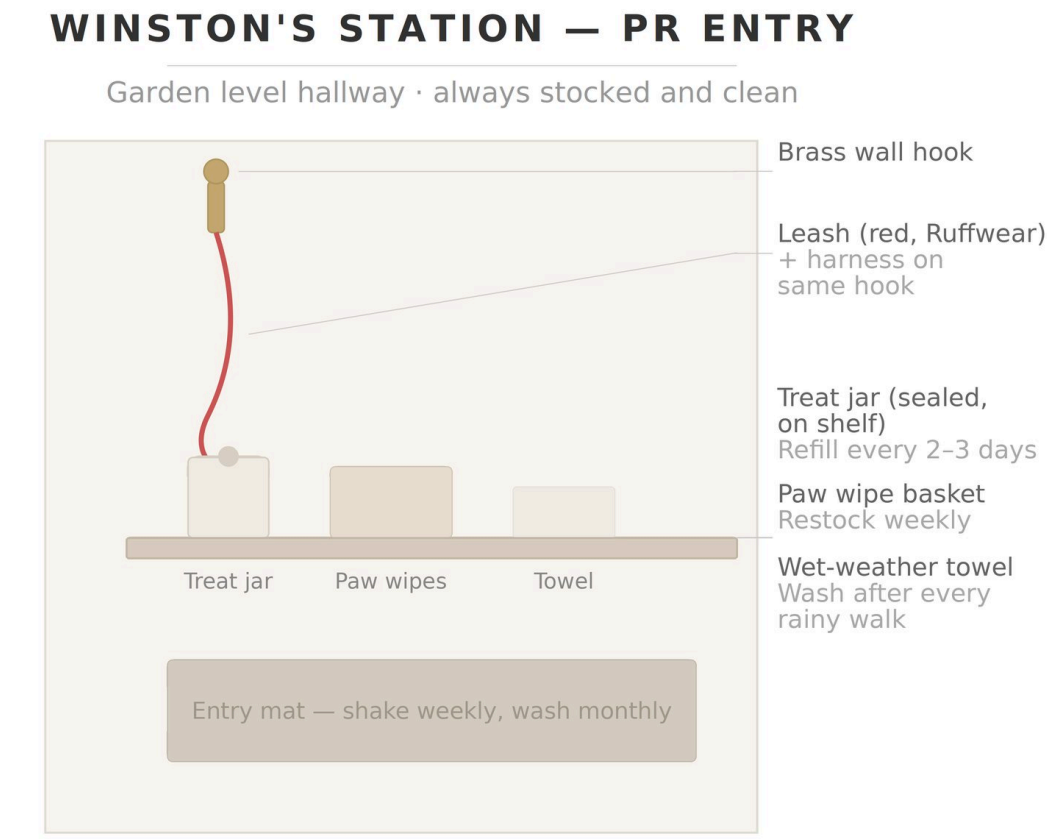

4.3 Detailed Zone Diagram

The Private Residence is a four-story brownstone plus finished basement. Each floor serves a distinct function. The vertical layout creates natural separation between zones - an advantage for privacy and quiet.

PRIVATE RESIDENCE - FLOOR-BY-FLOOR ZONE LAYOUT (4,200 sq ft)					
4TH FLOOR Top floor	BEDROOM 3 280 sq ft • Guest/flex	|	MRS. LEIGH STUDIO 320 sq ft • Creative work	|	4F BATH Shared full bath

4.4 Room-by-Room Intelligence

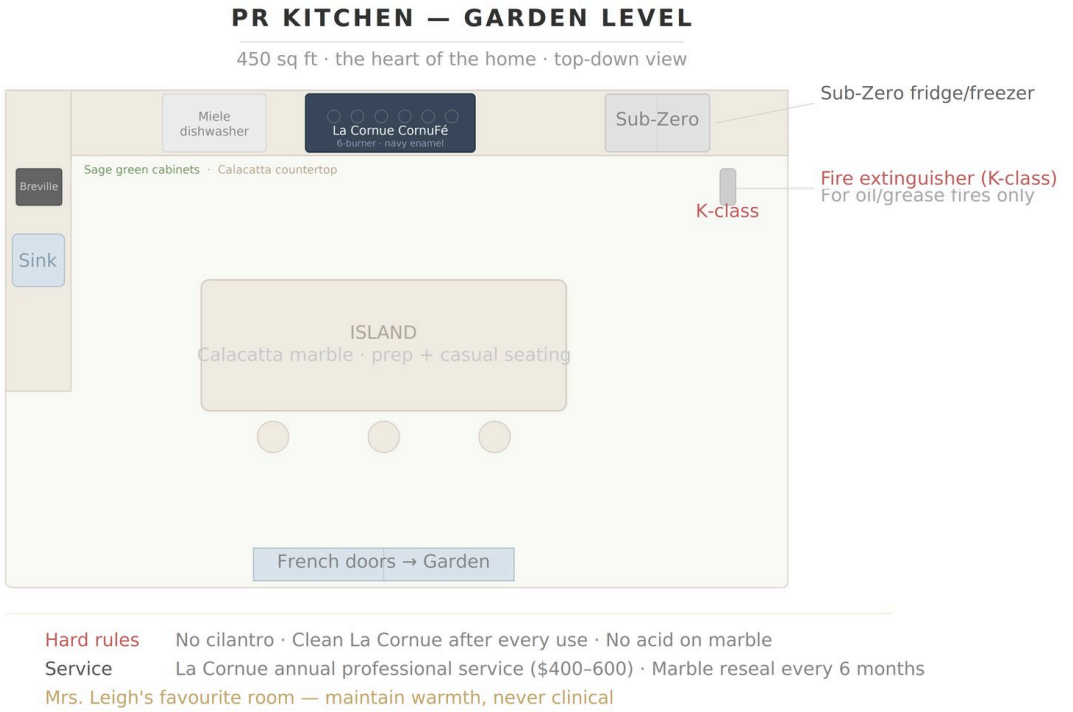

Garden Level: Entry Hall (200 sq ft)

Element	Detail	Operational Standard
Purpose	Front door entry via brownstone stoop. Coat closet. Shoe storage. Winston's leash, paw wipes, and treats. Umbrella stand.	The first space anyone sees. Must be clean, organised, and welcoming. Winston's area clean - no muddy paws on the hardwood.
Flooring	Original brownstone slate tiles, restored. Area rug (wool, neutral).	Slate: sweep daily, damp mop weekly. Rug: vacuum 3x/week. Shake out monthly.

Element	Detail	Operational Standard
Key items	Coat closet (double-width, walnut hangers). Console table (reclaimed elm). Wall hooks (brass, for daily-use items). Bench with storage.	Console surface: keys tray, single seasonal item (small vase or candle). Nothing else. Bench clear of clutter.
Winston's station	Leash hook (brass). Paw wipe basket. Treat jar (sealed, on shelf). Towel for wet-weather drying.	Restock paw wipes weekly. Wash towel every 2–3 days. Treat jar refilled weekly. Area cleaned daily - this is a high-traffic zone.

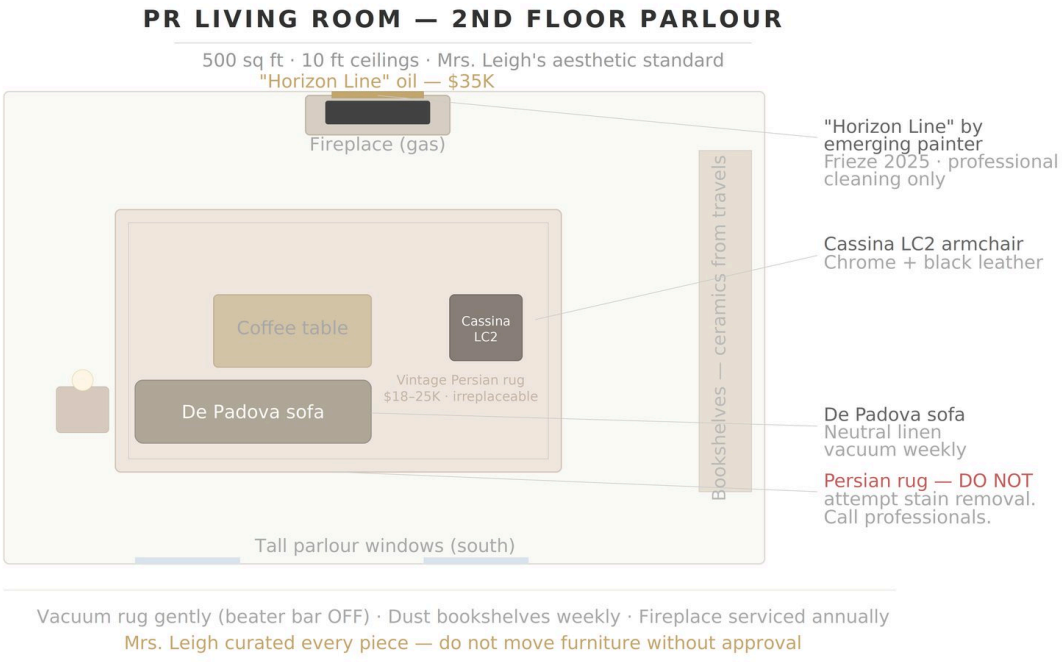

Garden Level: Kitchen (450 sq ft)

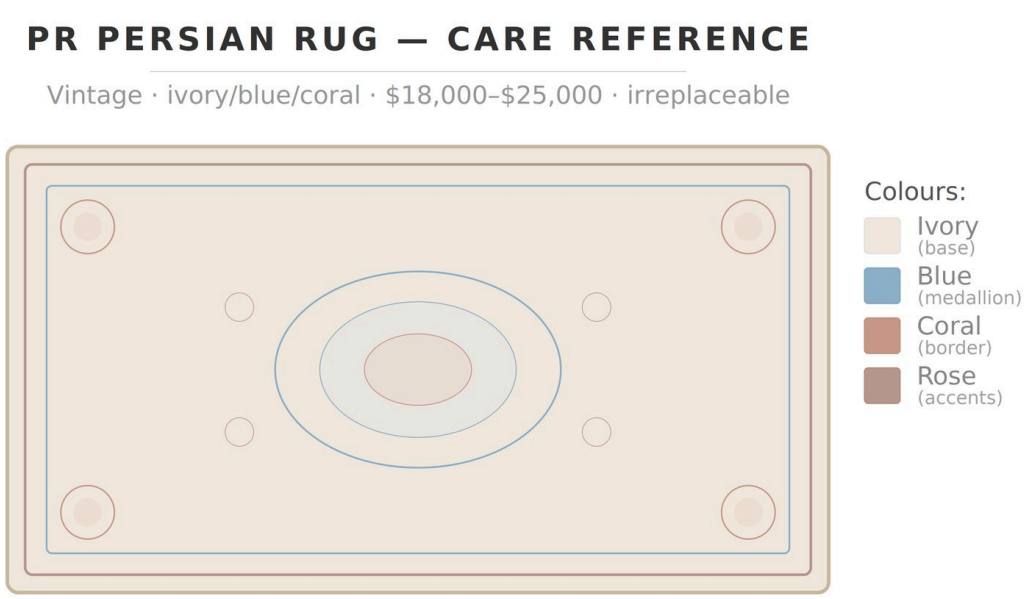

Element	Detail	Operational Standard
Purpose	The heart of the home. All daily meals prepared here. Opens directly to the garden through French doors. This is Mrs. Leigh's favourite room.	Must feel warm, clean, and lived-in (not sterile). This is not the Executive Residence's clinical service kitchen - it's a home kitchen with professional-grade equipment.
Appliances	La Cornue CornuFé range (6-burner, double oven, navy blue enamel). Sub-Zero refrigerator/freezer (integrated panel). Miele dishwasher (ultra-quiet). Breville Oracle Touch espresso machine. Vitamix blender. KitchenAid stand mixer.	La Cornue: clean after every use; professional service annually ($400–$600). Sub-Zero: clean coils bi-annually. Espresso machine: daily purge, weekly deep clean, monthly descale. All appliances wiped daily.

Element	Detail	Operational Standard
Countertops	White marble (Calacatta Borghini). Stunning but high-maintenance.	Seal every 6 months. Wipe spills immediately (marble stains from acid - lemon, wine, tomato). Use cutting boards always. No hot pans directly on surface. Clean with pH-neutral stone cleaner only.
Cabinetry	Shaker-style, painted sage green (Mrs. Leigh's choice). Brass hardware. Soft-close hinges throughout.	Wipe cabinet fronts weekly with damp cloth. Polish brass hardware monthly. Touch-up paint kept in basement storage (colour code on file).
Garden access	French doors (double, original frame restored, double-glazed). Opens to stone patio.	Lock when unattended. Clean glass weekly. In spring/summer, doors may be left open during meals - ensure Winston cannot escape to neighbouring gardens.
Pantry	Walk-in pantry (adjacent, 80 sq ft). Organised by category: dry goods, canned, baking, snacks, pet food (bottom shelf). Labelled shelves.	FIFO rotation. Inventory checked weekly (Friday). Restock order placed Friday afternoon for Monday delivery.

Parlour Floor (2nd): Living Room (500 sq ft)

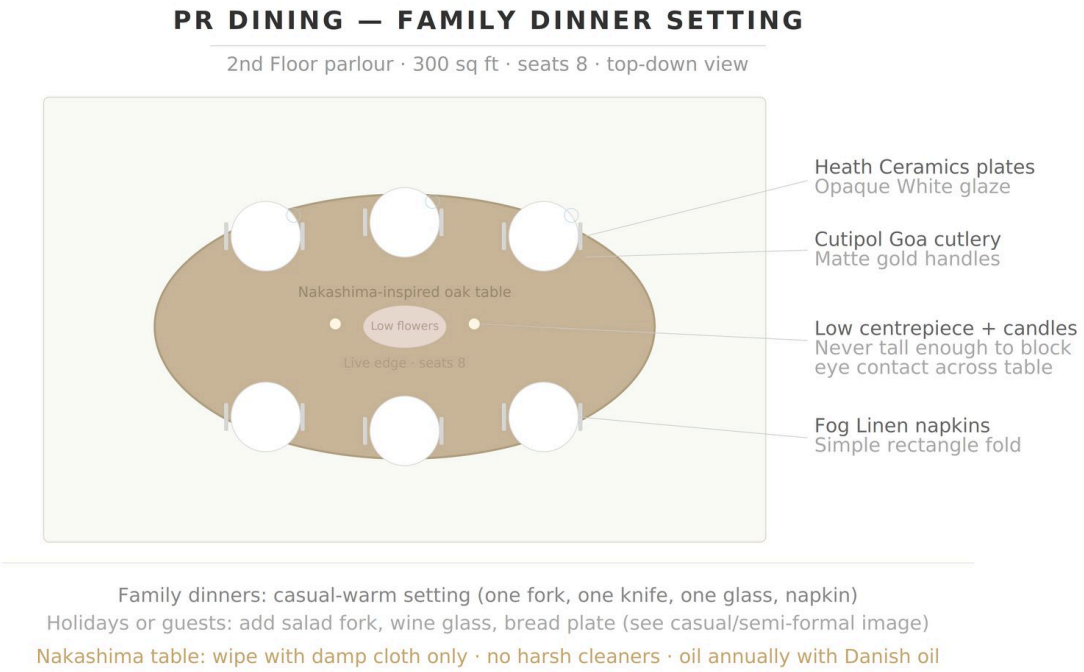

Element	Detail	Operational Standard
Purpose	Primary relaxation space. Reading, conversation, quiet evenings. Mrs. Leigh's aesthetic authority is absolute here. This room reflects her design vision.	Visually perfect at all times. Every object has a place. Cushions, books, and decorative items must remain exactly as positioned unless she moves them herself.
Furniture	De Padova sofa (cream linen, L-shaped). Cassina LC2 armchair (cognac leather). Ligne Roset coffee table (walnut + black marble). Custom built-in bookshelves (floor-to-ceiling, walnut). Reading floor lamps (2, Artemide Tolomeo).	Linen sofa: vacuum weekly, professional clean bi-annually. Leather armchair: condition quarterly. Coffee table: marble surface - same care rules as kitchen counters. Bookshelves: dust bi-weekly; books aligned by Mrs. Leigh's arrangement (never reorganise without permission).
Rugs	Vintage Persian rug (main, ~9x12 ft, ivory/blue/coral). Mrs. Leigh sourced this personally - irreplaceable sentimental value.	Vacuum gently with beater bar off. Rotate 180° every 6 months. Professional clean annually. Report any stains immediately - do not attempt DIY stain removal on vintage rugs.
Art	Original works: one oil painting (abstract, large format, above fireplace). Two framed photographs (Mrs. Leigh's own work). Ceramics on bookshelves (3 pieces, collected from travels).	Do not touch artwork directly. Dust frames with dry microfibre. Ceramics dusted individually with extreme care. If any piece is displaced or damaged, report immediately.

Element	Detail	Operational Standard
Fireplace	Original brownstone mantle, restored. Gas insert (Valor). Remote-controlled ignition.	Test ignition monthly. Professional service annually. Mantle surface: one curated object or seasonal arrangement only (Mrs. Leigh places these herself).
Lighting	3 scenes: Day (blinds open, lamps off), Evening (blinds drawn, floor lamps on 60%, sconces on low), Reading (one lamp at 100%, others dimmed). Lutron Caseta system.	Scenes pre-programmed. Transition to evening scene at sunset. Mrs. Leigh may override via app. Never leave overhead lights on - she strongly dislikes harsh overhead lighting.

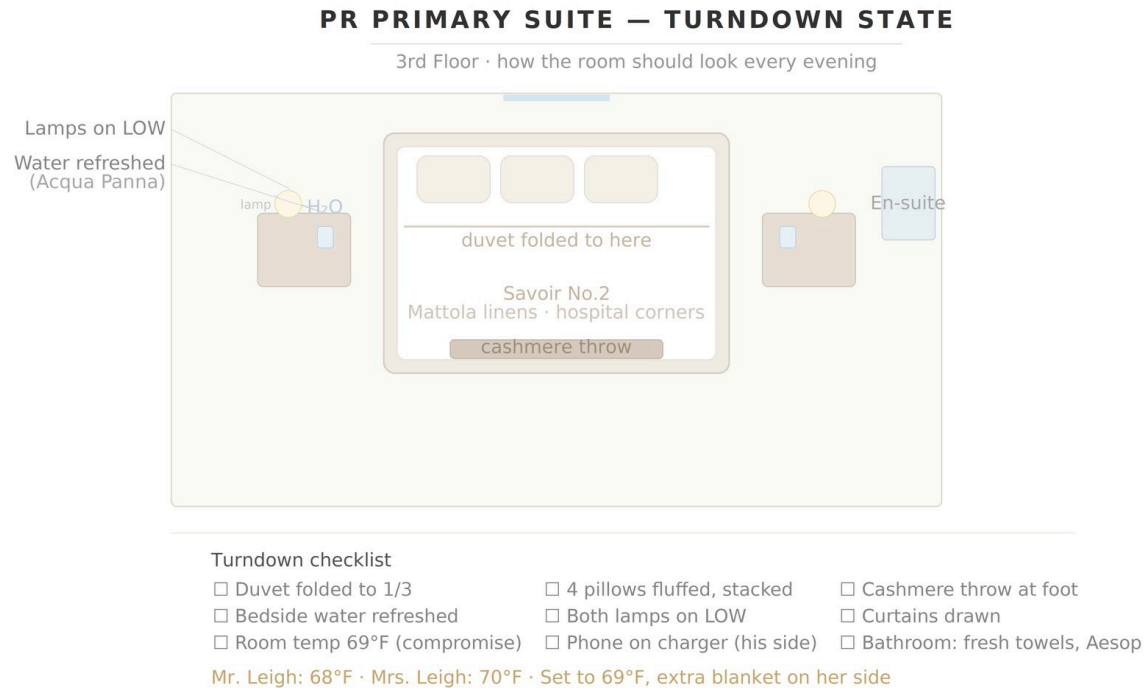

Parlour Floor (2nd): Dining Room (300 sq ft)

Element	Detail	Operational Standard
Purpose	Family dinners, small gatherings (up to 8), holiday meals. More personal and intimate than the Executive Residence dining space.	Warm, inviting, beautifully set. This is where holiday memories are made. The table should always be ready for an impromptu dinner.
Table	Oval oak pedestal table (George Nakashima-inspired, custom). Seats 6 comfortably, 8 with extensions.	Protect surface with felt pads. Wipe with barely damp cloth. Oil annually with approved wood oil. No hot items directly on surface.

Element	Detail	Operational Standard
Tableware	Heath Ceramics (Opaque White, full service for 8). Simon Pearce glassware. Cutipol Goa flatware (matte gold + white). Fog Linen napkins.	Heath: dishwasher safe but hand-preferred for longevity. Simon Pearce: hand wash only. Cutipol: hand wash - dishwasher damages matte finish. Full inventory check monthly.
Centrepiece	Seasonal: Mrs. Leigh changes this with the seasons. Spring: low ceramic vase with garden branches. Summer: single statement bloom. Autumn: dried arrangement. Winter: candles + pine.	Do not replace or change centrepiece without Mrs. Leigh's direction. Water fresh arrangements every 2 days. Replace when wilting begins.

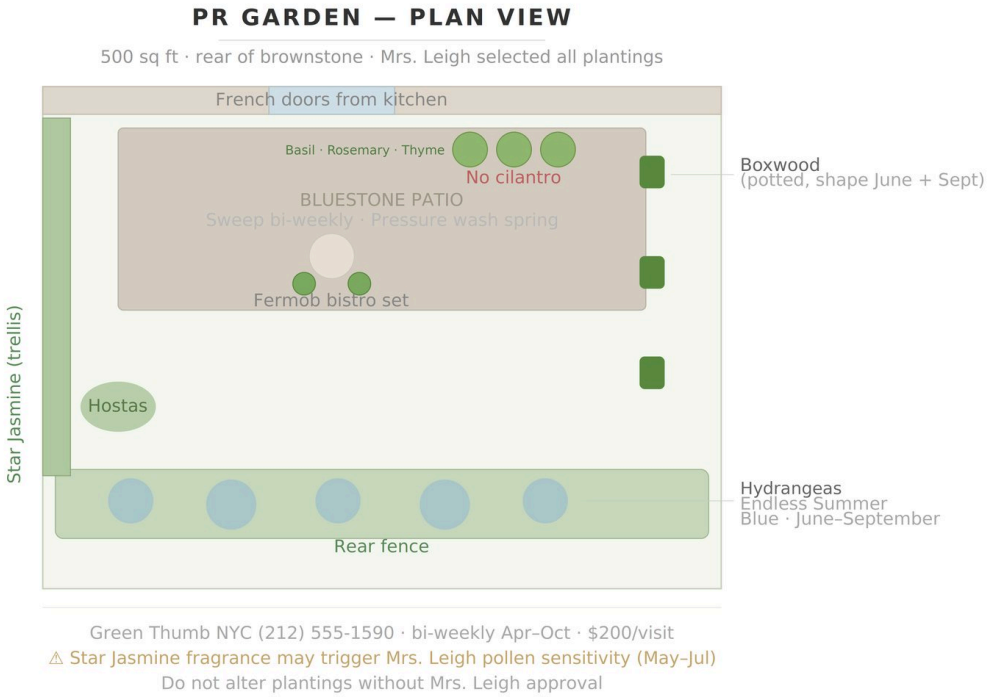

3rd Floor: Primary Suite (650 sq ft + 250 sq ft en-suite)

Element	Detail	Operational Standard
Purpose	The principals' private sanctuary. Sleep, rest, personal time. This is the most private room in the entire household.	Enter only for scheduled tasks (morning linen service, evening turndown). Knock and wait before entering even during scheduled times. If the door is closed outside normal hours, do not enter.
Bed	King-size, Savoir No.2 mattress (hand-built, ~$25,000). Linen bedframe (custom, oatmeal linen). Mattola organic linen sheets. Cashmere throw (Johnstons of Elgin).	Sheets changed twice weekly (Monday, Thursday). Bed made with hospital corners, smooth finish. Cashmere throw folded at foot. Rotate mattress quarterly per manufacturer guidelines.

Element	Detail	Operational Standard
Temperature	67–68°F at night. Both principals prefer cool sleeping. Ceiling fan on low (white noise + airflow).	Thermostat adjusted by 8 PM. Confirm ceiling fan setting. Blackout curtains drawn by 8:30 PM (or whenever Mrs. Leigh begins evening routine).
Walk-in closet	His side (left): suits, shirts, trousers by colour. Her side (right): by occasion then colour. Island unit with drawers for accessories. Full-length mirror. Lighting: warm LED strips.	See Chapters 5-6 for full wardrobe management protocols. Key rule: never move Mrs. Leigh's items without permission. Mr. Leigh's side can be maintained independently.
En-suite bathroom	Freestanding soaking tub (Victoria + Albert). Walk-in rain shower (double head, Dornbracht). Heated Calacatta marble floors. Dual vanity (custom walnut). Medicine cabinet (mirrored, recessed).	Spotless daily. Heated floors on timer: activate 6 AM, off 10 PM. Tub drained and wiped after each use. Towels: Matouk Milagro (white, monogrammed). Fresh set daily. Aesop full range stocked at all times.

Garden (500 sq ft outdoor)

Element	Detail	Operational Standard
Purpose	Private outdoor space. Morning coffee, evening relaxation, Winston's daytime area. Mrs. Leigh uses this for reading in warm months.	Clean and inviting. Furniture wiped weekly (more in pollen season). Sweep patio bi-weekly. Maintain plantings or coordinate with garden service.

Element	Detail	Operational Standard
Features	Stone patio. Mature hydrangeas and climbing jasmine along fence. Two bistro chairs + table (Fermob, sage green). Outdoor lighting (string lights, timer-controlled). Privacy fencing (8 ft, wood).	Furniture stored in basement November–March. Garden service visits bi-weekly April–October ($200/visit). String lights on timer: sunset to 10 PM.
Winston considerations	Garden is enclosed but not escape-proof. Monitor when doors are open. Clean up immediately. No toxic plants (confirmed with vet).	Gate latch checked monthly. Winston supervised in garden unless door to kitchen is closed and he's visible through window.

4.5 Technology Infrastructure

System	Equipment	Location	Maintenance	Backup
Internet	500 Mbps fibre (Verizon Fios). Eero Pro mesh (4 nodes: basement, kitchen, parlour, 3rd floor).	Utility room (basement); nodes per floor	Speed test monthly; firmware quarterly	Mobile hotspot in kitchen drawer
Entertainment	65" Samsung Frame (living room, art mode). 55" LG OLED (primary bedroom). Sonos system (6 speakers: kitchen, living, dining, bedroom, garden, bathroom).	Per room	Firmware quarterly; clean screens monthly	Bluetooth speaker backup in kitchen
Climate	Nest thermostat (4 zones: garden level, parlour, bedrooms, studio). Ceiling fans in bedrooms.	Wall-mounted per zone	Battery check monthly; calibrate seasonally	Manual radiator valves per room
Lighting	Lutron Caseta throughout. Automated blinds on parlour and bedroom floors. Scene control via app + switches.	Throughout	Bulbs replaced proactively; scenes updated seasonally	Manual switch at each fixture
Security	Ring doorbell camera (front stoop). August Pro smart lock (front door). Simplisafe alarm system (all floors + basement). Motion sensors on garden level.	Front door; all floors	Lock battery bi-monthly; alarm tested monthly; cameras cleaned quarterly	Physical keys (butler + principals)

System	Equipment	Location	Maintenance	Backup
Laundry	Miele W1 washer + T1 dryer (matched pair). Basement laundry room.	Basement	Clean lint trap every load; deep clean monthly; hoses inspected quarterly	Laundromat: 3 blocks (emergency only)

4.6 Security Profile

Layer	Description	Managed By
Perimeter	8 ft privacy fence (garden). Front stoop with Ring doorbell camera. Motion-activated front light. No building security (private home - owner responsible).	Butler oversees; Ring monitored via app
Entry	August Pro smart lock + physical deadbolt. Simplisafe alarm (arm when departing, disarm on arrival). Entry alert notifications to butler's phone.	Butler + principals
Interior	Simplisafe motion sensors on garden level and basement. Smoke + CO detectors on every floor (tested monthly).	Butler tests; Simplisafe monitors
Digital	Same network standards as ER. Wi-Fi passwords rotated quarterly. Guest network available for visitors. No IoT devices on primary network.	Butler manages
Key management	3 physical key sets: Principals (1), Butler (1), Emergency spare (sealed envelope in safety deposit box). Smart lock codes: Principals, Butler, Housekeeper (limited hours).	Butler tracks all key/code distribution

4.7 Furnishings & Art Register

Item	Description	Location	Est. Value	Care Notes
Savoir No.2 mattress	King, hand-built	Primary bedroom	$25,000	Rotate quarterly. No jumping. Spot-clean only.
De Padova sofa	L-shaped, cream linen	Living room	$14,000	Professional clean bi-annually. Lint-roll weekly.
Cassina LC2 armchair	Cognac leather	Living room	$7,500	Leather conditioner quarterly. No direct sunlight.

Item	Description	Location	Est. Value	Care Notes
Vintage Persian rug	9x12, ivory/blue/coral	Living room	$18,000–$25,000	Irreplaceable. Vacuum gently. Professional clean annually. No DIY stain removal.
Oil painting (abstract)	Large format, above fireplace	Living room	$12,000–$20,000	Do not touch. Dust frame only. Climate-controlled room.
La Cornue CornuFé range	6-burner, navy enamel	Kitchen	$8,500	Professional service annually. Clean after every use.
Nakashima-inspired dining table	Custom oval oak	Dining room	$6,000	Oil annually. Felt pads. No hot items on surface.
Heath Ceramics set	Opaque White, 8 settings	Kitchen storage	$2,400	Hand wash preferred. Check for chips before each use.

4.8 Vendor Network

Service	Vendor	Contact	Phone	Response	Notes
Cleaning	Sterling Home Services	Maria Santos	(212) 555-0538	Scheduled	Same team as ER. Low-scent required.
Plumber	Reliable Plumbing NYC	Dispatch	(212) 555-0933	Same/next day	Brownstone-experienced. Knows old pipes.
Electrician	Bright Spark Electric	Tom Brennan	(212) 555-0756	24–48 hr	Lutron certified. Knows the system.
HVAC	Metro Climate Control	Dispatch	(212) 555-0642	Same/next day	Nest-compatible. Radiator expertise.
Garden service	Green Thumb NYC	Ana Petrova	(212) 555-1590	Bi-weekly	April–October. $200/visit.
Pest control	GreenShield Pest Solutions	Dispatch	(212) 555-1158	Monthly	Brownstone-specific. Preventive schedule.
Appliance repair	Metro Appliance Service	Dispatch	(212) 555-1047	24–72 hr	La Cornue certified. Sub-Zero experience.
Dry cleaner	Marcel's Fine Garment Care	Marcel Dubois	(212) 555-1480	48 hr	Pickup/delivery. The Laundress partnership.

Service	Vendor	Contact	Phone	Response	Notes
Florist	Bloom & Branch	Sophie Laurent	(212) 555-1265	Same day	Weekly home arrangements. Mrs. Leigh approves styles.
Locksmith	Village Lock & Key	Dispatch	(212) 555-1695	Same day	August-compatible. Emergency line available.

Building Systems - Private Residence (West Village)

Electrical System

Component	Detail	Location	Inspection	Emergency Procedure
Main breaker panel	200-amp main panel, Siemens residential (installed during 2019–2020 renovation). Upgraded from original fuse box.	Basement utility room, east wall. Clearly labelled.	Annual visual. Electrician inspection every 3 years. IMPORTANT: brownstone wiring was fully replaced in 2019–2020 renovation. No knob-and-tube remaining.	Tripped breaker: same procedure as ER. Brownstone-specific: if multiple circuits trip simultaneously, may indicate main feed issue. Call Bright Spark immediately.
Circuit capacity	30 circuits. Labelled by floor and room. Dedicated 20A for La Cornue range (240V), Sub-Zero, washer, dryer. HVAC on dedicated circuit per zone.	Panel door (labelled)	Verify labels annually. Label any unlabelled circuits.	If unknown circuit trips: do NOT reset blindly. Check for burning smell or sparks first.
GFCI outlets (bathroom)	4 GFCI outlets (one per bathroom)	Primary en-suite, guest bath (3F), 4F bath, garden-level powder room	Test monthly: press TEST button, confirm power cuts. Press RESET to restore.	If GFCI won't reset: do not force. Contact Bright Spark Electric.
GFCI outlets (kitchen)	2 GFCI outlets	Kitchen counter (both sides of sink)	Test monthly alongside bathroom GFCIs.	Same procedure. Kitchen GFCI protects against water + appliance faults.
AFCI breakers	AFCI breakers on all bedroom and living area circuits (2020 code compliant after renovation)	Breaker panel	Required by code for bedrooms. Should not trip frequently; if recurring, call electrician.	Recurring trips may indicate loose wiring. Urgent: call Bright Spark Electric (212) 555-0756

Component	Detail	Location	Inspection	Emergency Procedure
Voltage	120V / 240V for La Cornue and dryer. All standard US.	All outlets	N/A	Standard US: 120V/60Hz. Confirm adapters for any European appliances.

Plumbing and Water

Component	Detail	Location	Maintenance	Emergency
Main water shutoff	Main shutoff valve (gate valve, brass)	Basement utility room, near water meter. Labelled "MAIN WATER SHUTOFF." Turn clockwise to close.	Test valve annually (turn off, confirm flow stops, turn on). If stiff, lubricate or replace.	SHUT OFF IMMEDIATELY in case of major leak before calling plumber.
Pipe material	Copper supply lines (2019 replacement). Cast iron drain stack (original 1885, lined in 2020). PVC branch drains (2019). No lead pipes remaining after renovation.	-	Copper: annual visual. Cast iron stack: camera inspection every 5 years (next: 2025 - 2026). PVC: check joints for leaks. CRITICAL: brownstone cast iron stacks can develop cracks with age even when lined. Budget $5,000–$15,000 for eventual replacement.	If pipe bursts: shut main valve. Towels on leak. Call undefined
Hot water	Navien NPE-240A tankless water heater (gas-fired, high-efficiency)	Basement utility room. Vents to exterior.	Flush sediment annually. Check temperature setting (120°F / 49°C recommended).	No hot water: check pilot light (gas) or breaker (electric). If neither works, call plumber.
Water quality	NYC municipal (excellent). Brita pitcher in fridge. No whole-house filter installed.	-	Optional annual test recommended for brownstone (older pipes despite lining). Test for lead and copper levels. Kit: $30–$50 mail-in or NYC DEP free kit program.	If discolouration or odour: stop using. Test immediately. Contact building management.

HVAC and Heating

Component	Detail	Location	Maintenance	Notes
Heating type	Hydronic radiant floor heating (parlour and 3rd floor, installed 2019) + cast iron radiators (original, restored) on other floors	Radiant: under hardwood (parlour) and marble (en-suite). Radiators: each room has at least one.	Radiant: no user maintenance. Boiler service annually (October). Radiators: bleed annually in fall to remove air pockets.	Radiators are original 1885 cast iron - significant heritage value. Never paint over without Mrs. Leigh's approval. Bleeding radiators: open valve slightly until water flows steadily (no air hissing).
Cooling type	Ductless mini-split AC units (Mitsubishi, 4 units: kitchen, parlour, primary bedroom, studio)	Wall-mounted units in each zone. Outdoor condenser on rear garden wall.	Filter clean monthly during cooling season (May–September). Professional service annually in April. Clean outdoor condenser of debris.	Mini-splits are quiet and efficient. If unit beeps or flashes error codes: note the code and call Metro Climate (212) 555-0642.
Air filtration	Washable filters in each mini-split unit. No central filtration.	Behind front panel of each indoor unit. Pull panel, slide filter out, wash under water, dry completely before replacing.	Monthly during cooling season. Quarterly in heating season.	Mrs. Leigh allergy: clean filters critical in spring.
Thermostat	Nest Learning Thermostat (4 zones: garden level, parlour, bedrooms, studio)	Wall-mounted per floor	Battery check monthly. Calibrate seasonally. Update eco-schedules.	See residence chapter for zone details and set temperatures.

Fire Safety

Component	Detail	Location	Testing	Last Tested	Next Due
Smoke detectors	First Alert hardwired + battery backup (6 units, one per floor + basement + kitchen)	Every floor landing + kitchen + basement	Test monthly: press button. Replace batteries every 6 months (January + July).	January 2026	July 2026
CO detectors	First Alert CO alarm (3 units, hardwired)	Basement (near boiler), kitchen, 3rd floor hallway	Test monthly with smoke detectors. Replace unit every 5–7 years.	January 2026	July 2026

Component	Detail	Location	Testing	Last Tested	Next Due
Fire extinguisher	ABC dry chemical 5 lb (2 units: basement + 2nd floor hallway). Kitchen: K-class wet chemical (1 unit next to La Cornue).	Basement stairwell wall. 2nd floor hallway. Kitchen wall near La Cornue.	Inspect gauge monthly (needle in green zone). Professional inspection annually.	January 2026	January 2027
Sprinkler system	NO building sprinkler system. This is a private brownstone. Sprinklers not required for existing single-family residences under NYC code (grandfathered). If major renovation extends to >50% of building value, sprinkler retrofit may be triggered.	-	N/A. If sprinklers are eventually installed, annual inspection will be required.	-	-
Fire escape / egress	Front stoop (primary exit). Rear garden door (secondary exit). NO fire escape (brownstone does not have external fire escape; not required for buildings under 6 stories with 2 means of egress). Ensure both exits are unblocked at all times.	-	Ensure clear at all times. Never block with furniture or storage.	-	-
Max occupancy	No posted limit (private residence). NYC fire code for gatherings in residences: practical limit 50 persons. Leigh household typical: 2–10.	-	Per fire code. Never exceed for events.	-	-

Utility Providers

Utility	Provider	Account	Monthly Cost	Emergency	Notes
Electricity	Con Edison	[On file]	~$350/mo (varies seasonally)	Con Ed: 1-800-752-6633	Separate meter for brownstone. NO building generator. Consider portable generator for extended outages ($500–$1,500).
Natural gas	Con Edison	[On file]	~$150/mo (heating season higher)	Gas smell: evacuate via front stoop. Call 911 then Con Ed.	Feeds: La Cornue range, Navien tankless water heater, boiler. Gas shutoff valve: basement utility room, labelled.
Water / sewer	NYC DEP	[On file]	~$120/mo	Main shutoff: basement. Street shutoff: requires DEP or plumber with curb key.	Brownstone has dedicated water meter. Monitor for unusual spikes (may indicate hidden leak).
Trash / recycling	NYC DSNY (public collection)	N/A	Included in property taxes	N/A	Curbside collection. See Waste Management section below.

Waste Management

Type	Provider / Method	Schedule	Notes
General waste	NYC DSNY curbside	Tuesday and Friday evenings (set out after 4 PM, before 8 PM).	Use sealed bags in covered bins. Place at curb, not on sidewalk. Bins stored in front areaway between collections.
Recycling (mixed)	NYC DSNY curbside	Thursday evenings. Mixed paper + cardboard in one bin. Metal/glass/plastic in another.	NYC requires separation into 2 streams. Flatten cardboard. Rinse containers.
Organics / compost	NYC DSNY curbside compost (brown bin)	Weekly (check DSNY schedule for West Village zone).	Food scraps, yard waste, soiled paper. Mrs. Leigh supports composting - maintain the brown bin.
Oversized / bulk	NYC DSNY bulk pickup	By appointment: call 311 or schedule at nyc.gov/dsny	Free for items like furniture, mattresses. Schedule 1–2 weeks ahead. Cannot exceed 4 ft in any dimension.

Type	Provider / Method	Schedule	Notes
Electronics (e-waste)	NYC DSNY SAFE disposal or Best Buy drop-off	As needed	NYC law prohibits e-waste in regular trash. Nearest drop-off: Best Buy Union Square.

Landscaping and Plant Inventory

The Private Residence has a 500 sq ft rear garden maintained by Green Thumb NYC (212) 555-1590, bi-weekly April–October, $200/visit). Mrs. Leigh personally selected all plantings. The garden is an extension of her aesthetic vision - do not alter without her approval.

Plant / Feature	Type	Location	Care	Seasonal Notes
Hydrangeas (Endless Summer)	Perennial shrub	Along rear fence (east and west)	Prune in late winter. Water deeply 1–2x/week in summer. Mulch in fall.	Blooms June–September. Blue flowers (acidic soil maintained by garden service).
Climbing jasmine (Star Jasmine)	Evergreen vine	Rear fence and trellis (south-facing)	Train along trellis. Prune after flowering. Protect from severe frost (burlap wrap Dec–Feb).	Fragrant white flowers May–July. ⚠ May trigger Mrs. Leigh's pollen sensitivity - monitor.
Boxwood (Buxus sempervirens)	Evergreen shrub	Two potted specimens flanking garden door	Shape twice yearly (June and September). Water weekly. Feed in spring.	Evergreen year-round. Provides structure in winter.
Herbs (seasonal)	Annual / perennial	Terracotta pots on patio table	Water daily in summer. Harvest regularly to promote growth.	Basil, rosemary, thyme, mint (spring–fall). NO CILANTRO (absolute household ban). Replace annually.
Hostas	Perennial	Shaded area beneath hydrangeas	Low maintenance. Water in dry spells. Divide every 3–4 years.	Foliage spring–fall. Dormant in winter.
Patio surface	Bluestone flagstone	Central garden area	Sweep bi-weekly. Pressure wash annually (spring). Repoint mortar joints if cracking.	May become slippery in winter. Apply de-icer sparingly (salt damages stone).
Lawn (if any)	No lawn. Garden is hardscape (bluestone) + beds.	N/A	N/A	N/A. Garden is deliberately low-grass for urban maintenance practicality.

Wall and Ceiling Construction

Element	Material	Year	Notes
Walls (parlour and above)	Original plaster on wood lath (1885). Skim-coated during 2019–2020 renovation for smooth finish.	1885 original; 2019 skim coat	IMPORTANT: original plaster walls are a heritage feature. Do not drill without confirming no hidden utilities (use stud finder + wire detector). Plaster repairs require specialist - not standard drywall patching. Cost: $200–$500 per patch depending on size.
Walls (basement + kitchen)	Standard 5/8" moisture-resistant drywall (installed 2019–2020 renovation)	2019	No asbestos risk (modern installation). Standard drywall repair acceptable here.
Ceilings (parlour)	Original ornamental plaster ceiling medallions + crown moulding. Restored 2019.	1885 original; 2019 restored	EXTREMELY FRAGILE. Do not touch, lean ladders against, or hang anything from without structural assessment. Value: irreplaceable heritage feature. Insurance appraised at $15,000 for the parlour ceiling alone.
Ceilings (other floors)	Plaster on lath (1885) skim-coated 2019. Some areas replaced with drywall during renovation.	Mixed	Check for water stains from above (brownstone roofs can leak). Report any new staining immediately.

Chapter 4: Toronto Residence (Yorkville)

Key abbreviations: TR = Toronto Residence, Yorkville | ER = Executive Residence | PR = Private Residence | CAD = Canadian Dollars | HVAC = Heating, Ventilation, and Air Conditioning | TSSA = Technical Standards and Safety Authority | GFCI = Ground Fault Circuit Interrupter. Full glossary in Table of Contents.

7. Summary

5. Toronto Business Residence - Full Profile

5.1 Property Intelligence

Attribute	Detail
Address	[Confidential - filed separately for security]
Neighborhood	Yorkville, Toronto. One of Toronto's premier residential and retail neighborhoods, positioned between Bloor Street and Rosedale. Proximity to Bay Street financial district (10-minute drive), University of Toronto, and the city's best dining and cultural institutions. Quiet residential streets with luxury retail on Bloor.
Building	Luxury residential tower, 50+ floors, built 2019. 24-hour concierge and security. Package room. Underground parking. Fitness centre. Resident lounge. Managed by a national property management firm with strong reputation.
Unit position	Upper-mid floors (25–35). South-facing with skyline views toward the financial district and Lake Ontario. Open layout optimised for natural light.
Size	About 2,200 sq ft (204 m^2). Open-plan living/dining/kitchen. Two bedrooms. Two full bathrooms. Small den/work nook. In-suite laundry. Storage locker in building basement.

Attribute	Detail
Parking	One reserved underground space. Used primarily when principals rent a vehicle for extended Toronto stays. Otherwise used for car service staging.
Estimated value	CAD $3.5–$4.5 million (~$2.5–$3.3 million USD at current exchange rates).
Condo fees	CAD $1,850/month. Covers concierge, security, common areas, fitness, parking, water, building insurance.
Property tax	CAD $12,000–$15,000/year (managed by family's Canadian accountant).
Currency note	All Toronto operating costs tracked in CAD. Monthly summaries include USD equivalent at current exchange rate for consolidated household reporting.

5.2 Strategic Rationale

The Toronto residence exists to solve a specific operational problem: cross-border travel friction. Mr. Leigh travels to Toronto 6–10 times per year for meetings with Canadian partners, co-investors, and the University of Toronto's AI research community. Previously, these trips involved hotels, which introduced unpredictability (room quality, noise, Wi-Fi reliability) and prevented confidential in-person meetings in a controlled environment. The condo provides a consistent, secure, ready-on-arrival base that the household controls entirely. The goal is that Mr. Leigh (and occasionally both principals) can step off a flight, enter the residence, and immediately begin working or resting without any friction.

5.3 Building Relationship

Role	Name	Contact	Relationship Notes
Building manager	Sarah Chen	(416) 555-0210	Primary contact. Professional, efficient. Quarterly check-in recommended.
Head concierge	Michael Okafor	(416) 555-0211	Manages packages, guest access, and amenity bookings. Familiar with the Leighs' travel pattern.
Concierge (evening)	Nina Petrova	(416) 555-0212	On duty 4–12 PM. Handles late-night arrivals from flights. Has been briefed on protocols.
Security desk	Building security	(416) 555-0213	24/7. Guest registration. CCTV monitoring. Emergency response. Parking access control.

Toronto-specific note: Because the butler is not permanently stationed in Toronto, the concierge relationship is especially important. The butler coordinates remotely for arrivals and should call the concierge directly 24 hours before each trip to confirm readiness, guest access (if meetings are planned), and any building notices that could affect the stay.

5.4 Detailed Zone Diagram

The Toronto residence is a single-floor open-concept unit. The layout is simpler than the NYC properties but must be understood clearly because it serves dual purposes (living and meeting).

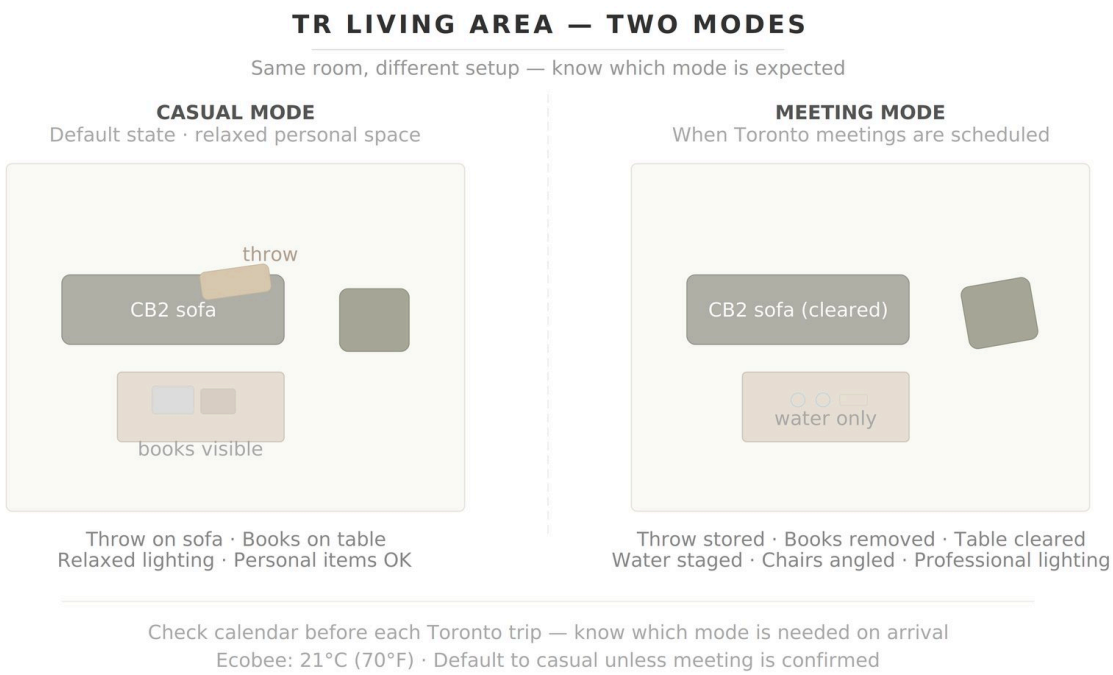

TORONTO RESIDENCE - SINGLE-FLOOR LAYOUT (2,200 sq ft)					
ELEVATOR Keyed access	→	A: ENTRY 180 sq ft • Drop zone	→	B: LIVING 550 sq ft • Open plan	B2: DINING 200 sq ft • 4–6 seats
				↓	
	E: WORK NOOK 120 sq ft • Desk + monitor	←	C: KITCHEN 350 sq ft • Open to living	←	LAUNDRY In-suite closet
			↓		
		D1: PRIMARY 380 sq ft • King bed	|	D1 EN-SUITE 120 sq ft • Walk-in shower	D2: GUEST 200 sq ft • Queen bed

5.5 Room-by-Room Intelligence

Zone A: Entry / Drop Zone (180 sq ft)

Element	Detail	Operational Standard
Purpose	Travel decompression. Luggage staging. Immediate access to essentials after a flight.	Clear landing surface for bags. Water bottle ready. Charger cable visible. Coat hooks available.
Flooring	Engineered hardwood (light oak). Resilient to luggage wheels.	Sweep bi-weekly during occupancy. Damp mop monthly. Door mat replaced seasonally.
Key items	Console table (slim). Key tray. Shoe rack (compact). Coat hooks (4). USB-C charging cable on console.	Reset within 12 hours of departure. Do not let travel clutter accumulate - this is a chronic Toronto pitfall.

Zone B: Living / Meeting Area (550 sq ft)

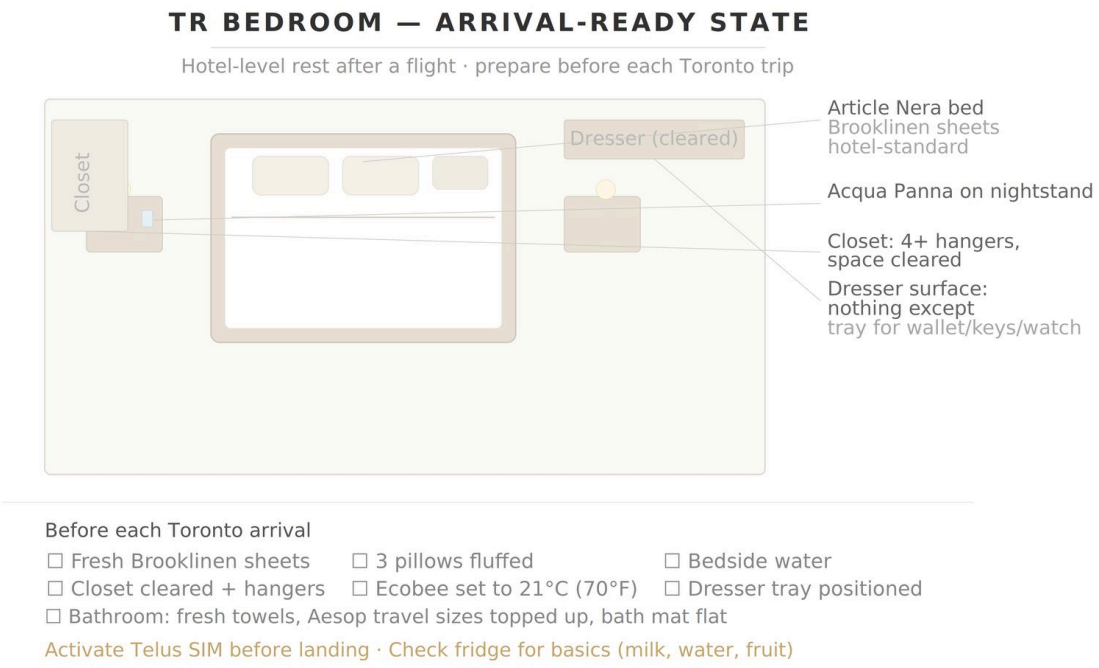

Element	Detail	Operational Standard
Purpose	Dual-use: relaxed personal space AND professional meeting room. Must convert quickly between modes.	The defining operational challenge of this residence. Staff must be able to transition from 'relaxed home' to 'meeting ready' in 30 minutes or less.
Furniture	BoConcept Avec sofa (grey tweed). Two West Elm armchairs (leather, cognac). BoConcept Peekaboo console (acrylic). Parsons coffee table (walnut + steel).	Casual mode: throw blanket on sofa, coffee table books visible. Meeting mode: throw stored, books removed, water service on coffee table, chairs angled toward each other.
Technology	55" LG OLED (wall-mounted). Apple TV. Sonos Beam soundbar. Conference-ready: Logitech Brio webcam + Blue Yeti mic stored in console.	For meetings: webcam + mic deployed on console. TV input switched to HDMI for presentation. Test 30 min before. Casual mode: Apple TV for streaming.
Lighting	Recessed LEDs on dimmer. Floor lamp (BoConcept Arc, brass). Natural light from south-facing windows.	Meeting mode: LEDs at 60%, floor lamp off. Evening: LEDs at 30%, floor lamp on. Blinds adjusted to avoid screen glare during video calls.
Conversion checklist	Butler creates a 'Meeting Conversion Checklist' kept in the entry console: remove personal items, deploy AV, stage water, align seating, adjust lighting, test Wi-Fi, confirm building access for guests.	30-minute conversion target. Practice the conversion until it feels automatic.

Zone C: Kitchen (350 sq ft, open to living)

Element	Detail	Operational Standard
Purpose	Simple meals, travel recovery, light hospitality. Not a chef's kitchen - a functional, well-stocked space for practical needs.	Stock essentials before every arrival. The fridge should never be empty when principals walk in after a flight.
Appliances	Miele induction cooktop (4-burner). Bosch wall oven. Bosch dishwasher (quiet). Fisher Paykel fridge/freezer (counter-depth). Breville Barista Express espresso machine.	Espresso machine: descale monthly. Fridge: clean before and after each visit (perishables removed at departure). All appliances wiped after use.
Countertops	Caesarstone quartz (Calacatta Nuvo pattern). More durable than real marble - less maintenance required than the NYC kitchens.	Standard cleaning: warm water + mild soap. Quartz does not need sealing. Avoid abrasives. Heat-resistant but use trivets anyway.
Pre-arrival stock	Water (Acqua Panna still, San Pellegrino sparkling). Coffee beans (Counter Culture). Milk and oat milk. Eggs. Bread. Butter. Seasonal fruit. Simple breakfast items. One bottle Sauvignon Blanc chilled.	Cleaning service handles stocking from a pre-approved list. Butler sends the list 48 hours before arrival with any updates.

Zone D1: Primary Bedroom (380 sq ft + 120 sq ft en-suite)

Element	Detail	Operational Standard
Purpose	Hotel-level rest. After a flight, this room must be perfect: clean, cool, quiet, dark.	Fresh linens for every arrival, regardless of how recently the bed was made. Towels replaced. Water on bedside table.
Bed	King platform bed (BoConcept Lugano, walnut). Brooklinen Classic Percale sheets (white). Down-alternative duvet. Two king pillows + two reading pillows.	Hospital corners. Smooth finish. Duvet folded at one-third. Reading pillows propped. Spare blanket in closet (Mr. Leigh sometimes wants extra warmth on cold Toronto nights).
Temperature	70°F / 21°C (Canadian thermostat in Celsius). Ceiling fan available.	Set to 21°C before arrival. For overnight: 19°C (66°F) - cooler for sleeping. Window cracked in summer if noise permits.
En-suite	Walk-in glass shower (rain head + hand wand). Single vanity. Heated floor mat (portable, not built-in). Basic but quality fixtures.	Spotless for every arrival. Stock: Aesop travel sizes (body wash, shampoo, conditioner). White towels (2 bath, 2 hand, 1 face). Heated mat placed before arrival in cold months.
Blackout	Roller blinds (blackout). Additional curtain panel for full darkness.	Both drawn for overnight stays. Important for jet lag management - principals may arrive late and need to sleep immediately.

Zone E: Work Nook (120 sq ft)

Element	Detail	Operational Standard
Purpose	Focused work space for Mr. Leigh during Toronto stays. Small but functional.	Clear desk standard. Monitor on, keyboard aligned, charger ready. Quiet zone - same rules as the ER office but in miniature.
Equipment	27" Dell monitor. USB-C dock. Ergonomic chair (Steelcase Leap). Small desk lamp (warm, dimmable).	Monitor cleaned monthly. Dock tested before each visit. Chair adjusted to Mr. Leigh's settings (noted on label under seat).
Connectivity	Dedicated Ethernet port from building fibre. Eero mesh node in this corner.	Speed test before every visit. Target: 300+ Mbps. If below, contact NorthPoint Tech.

5.6 Technology Infrastructure

System	Equipment	Maintenance	Backup
Internet	Building fibre (500 Mbps). Eero mesh (2 nodes: living, bedroom).	Speed test before each visit. Firmware quarterly.	Mobile hotspot (Canadian SIM kept in entry console)

System	Equipment	Maintenance	Backup
Entertainment	55" LG OLED. Apple TV. Sonos Beam.	Firmware quarterly. Clean screen monthly.	Laptop HDMI to TV
Work station	27" Dell. USB-C dock. Ethernet switch.	Test before each visit. Update firmware quarterly.	Wi-Fi fallback
Climate	Ecobee thermostat (Celsius). Single zone.	Battery check quarterly. Calibrate seasonally.	Manual HVAC control on wall unit
Security	Building CCTV. Smart lock (Yale Assure, Z-Wave). Unit alarm (building-integrated).	Lock battery quarterly. Test alarm bi-annually.	Physical key (butler + principals). Concierge backup.
Laundry	LG WashTower (combined washer/dryer, compact). In-suite laundry closet.	Clean lint trap every load. Deep clean quarterly.	Building laundry room (2nd floor, coin-operated)

5.7 Security Profile

Layer	Description	Managed By
Building perimeter	24/7 concierge and security desk. CCTV at all entries, elevators, parking. Visitor registration required.	Building security
Unit access	Yale Assure smart lock (Z-Wave). Physical deadbolt backup. Building alarm integration.	Butler + principals
Guest protocol	Pre-register with concierge 2–4 hours before. Butler coordinates remotely via phone/email. Concierge escorts to elevator.	Butler (remote) + concierge
Key management	2 physical key sets: Principals (1), Butler (1). Smart lock codes: Principals, Butler, Cleaning service (limited to scheduled hours only).	Butler tracks distribution
Cross-border note	Principals carry Canadian documentation. Ensure passports are in travel bags. Toronto residence address on file with Canadian accountant and legal counsel.	Butler verifies before travel

5.8 Furnishings Register

Item	Description	Location	Est. Value (CAD)	Care Notes
LG OLED 55"	Wall-mounted, living area	Living room	$3,200	Screen cleaner only. No pressure on panel.
BoConcept Avec sofa	Grey tweed, 3-seat	Living room	$2,800	Fabric protector applied. Vacuum bi-monthly.

Item	Description	Location	Est. Value (CAD)	Care Notes
West Elm armchairs (2)	Cognac leather	Living room	$1,600 each	Leather conditioner quarterly.
BoConcept Lugano bed	King platform, walnut	Primary bedroom	$2,200	Dust frame monthly. Tighten bolts annually.
Steelcase Leap chair	Ergonomic, Mr. Leigh settings	Work nook	$1,800	Settings documented. Clean fabric quarterly.
Breville Barista Express	Espresso machine	Kitchen	$900	Descale monthly. Daily purge.

5.9 Vendor Network

Service	Vendor	Contact	Phone	Response	Notes
Building concierge	Yorkville Residences	Sarah Chen / Michael Okafor	(416) 555-0210	Same day	Primary relationship. 24hr notice before arrivals.
Cleaning	Maple Leaf Home Care	Dispatch	(416) 555-0325	Scheduled	Pre-arrival cleaning. Low-scent. Stocking from list.
IT support	NorthPoint Tech	James Liu	(416) 555-0438	2–6 hours	Eero, smart lock, AV support.
Plumber	Toronto Quick Plumbing	Dispatch	(416) 555-0542	Same/next day	Emergency line available.
Electrician	Spark Electric Toronto	Dispatch	(416) 555-0655	24–48 hr	Condo-experienced.
Car service	Executive Town Car	Dispatch	(416) 555-0768	2 hours	Airport transfers. Bay Street runs.
Grocery delivery	Grocery Gateway	Online	grocerygateway.com	Next day	Pre-arrival stocking. Butler places order remotely.

5.10 Toronto-Specific Operational Notes

Topic	Detail
Currency	All Toronto costs in CAD. Butler tracks exchange rate monthly (Bank of Canada noon rate). Monthly summary shows CAD and USD equivalent.
Climate	Toronto winters are severe (−20°C / −4°F possible). Ensure unit heat is maintained at 65°F / 18°C minimum even when unoccupied to prevent pipe freezing. Summer: AC set to 72°F / 22°C.
Time zone	Toronto is Eastern Time (same as NYC). No time zone adjustment needed for scheduling.

Topic	Detail
Airport transit	Toronto Pearson (YYZ) to Yorkville: 35–55 minutes depending on traffic. Billy Bishop (YTZ, island airport): 15–20 minutes. Porter Airlines flies NYC-Toronto via YTZ - preferred for convenience.
Canadian SIM	A Canadian SIM card (Telus) is kept in the entry console for Mr. Leigh's phone. Provides local data and calling. Butler confirms it is charged and activated before each trip.
Remote management	Unlike NYC residences, the butler manages Toronto mostly remotely. The cleaning service is the primary on-ground partner. Butler calls concierge 24 hours before arrival and conducts a 'virtual walkthrough' via the cleaning service contact.

6. Residence Comparison Dashboard

This dashboard consolidates all three properties for rapid reference. This should be laminated and kept in the butler's working binder.

6.1 Property Comparison

	Executive Residence	Private Residence	Toronto Residence
PROPERTY			
Location	Tribeca, Manhattan	West Village, Manhattan	Yorkville, Toronto
Type	High-rise condo (40+ floor)	4-story brownstone (1885)	High-rise condo (25–35 floor)
Size	3,800 sq ft	4,200 sq ft (4 floors + basement)	2,200 sq ft
Bedrooms	2	4	2
Value	$8.5–$10M	$12–$15M	CAD $3.5–$4.5M
OPERATIONS			
Service style	Executive hospitality	Domestic calm	Hotel-level hybrid
Temperature	69°F	70–72°F	70°F / 21°C
Primary risk	Confidentiality	Routine disruption	Travel friction
Opening SOP	35–60 min	30–60 min	60–120 min (pre-arrival)
Staff presence	Butler primary	All staff; primary base	Remote; cleaning service
Annual budget	$59,800 (26%)	$80,500 (35%)	$14,400 USD (17%)
TECHNOLOGY			
Internet	1 Gbps fibre + Eero (3)	500 Mbps fibre + Eero (4)	500 Mbps fibre + Eero (2)
AV	82" Samsung + Crestron + Sonos	65" Samsung + 55" LG + Sonos (6)	55" LG + Apple TV + Sonos Beam

	Executive Residence	Private Residence	Toronto Residence
Climate	Nest (3 zones)	Nest (4 zones)	Ecobee (1 zone)
Security	Building + August + alarm	Ring + August + Simplisafe	Building + Yale + alarm
KEY CONTACTS			
Building mgmt	David Kowalski (212) 555-0310	Park Ave Res. (212) 555-0820	Sarah Chen (416) 555-0210
IT vendor	ClearPath (212) 555-0425	ClearPath (212) 555-0425	NorthPoint (416) 555-0438
Cleaning	Sterling (212) 555-0538	Sterling (212) 555-0538	Maple Leaf (416) 555-0325

6.2 Annual Property Cost Summary

Cost Category	Executive (USD)	Private (USD)	Toronto (USD equiv.)	Total
FIXED COSTS				
HOA / Condo fees	$50,400/yr	N/A (freehold)	$16,200/yr	$66,600
Property tax	$48,000/yr	$65,000/yr	$10,800/yr	$123,800
Insurance	Incl. in HOA	$8,500/yr	Incl. in condo fees	$8,500
Fixed Subtotal	$98,400	$73,500	$27,000	$198,900
OPERATING COSTS (from Chapter 6 budget)				
Groceries + provisions	$10,800	$15,200	$5,000	$31,000
Cleaning + maintenance	$5,850	$7,200	$4,350	$17,400
Other operations	$2,700	$3,300	$1,800	$7,800
Operating Subtotal	$19,350	$25,700	$11,150	$56,200
Total				
ANNUAL PROPERTY COST	$117,750	$99,200	$38,150	$255,100

Context: Total annual property costs of ~$255,000 represent about 0.21% of the family's $120M net worth. Combined with the $406K household operating budget (staffing, service, lifestyle from Chapter 6), total annual household expenditure is about $661,000 - or 0.55% of net worth. This is a conservative, disciplined ratio.

7. Summary

Chapters 2-4 provide full residence intelligence for all three Leigh household properties. Each property has been documented with the depth required for a ~$120M household: exact specifications, named contacts, detailed zone diagrams, room-by-room operational standards with specific furnishings and materials, full technology infrastructure maps, layered security profiles, high-value furnishings registers, and complete vendor networks. Key distinctions between properties: **Executive Residence (Tribeca):** The professional showcase. Every detail sup-

ports confidential, high-stakes meetings. Precision and silence are essential. **Private Residence (West Village):** The home. Mrs. Leigh's aesthetic domain. Warmth, beauty, and calm. The vintage Persian rug is irreplaceable. The La Cornue range is her favourite object in the household. Winston lives here. **Toronto Residence (Yorkville):** The travel base. Managed remotely. Must be arrival-ready every time. The living-to-meeting conversion is the key operational challenge. Chapter 5 covers operational procedures, SOPs, staff task management, cleaning schedules, dining, wardrobe, travel logistics, and Butler Book continuity systems across all three residences.

Building Systems - Toronto Business Residence (Yorkville)

Electrical System

Component	Detail	Location	Inspection	Emergency Procedure
Main breaker panel	100-amp main panel, Eaton Cutler-Hammer (2019 build, condo standard)	Entry closet, behind sliding panel. Labelled.	Annual visual. Building electrician available via concierge.	Tripped breaker: identify circuit, check cause, reset once. If repeated: call Spark Electric Toronto (416) 555-0655.
Circuit capacity	20 circuits. Labelled by room. Dedicated 20A for kitchen appliances, laundry.	Panel door (labelled)	Verify labels annually. Label any unlabelled circuits.	If unknown circuit trips: do NOT reset blindly. Check for burning smell or sparks first.
GFCI outlets (bathroom)	2 GFCI outlets (one per bathroom)	Primary en-suite vanity; guest bath vanity	Test monthly: press TEST button, confirm power cuts. Press RESET to restore.	If GFCI won't reset: do not force. Contact Bright Spark Electric.
GFCI outlets (kitchen)	2 GFCI outlets	Kitchen counter (both sides of sink)	Test monthly alongside bathroom GFCIs.	Same procedure. Kitchen GFCI protects against water + appliance faults.
AFCI breakers	AFCI breakers on bedroom circuits (2019 Ontario Electrical Safety Code compliant)	Breaker panel	Required by code for bedrooms. Should not trip frequently; if recurring, call electrician.	Recurring trips may indicate loose wiring. Urgent: call Spark Electric Toronto (416) 555-0655
Voltage	120V / 240V for dryer. Standard Canadian (same as US).	All outlets	N/A	Standard US: 120V/60Hz. Confirm adapters for any European appliances.

Plumbing and Water

Component	Detail	Location	Maintenance	Emergency
Main water shutoff	Quarter-turn ball valve	Under kitchen sink (labelled). Building main: mechanical room (building maintenance access only).	Test valve annually (turn off, confirm flow stops, turn on). If stiff, lubricate or replace.	SHUT OFF IMMEDIATELY in case of major leak before calling plumber.
Pipe material	Copper supply; ABS drain (standard Canadian condo 2019). No lead.	-	Annual visual. Condo: building maintains common plumbing. Unit: butler or cleaning service checks under sinks quarterly.	If pipe bursts: shut main valve. Towels on leak. Call undefined
Hot water	Building-supplied central hot water (included in condo fees). No unit water heater.	N/A (building system)	Flush sediment annually. Check temperature setting (120°F / 49°C recommended).	No hot water: check pilot light (gas) or breaker (electric). If neither works, call plumber.
Water quality	Toronto municipal water (excellent, Lake Ontario source). Brita pitcher in fridge.	-	Not typically required for condo. City publishes annual water quality report at toronto.ca.	If discolouration or odour: stop using. Test immediately. Contact building management.

HVAC and Heating

Component	Detail	Location	Maintenance	Notes
Heating type	In-suite forced-air fan coil unit (building central boiler)	Ceiling-mounted fan coil in main living area. Ductwork to all rooms.	Filter change quarterly. Building HVAC team services fan coil annually.	CRITICAL: maintain minimum 65°F / 18°C when unoccupied in winter. Toronto winters reach −20°C. Pipe freeze risk if heat fails.
Cooling type	Same fan coil system (reversible for cooling)	Same unit	AC service included in building annual maintenance.	Building transitions from heat to cool in April/May. Date varies by building management decision.
Air filtration	MERV-8 filter in fan coil unit (1 unit)	Behind return air grille in hallway ceiling. Access via step stool.	Replace every 3 months. Stock 4 spares in storage locker.	Mrs. Leigh allergy: clean filters critical in spring.
Thermostat	Ecobee SmartThermostat (single zone, Celsius display)	Hallway wall near living area	Battery check monthly. Calibrate seasonally. Update eco-schedules.	See residence chapter for zone details and set temperatures.

Fire Safety

Component	Detail	Location	Testing	Last Tested	Next Due
Smoke detectors	Kidde hardwired + battery backup (3 units)	Entry hallway, kitchen area, bedroom hallway	Test monthly: press button. Replace batteries every 6 months (January + July).	January 2026	July 2026
CO detectors	Kidde CO alarm (1 unit, hardwired)	Entry hallway	Test monthly with smoke detectors. Replace unit every 5–7 years.	January 2026	July 2026
Fire extinguisher	ABC dry chemical 2.5 lb (1 unit)	Kitchen wall, near entry	Inspect gauge monthly (needle in green zone). Professional inspection annually.	January 2026	January 2027
Sprinkler system	Building-wide automatic sprinkler system. Maintained by building. Unit has sprinkler heads in all rooms and closets.	-	Building responsibility. Annual inspection. Butler confirms inspection certificate via concierge.	-	-
Fire escape / egress	Building fire stairs (2 stairwells). Assembly point: building lobby or designated outdoor area. Posted on each floor.	-	Ensure clear at all times. Never block with furniture or storage.	-	-
Max occupancy	Per Ontario Fire Code for high-rise residential: not individually posted per unit. Building common areas have posted limits. Practical unit limit: 15–20 persons. Leigh usage: 2–6.	-	Per fire code. Never exceed for events.	-	-

Elevator

Attribute	Detail
Type	Building passenger elevators (3 cars). Barrier-free accessible.

Attribute	Detail
Certification	TSSA (Technical Standards and Safety Authority) elevator inspection. Ontario requirement. Current certificate posted in each car.
Inspection schedule	Annual by TSSA. Building manages. Butler confirms with concierge that certificate is current.
Emergency	If stuck: use emergency phone in car. Building security responds. TSSA emergency line: 1-877-682-8772.

Utility Providers

Utility	Provider	Account	Monthly Cost	Emergency	Notes
Electricity	Toronto Hydro	[On file]	~CAD $80/mo	Toronto Hydro: 416-542-8000	Included in condo fees for common areas. Unit electricity billed separately. Budget ~CAD $960/year.
Gas	Enbridge Gas	Building account (included in fees)	Included in condo fees	Gas smell: evacuate. Call Enbridge: 1-866-763-5427 then 911.	Building boiler uses gas. No gas appliances in unit (induction cooktop).
Water	City of Toronto	Building account	Included in condo fees	Unit shutoff: under kitchen sink. Building: mechanical room.	Toronto water is excellent quality. Fluoridated.
Trash / recycling	Building waste room (each floor)	N/A	Included in condo fees	N/A	3-stream: garbage, recycling, organics. Ontario requires diversion from landfill.

Waste Management

Type	Provider / Method	Schedule	Notes
General waste	Building waste room (each floor)	Dispose as generated. Building collects daily.	Bag all waste. Use bins provided in waste room.
Recycling	Building recycling bins	As generated. Blue bin (containers) + grey bin (paper/cardboard).	Ontario recycling rules: clean containers, flatten cardboard. No plastic bags in blue bin.
Organics	Building green bin	As generated	Food scraps, coffee grounds, soiled paper. Building composts.

Type	Provider / Method	Schedule	Notes
Bulk / oversized	Contact concierge	By arrangement	Sarah Chen coordinates with building waste service. 1–2 weeks notice.

Wall and Ceiling Construction

Element	Material	Year	Notes
Walls	Standard 5/8" drywall (Type X fire-rated on demising walls to adjacent units). Smooth finish, painted.	2019 (new construction)	No asbestos risk. Standard drywall repair. Demising walls: do not penetrate (fire separation + soundproofing). Hang items on interior walls only.
Ceilings	5/8" drywall with sprinkler heads and recessed lighting.	2019	Do not drill near sprinkler heads (accidental activation floods unit). Mark 12" exclusion zone around each head.

Concierge Systems

Feature	Detail	Access	Notes
Package reception	Packages held at concierge desk. Notification via building app.	Concierge: Michael Okafor (416) 555-0211. Available 7 AM–11 PM.	After-hours packages: secured in package room. Retrieved next morning.
Guest registration	Pre-register 2–4 hours before. Name, time, unit.	Butler calls concierge remotely. Email also accepted.	After-hours guests: evening concierge Nina Petrova (416) 555-0212 handles.
Maintenance requests	Submit via building app or call Sarah Chen (416) 555-0210.	Butler submits remotely on behalf of unit.	Emergency: call concierge directly. Non-urgent: app with photos.
Moving / deliveries	Elevator booking required for large deliveries. 48-hour notice.	Book via concierge	Service elevator available. Deposit may be required ($500 refundable).
Amenity booking	Fitness centre (no booking). Party room (booking required). Guest suite ($150/night).	Via building app or concierge	Guest suite useful if overflow visitors. Book 2+ weeks ahead.

Chapter 5: Operations & Procedures

Key abbreviations: ER = Executive Residence | PR = Private Residence | TR = Toronto Residence | SOP = Standard Operating Procedure | HK = Housekeeper | AV = Audio-Visual | NDA = Non-Disclosure Agreement | ETA = Estimated Time of Arrival. Full glossary in Table of Contents.

12. Summary

1. Scope and Relationship to Chapters 2–4

Chapters 2–4 document what each residence is: its physical characteristics, technology, security, furnishings, and contacts. Chapter 5 documents how each residence operates: the daily procedures, cleaning protocols, service standards, and management workflows that keep the household running. Every SOP in this section references specific rooms, equipment, and vendors documented in Chapters 2–4. Staff should read Chapters 2–4 first to understand the environment, then use Chapter 5 as the daily operational manual. **The rule:** Chapters 2–4 are the map. Chapter 5 is the route.

2. Standard Operating Procedures

SOPs are organised by residence. Each procedure includes purpose, estimated time, step-by-step instructions, and common issues with fixes. Colour coding: blue = preparation, green = service, gold = verification, red = security.

2.1 Executive Residence SOPs

SOP-ER-01: Daily Opening (35–60 min)

Start 60–90 minutes before first meeting or principal arrival. Reference: Chapter 2, Section 3.4 for room-specific standards.

Step	Zone	Task	Time	Key Detail
1	A: Foyer	Entry reset	5–10 min	Floors spotless (Calacatta marble - damp microfibre only). Console clear except floral arrangement. Lighting at 70%. No packages visible.
2	B: Meeting	Meeting lounge reset	10–15 min	Minotti sofas: cushions aligned, lint-rolled if needed. Coffee table clear. Water service pre-staged on side console (Acqua Panna + San Pellegrino + Riedel tumblers).
3	C: Office	Office readiness	5–10 min	Clear desk standard: monitors, keyboard, mouse, one pen, one notepad only. Chargers in position. Chair at Mr. Leigh's settings. Temperature 68–69°F.
4	-	Tech check	10–15 min	Wi-Fi speed test (target: 500+ Mbps). Samsung Frame on art mode. Crestron: test display input switch. Logitech Rally: camera on, audio test. Remote batteries. Backup HDMI cable accessible.
5	E: Service	Service zone stock	5–10 min	Riedel glasses (6+ clean). Napkins (12+). Coffee: Counter Culture beans ground fresh, Miele machine ready. Harney and Sons tea selection visible. Backup water bottles.

SOP-ER-02: Professional Meeting Setup (20–35 min)

Execute after daily opening. For meetings with 2–6 external guests. Reference: Chapter 2, Section 3.4 (Meeting Lounge).

Step	Task	Time	Key Detail
1	Confirm parameters	5 min	Who (names, titles). When (exact time). How many. Any dietary/beverage notes from guest profiles (Chapter 7). NDA status.
2	Prepare room	10–15 min	Seating: arrange Minotti sofas + B and B Italia chairs for conversation flow. Water on coffee table (marble coasters). Napkins. Meeting tray kit from pantry if extended session.
3	Tech readiness	5–10 min	If presentation: Samsung Frame to HDMI input. Test screen share from laptop. If video conference: Logitech Rally positioned. Audio tested. Crestron scene: Meeting (blinds 60%, LEDs 65%).
4	Access coordination	5 min	Call building security (David Kowalski's team, (212) 555-0314). Provide guest names. Confirm elevator access protocol. Brief doorman (James Thornton day / Carlos Mendez evening).

SOP-ER-03: Guest Arrival Protocol

GUEST ARRIVAL - EXECUTIVE RESIDENCE	
▶ Pre-arrival (−30 min)	Room set. Refreshments staged. Tech tested. Building security briefed with guest names.
	↓
▶ Guest arrives at building	Doorman confirms identity. Calls butler: "[Guest name] is on the way up."
	↓
▶ Butler greets at unit door	"Good [time], [title + surname]. Welcome. May I take your coat?" Hang coat on walnut hanger. Offer garment brush.
	↓

GUEST ARRIVAL - EXECUTIVE RESIDENCE	
▶ Guide to reception area	Offer beverage: "May I offer you water, coffee, or tea?" Serve in Riedel tumbler or cup+saucer per preference.
	↓
▶ Inform Mr. Leigh discreetly	"Your guest has arrived." Via text if he's in the office, verbal if in the lounge.
	↓
▶ Guide to meeting area	When Mr. Leigh is ready. Ensure guest has beverage. Withdraw to service zone.
	↓
▶ During meeting: monitor	Available but invisible. Refill water at natural breaks. Fresh coffee if session exceeds 90 min. No interruptions.
	↓
✓ Departure assistance	Retrieve coat. Escort to door. "Thank you for visiting, [title + surname]. Good [time]."

SOP-ER-04: Daily Closing (30–60 min)

Step	Task	Time	Key Detail
1	Clear meeting spaces	10–20 min	Remove all cups, glasses, plates, papers. Wipe Minotti cushions if needed. Reset coffee table. Return chairs to exact positions (marked with small floor dots).
2	Secure sensitive materials	5–10 min	Collect all printed documents. Place in locked filing cabinet (Mr. Leigh's key) or shred (cross-cut shredder in office). No papers left visible anywhere.
3	Kitchen reset	10–20 min	Dishes in Miele dishwasher (ultra-quiet). Quartzite counters wiped. Espresso machine purged. Pantry restocked if depleted. Soft-close everything.
4	Systems and access	5–10 min	August Pro lock engaged (auto-lock confirmed). Lutron: evening scene (minimal lighting). Crestron: all AV off. Nest: night setback (67°F). Windows closed.

2.2 Private Residence SOPs

SOP-PR-01: Morning Reset (30–60 min)

This is the daily ritual that sets the tone for the principals' home. Begin before 7:00 AM. Reference: Chapter 3, Section 4.4 for room details.

Step	Floor	Task	Time	Key Detail
1	All	Silent walkthrough	5–10 min	Start at garden level, work up. Check: clutter, odours, temperature (70–72°F), any overnight issues. Note anything for the daily log.
2	Garden	Kitchen baseline	10–20 min	Calacatta Borghini counters: wipe with pH-neutral cleaner. Breville espresso: purge and prep Mr. Leigh's coffee (Counter Culture, medium roast). Harney and Sons camomile tea ready for Mrs. Leigh. Breakfast items accessible.
3	Garden	Winston morning prep	5 min	Fresh water bowl. Leash on hook. Paw wipes stocked. Check garden door lock. (Walk handled separately, 7:00–7:30 AM.)
4	Parlour	Living room reset	10–15 min	De Padova sofa: cushions aligned (do not over-fluff - linen shows marks). Cassina armchair: positioned per marks. Persian rug: quick visual for debris. Reading lamps ready. Fireplace remote accessible.
5	3rd Floor	Bathroom stock	5–10 min	Primary en-suite: fresh Matouk Milagro towels if used. Aesop products full. Heated floors on (timer should handle, but verify). Tub drained and dry.

Step	Floor	Task	Time	Key Detail
6	All	Systems check	5 min	Wi-Fi online (Eero app: all 4 nodes green). Nest: 70–72°F confirmed. Simplisafe: disarmed for the day. Ring doorbell: battery and connection.

SOP-PR-02: Evening Reset (25–45 min)

Step	Floor	Task	Time	Key Detail
1	Parlour	Living room evening mode	10–15 min	Lutron: Evening scene (floor lamps 60%, sconces low, overhead OFF). Blinds drawn. Water carafe on side table. Surfaces clear. If Mrs. Leigh requested music: Sonos on low (her playlist).
2	Garden	Kitchen closeout	10–15 min	All dishes done (hand wash Heath Ceramics, Cutipol Goa flatware). Counters sanitised. Trash removed. Tomorrow's breakfast items accessible. La Cornue wiped down.
3	3rd Floor	Bedroom readiness	5–10 min	Bed turned down (one-third fold). Temperature: 67–68°F. Ceiling fan on low. Blackout curtains drawn. Bedside water. Mrs. Leigh's reading lamp on, Mr. Leigh's off (he turns his on himself).
4	All	Noise control	Ongoing	No loud tasks after 8 PM. Defer anything noisy to tomorrow morning. Basement laundry: if running, ensure it completes before 9 PM (machine vibration carries).

SOP-PR-03: Weekly Deep Reset (2–4 hours)

Scheduled for Friday afternoons when principals are typically out or in the Executive Residence.

Area	Tasks	Products	Time	Frequency Notes
Kitchen deep	La Cornue interior clean. Sub-Zero coils. Pantry FIFO audit. Marble seal check. Cabinet front wipe. Brass hardware polish.	pH-neutral stone cleaner. Brass polish (Brasso). Appliance-specific cleaners.	45–60 min	La Cornue annual professional service: schedule in January
Bathrooms deep	Grout scrub. Dornbracht fixtures polished. Marble floor seal check (primary ensuite). Medicine cabinet organised.	Non-abrasive grout cleaner. Chrome polish. Stone sealer.	30–45 min	Marble resealing every 6 months (March and September) (professional)
Living room	Vacuum Persian rug (beater bar OFF). Condition Cassina leather. Dust bookshelves individually. Clean fireplace glass.	Leather conditioner (Lexol). Microfibre cloths. Glass cleaner.	30–40 min	Rug professional clean: annually ($400–$600)
Bedrooms	Change all linens. Dust all surfaces. Vacuum under beds. Closet organisation check. Mattress rotate check (quarterly).	Fresh Mattola linens. Microfibre cloths.	30–45 min	Savoir mattress: rotate quarterly per manufacturer
Basement	Laundry machines: clean lint trap, run cleaning cycle. Storage: audit seasonal items. Utility: check for leaks, moisture.	Machine cleaner (Affresh). Moisture absorbers.	20–30 min	Check sump pump if applicable (brownstone basement)

2.3 Toronto Residence SOPs

SOP-TR-01: Pre-Arrival Preparation (60–120 min)

Executed remotely by the butler through the cleaning service (Maple Leaf Home Care) and confirmed via concierge (Sarah Chen / Michael Okafor). Reference: Chapter 4.

Step	Task	Time	Remote Coordination Detail
1	Clean and reset	30–60 min	Cleaning service executes from standing checklist. Butler confirms via text/photo from service lead. Focus: bathroom spotless, kitchen clean, entry clear, bedroom hotel-standard.
2	Stock essentials	15–30 min	Grocery Gateway delivery placed by butler 48 hours prior. Standing list: Acqua Panna, San Pellegrino, Counter Culture coffee, oat milk, eggs, bread, butter, fruit, 1 Sauvignon Blanc. Cleaning service receives and unpacks.
3	Systems check	10–15 min	Butler calls concierge to confirm: Wi-Fi online (speed test via concierge's phone if possible), thermostat at 70°F / 21°C, lighting set to warm evening. Concierge checks unit briefly.
4	Meeting readiness (if applicable)	10–15 min	If meeting next day: cleaning service transitions living room to meeting mode (conversion checklist in entry console). AV equipment deployed. Seating aligned.
5	Access and transport	5–10 min	Guest names pre-registered with concierge (if meeting). Executive Town Car confirmed for airport pickup. Driver has flight number and estimated landing time.

SOP-TR-02: Departure Closing (30–60 min)

Step	Task	Time	Detail
1	Perishables	10–15 min	Remove anything that will spoil before next visit (could be 2–6 weeks). Discard opened dairy, produce, bread. Keep sealed items.

Step	Task	Time	Detail
2	Laundry	10–15 min	Wash and dry all used linens and towels (LG WashTower). Fold and store. Do not leave in machine.
3	Systems	5–10 min	Electronics off (except fridge). Ecobee to standby: 65°F / 18°C minimum (winter pipe protection). Lights off. Blinds closed (sun damage prevention).
4	Security	5 min	Yale lock engaged. Confirm with concierge that unit is secured. Update departure log (date, time, issues, next expected visit).

3. Cross-Residence Transition Procedures

3.1 Transition Flowchart

RESIDENCE TRANSITION WORKFLOW	
▶ Confirm itinerary (48 hr before)	Which residences involved. Travel method and time. Meetings at destination? Winston travelling?
	↓
▶ Prepare destination (24–48 hr)	Execute arrival SOP for destination residence. Toronto: remote coordination with cleaning service.
	↓
◆ Meeting at destination?	YES: Meeting setup SOP + guest access coordination. NO: Skip to next step.
	↓
▶ Prepare departure residence	Execute closing SOP. Secure property. Perishables handled. Systems to standby.
	↓
▶ Pack and verify (day before)	Packing list confirmed with principals. Devices, chargers, documents, medications. Winston travel kit if applicable.
	↓
▶ Transport coordination (day of)	Car service confirmed. Driver briefed. Arrival time estimated. Destination team notified of ETA.
	↓

RESIDENCE TRANSITION WORKFLOW	
✓ Arrival confirmed; log complete	Both residences logged. Transition checklist filed. Any issues noted for follow-up.

3.2 NYC ↔ Toronto Specific Protocol

This is the most complex transition because it involves cross-border travel, remote residence management, and potential time pressure.

Timing	Task	Owner	NYC Detail	Toronto Detail
48 hr before	Confirm flights	Butler/PA	Book car to airport. Confirm airline, terminal, seat preferences.	Confirm car from Pearson or Billy Bishop. Canadian SIM charged.
48 hr before	Stock destination	Butler	N/A (NYC always stocked)	Place Grocery Gateway order. Confirm with cleaning service.
24 hr before	Prepare destination	Butler	Execute ER or PR arrival SOP as applicable.	Call concierge (Sarah Chen). Cleaning service executes. Virtual walkthrough.
Day of	Pack and verify	Butler	Check: passports, Canadian docs, meeting materials, devices, chargers, medications.	N/A (packing happens in NYC)
Day of	Close departure	Butler	Execute closing SOP for active NYC residence.	N/A (or: close Toronto per SOP-TR-02 if returning to NYC)
Day of	Transport	Butler/PA	Car to JFK/LGA/Newark. OR car to Billy Bishop (Porter Airlines preferred).	Executive Town Car from airport. 35–55 min from Pearson; 15–20 from Billy Bishop.
Arrival	Confirm safe arrival	Butler	Log completion. Note any issues.	Concierge confirms principals entered. Butler logs. Any issues flagged.

3.3 Winston Travel Decision Matrix

Scenario	Winston Travels?	Arrangement	Key Actions
NYC trip (1–2 nights between ER and PR)	YES - moves between residences	PR is home base; ER if overnight	Ensure ER has water bowl, treats. Clean ER of pet hair before meetings.

Scenario	Winston Travels?	Arrangement	Key Actions
Toronto (2–3 day business)	NO	Boarding at preferred facility	Drop-off: day of departure. Pickup: day of return. Vaccination records provided.
Toronto (5+ days, both principals)	Possible	Discuss with principals in advance	If yes: airline pet policy confirmed. Toronto vet identified. Travel kit packed.
Extended travel (1+ week)	NO	Boarding or trusted pet sitter	Butler confirms arrangements 1 week before. Daily check-in with facility.

4. Emergency and Contingency Protocols

4.1 Emergency Response Flowchart

EMERGENCY RESPONSE - ALL RESIDENCES	
⚠ INCIDENT OCCURS	Assess immediately: Is anyone in danger?
	↓
◆ Life-threatening?	YES: Call 911 (NYC) or 911 (Toronto). Do NOT delay for any reason.
	↓
▶ Secure the scene	Remove people from danger. Shut off water/gas/power if safe. Contain damage.
	↓
▶ Contact building resources	ER: Security desk (212) 555-0314. PR: 911 direct (private home). TR: Security (416) 555-0213.
	↓
▶ Notify principals	Concise S-O-R format: what happened, what you did, what you recommend. Text if non-urgent. Call if urgent.
	↓
▶ Document everything	Photos. Written timeline. Witness names. Actions taken. Costs incurred.
	↓
✓ File incident report	Complete form (Chapter 7, Section 7). Update maintenance log. Follow up on any open items.

4.2 Emergency Quick Reference by Residence

Emergency	Executive Residence	Private Residence	Toronto Residence
Fire	Evacuate. Pull building alarm. Call 911. Meet at lobby.	Evacuate via front stoop. Call 911. Meet across street.	Evacuate. Pull building alarm. Call 911. Meet at lobby.
Medical	Call 911. First aid kit: kitchen E zone. Nearest ER: NYP Lower Manhattan.	Call 911. First aid kit: kitchen. Nearest ER: Lenox Health Greenwich Village (5 min walk).	Call 911. First aid kit: kitchen. Nearest ER: Sunnybrook (15 min drive).
Power outage	Check building status. Contact David Kowalski (212) 555-0310. UPS protects office (15 min).	Check Con Edison outage map. Generator: none (brownstone). Flashlights: entry closet + bedroom.	Check building status. Contact Sarah Chen (416) 555-0210. Building has backup generator.
Water leak	Shut off under-sink valve. Towels. Call Reliable Plumbing (212) 555-0933. Photo damage.	Shut off main valve (basement utility room). Towels. Call Reliable Plumbing. Photo damage.	Shut off under-sink valve. Towels. Call Toronto Quick Plumbing (416) 555-0542. Notify concierge.
Wi-Fi outage	Restart Eero (utility closet). Mobile hotspot in office drawer. Call ClearPath (212) 555-0425.	Restart Eero (basement node first). Mobile hotspot in kitchen. Call ClearPath.	Restart Eero. Canadian SIM hotspot in entry console. Call NorthPoint (416) 555-0438.
Unverified visitor	Do NOT admit. Verify via building security (212) 555-0314.	Do NOT open door. Use Ring doorbell camera. Call 911 if suspicious.	Do NOT admit. Verify via concierge (416) 555-0210.

5. Inventory Management

5.1 Inventory Status Dashboard

Category	Item	ER	PR	TR	Min Stock	Action Required
BATHROOM ESSENTIALS						
Toiletries	Aesop body wash, shampoo, conditioner, lotion	✓	✓	✓ (travel size)	2 full sets / 4 travel	Restock when 1 set remains
Towels	Matouk Milagro (white, monogrammed)	6 bath	8 bath	4 bath	Per residence count	Replace when absorbency drops
Toilet paper	Charmin Ultra Soft	12 rolls	18 rolls	8 rolls	2 weeks per residence	Auto-order via Amazon Subscribe

Category	Item	ER	PR	TR	Min Stock	Action Required
KITCHEN ESSENTIALS						
Coffee	Counter Culture (medium roast, whole bean)	1 bag	1 bag	1 bag	1 bag per residence	Bi-weekly order; grind fresh daily
Tea	Harney and Sons (camomile, peppermint, Earl Grey)	Full set	Full set	Camomile only	Full set NYC; basic TR	Monthly check
Water	Acqua Panna still + San Pellegrino sparkling	24 ea	24 ea	12 ea	12 per residence	Weekly delivery NYC; pre-arrival TR
CLEANING

Cables	USB-C, Lightning, HDMI spare set	Full set	Full set	Full set	1 full set per residence	Check quarterly; replace worn cables
Batteries	AA, AAA (for remotes, locks, sensors)	8 each	8 each	8 each	8 each per residence	Check monthly

6. Cleaning Standards and Schedules

6.1 Cleaning Philosophy

Every cleaning task in the Leigh household must account for the specific materials in each residence. The Executive Residence has Calacatta Gold marble floors and quartzite countertops. The Private Residence has a Calacatta Borghini marble kitchen, original brownstone slate, a $25,000 Persian rug, and a $8,500 La Cornue range. Generic cleaning destroys premium materials. Staff must know what they are cleaning and use the correct product every time. **Hard rules:** No synthetic fragrances (principal sensitivity). No abrasive cleaners on any stone surface. No bleach on coloured fabrics. No wet mopping on hardwood. No vacuum beater bar on the Persian rug. When in doubt, use the gentler option.

6.2 Daily Cleaning Schedule by Residence

Time	Executive Residence	Private Residence	Toronto (when occupied)
Before 7:00 AM	- (butler arrives 5:45; housekeeper 7:00)	Silent walkthrough. Kitchen prep begins.	N/A (pre-arrival clean by service)
7:00–8:00 AM	Foyer: damp microfibre on marble. Meeting lounge: lint-roll sofas, clear surfaces. Office: desk clear check.	Entry: sweep slate. Kitchen: pH-neutral wipe on marble. Winston station: clean paw area.	Entry: quick sweep. Kitchen: counter wipe. Bathroom: towel refresh.
8:00–8:30 AM	Bathrooms: surfaces wiped, towels refreshed, Aesop products checked.	Bathrooms: en-suite towels (Matouk), Aesop check. Parlour powder room stocked.	Bathroom: full stock check. Bedroom: bed made to hotel standard.
Midday	Service zone: dishes done, counters wiped, espresso machine purged.	Kitchen: post-breakfast reset. La Cornue wiped. Counters sealed if any acid spills.	Kitchen: dishes done. Counter wipe. Quick living area tidy.
Evening	Post-meeting clear (if applicable). Full kitchen reset. Trash out. Quiet operations only.	Living room: Lutron evening scene. Kitchen closeout (hand-wash Heath Ceramics). Dining: reset if used.	Living room reset. Kitchen closeout. Trash out if needed.

6.3 Weekly Deep Clean by Material

Material / Surface	Location(s)	Product	Method	Frequency	Cost Note
Calacatta Gold marble (floor)	ER foyer	pH-neutral stone cleaner	Damp microfibre mop. Never wet mop. Dry immediately.	Daily light; monthly polish	Reseal every 12 months (~$300)
Calacatta Borghini marble (counter)	PR kitchen	pH-neutral stone cleaner	Wipe spills instantly (acid stains permanently). Seal every 6 months.	Daily wipe; 6-month seal	Professional reseal ~$200
Quartzite countertops	ER kitchen	Warm water + mild soap	Standard wipe. More durable than marble. Use trivets for hot items.	Daily wipe	No sealing needed
Caesarstone quartz	TR kitchen	Warm water + mild soap	Easiest to maintain. No sealing. Avoid abrasives.	Daily wipe	No sealing needed
White oak hardwood	ER throughout	Dry dust mop only	Never wet mop. Spot clean with barely damp cloth. Refinish every 5–7 years.	Daily dust; weekly detailed	Refinish ~$3,000–$5,000 per room

Material / Surface	Location(s)	Product	Method	Frequency	Cost Note
Brownstone slate tile	PR entry	Sweep + damp mop	More forgiving than marble. Standard damp mop is fine. Wax annually.	Daily sweep; weekly mop	Wax ~$150 annually
Persian rug (vintage, ~$20K)	PR living room	Professional only	Vacuum gently (beater bar OFF). Rotate 180° every 6 months. Never attempt DIY stain removal.	Vacuum 3x/week	Professional clean annually $400–$600
Linen upholstery (De Padova)	PR living room	Lint roller + vacuum	Vacuum weekly (upholstery attachment). Professional fabric clean bi-annually.	Weekly; bi-annual deep	Professional clean ~$350
Leather (Cassina, West Elm)	PR living, TR living	Lexol leather conditioner	Wipe with damp cloth weekly. Condition quarterly. No direct sunlight.	Weekly wipe; quarterly condition	Lexol: $15/bottle
Brass hardware	PR kitchen, entry	Brasso brass polish	Polish monthly with soft cloth. Wipe fingerprints as needed.	Monthly polish	Brasso: $8/bottle
Dornbracht fixtures	ER bath, PR ensuite	Chrome-safe polish	Wipe dry after each use to prevent water spots. Polish monthly.	Daily dry; monthly polish	Polish: $12/bottle

6.4 Seasonal Cleaning Calendar

Season	Months	Special Focus	Budget Impact
Spring	Mar–May	Full deep clean all residences. Marble resealing (ER + PR). Window washing. Allergy protocol: reduce fresh flowers for Mrs. Leigh. Garden prep (PR). AC service.	~$2,500 additional (cleaning + sealing + garden startup)
Summer	Jun–Aug	Pest prevention (PR brownstone). Garden maintenance bi-weekly ($200/visit). HVAC filter changes. Lighter linens deployed. Sun damage prevention (close blinds in empty rooms).	~$1,600 (garden $200x8 + pest + filters)

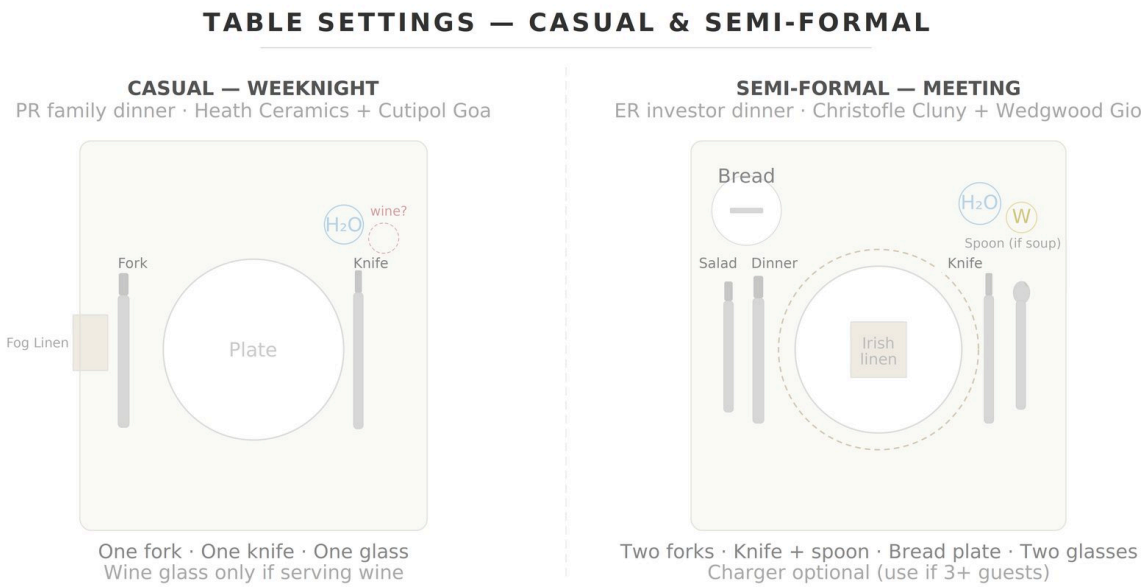

Season	Months	Special Focus	Budget Impact
Autumn	Sep–Nov	Wardrobe rotation (all closets). Heavier linens deployed. Heating system service. Fireplace service (PR gas insert). Garden furniture stored (PR). Pre-holiday deep clean.	~$1,200 (HVAC + fireplace + wardrobe dry cleaning)
Winter	Dec–Feb	Holiday decorating (Mrs. Leigh directs). Pipe protection check (PR brownstone, TR). Humidifier management (hardwood protection). Year-end inventory audit.	~$800 (décor + humidifiers + pipe insulation check)
		Annual seasonal cleaning budget	~$6,100 additional beyond regular cleaning

7. Dining, Entertaining and Guest Experience

7.1 Dining Comparison by Residence

	Executive Residence	Private Residence	Toronto
Dining table	Custom walnut, seats 6–8	Nakashima-inspired oval oak, seats 6–8	BoConcept dining table, seats 4–6
Tableware	Wedgwood Gio (white). Riedel Vinum. Christofle Cluny (silver plate).	Heath Ceramics (Opaque White). Simon Pearce glass. Cutipol Goa (matte gold).	Simple white stoneware. Basic glassware. Stainless flatware.
Linens	Irish linen napkins (white). Tablecloth optional.	Fog Linen napkins. Mrs. Leigh's seasonal centrepiece.	Paper napkins acceptable for casual. Cloth for meetings.
Service style	Formal: courses served from left, cleared from right. Silver service for special occasions.	Warm family-style or plated. Relaxed but beautiful. Presentation matters to Mrs. Leigh.	Simple plated. Hotel-level but not formal. Efficiency over ceremony.
Max capacity	6 (comfortable); 8 (special occasion)	8 (with extensions)	4–6 (tight at 6)
Typical occasion	Investor dinner. Working meal. Client hospitality.	Family dinner. Holiday meal. Friends gathering.	Post-flight meal. Working lunch. Quick partner dinner.

7.2 Table Setting Standards by Formality

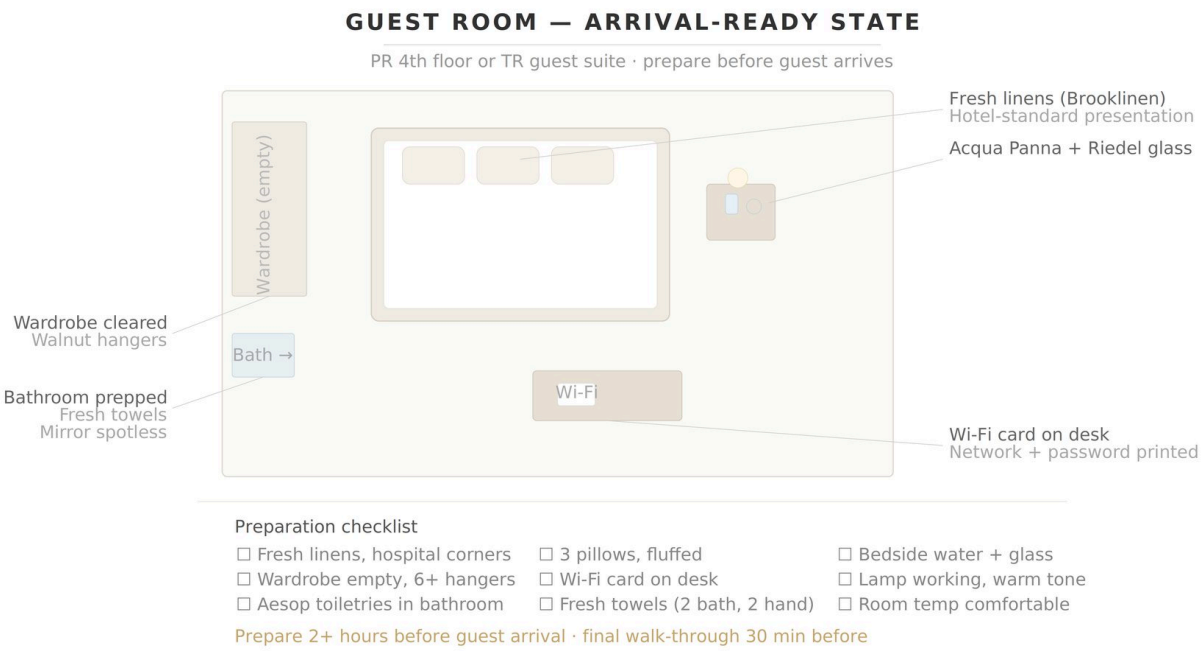

Level	When	Setup	Key Items	Service Notes
Casual (daily)	Weeknight dinners at PR	Placemat + plate + fork + knife + glass + napkin	No centrepiece unless Mrs. Leigh requests. Water carafe on table.	Serve and clear informally. Conversation is priority.
Semi-formal (meeting)	ER investor dinners (2–4)	Linen + charger + plate + full flatware + 2 glasses + cloth napkin	Low centrepiece. Christofle flatware. Water + wine glasses.	Courses served from left, cleared from right. Wine poured from right.
Formal (special)	ER dinner (6), PR holiday	Full linen + charger + all courses + 3 glasses + place cards (optional)	Mrs. Leigh approves décor. Christofle or Cutipol per residence. Menu cards if multi-course.	Butler oversees all service. Wine paired by course. Crumb between courses.
Toronto casual	Working lunch / post-flight	Simple placemat + plate + basic flatware + water glass	Nothing elaborate. Clean and functional.	Efficiency. Serve quickly, clear promptly.

7.3 Event Preparation Timeline

Timeline	Task	Owner	ER Specifics	PR Specifics
7 days	Guest list, dietary needs, service style confirmed	Butler	Check guest profiles (Chapter 7). NDA status.	Confirm with Mrs. Leigh: centrepiece, music, tone.
5 days	Menu planned; beverages selected; specialty items ordered	Butler/Chef	Christofle polished. Riedel inspected for chips.	Heath Ceramics checked. Cutipol hand-washed. Simon Pearce inspected.
3 days	Linens, tableware, glassware confirmed; flowers ordered	Butler/HK	Irish linen pressed. Bloom and Branch order placed.	Fog Linen napkins pressed. Mrs. Leigh's seasonal centrepiece discussed.
1 day	Deep clean dining + reception. Table framework set. AV tested.	HK/Butler	Calacatta marble foyer spotless. Samsung Frame art selected. Crestron dinner scene tested.	Persian rug vacuumed (gently). Fireplace tested. Lutron dinner scene tested.
Day of (AM)	Final food prep. Table fully set. Rooms inspected.	Chef/Butler	Water service pre-staged. Office secured (no documents visible).	Garden door closed if cool. Winston settled if formal. Flowers placed.
After event	Clear, wash (hand-wash where required), store, debrief, log guest notes.	Butler/HK	Christofle hand-washed, dried, stored. Shred any event documents.	Cutipol hand-washed (dishwasher damages matte finish). Notes in guest log.

7.4 Guest Room Preparation (PR only)

The Private Residence is the only property that hosts overnight guests (3rd floor guest bedroom or 4th floor flex room).

Item	Standard	Product/Brand	Check
Bed linens	Fresh, hotel-fold	Brooklinen Classic Percale (white)	[ ]
Towels	Full set, folded presentation	Matouk Milagro (white)	[ ]
Toiletries	Quality travel-size set	Aesop (body wash, shampoo, conditioner, lotion)	[ ]
Bedside	Water, glass, notepad, pen	Acqua Panna + Riedel tumbler	[ ]
Wi-Fi	Password on discreet card	Guest network (rotated per visit)	[ ]
Temperature	70°F; lighting adjustable	Nest zone + Lutron scene	[ ]
Wardrobe	Space cleared; quality hangers	Walnut hangers (minimum 8)	[ ]
Special touches	Per guest profile (Chapter 7)	E.g., Robert Leigh: whisky visible. Catherine: English Breakfast tea. Charlotte: fresh flowers.	[ ]

8. Wardrobe, Valet and Grooming

8.1 Wardrobe Comparison

	Mr. Leigh	Mrs. Leigh
Style	Minimalist, tailored, neutral tones	Curated, natural fabrics, muted palette with accents
Key pieces	6–8 suits (navy, charcoal). 12–15 shirts (white, blue). 5–6 shoes.	Broader range by occasion. Structured silhouettes. Quality accessories.
Organisation	By category then colour (dark to light). His side of walk-in (PR 3rd floor).	By occasion (professional, casual, evening, active) then colour. Her side of walk-in.
Rotation	Twice per year (spring/autumn)	Four times per year (each season)
Dry cleaning	Suits after 3–4 wears. Shirts after each wear. Marcel's Fine Garment Care (212) 555-1480.	Check labels. Delicates hand-wash or dry clean only. Marcel's handles all.
KEY RULE	No logos. No branding. Quality over quantity.	Never discard or donate any item without Mrs. Leigh's explicit approval.

8.2 Wardrobe by Residence

	ER Wardrobe	PR Wardrobe (Primary)	TR Wardrobe
Mr. Leigh	2 suits, 3 shirts, 1 casual outfit, sleepwear, toiletries	Full wardrobe (primary closet)	1–2 suits, 2 shirts, casual, exercise, sleepwear
Mrs. Leigh	1 professional outfit (emergency)	Full wardrobe (primary closet)	2–3 outfits, casual, yoga kit
Maintenance	Press suits before each use. Lint-roll. Check for damage.	Full rotation and seasonal management.	Check and refresh before each trip. Launder on departure.

8.3 Packing Protocol

Trip Type	Duration	Mr. Leigh	Mrs. Leigh	Shared
NYC → Toronto (business)	2–3 days	2 suits, 3 shirts, 1 casual, exercise wear, sleepwear	2–3 professional outfits, 1 casual, yoga kit, sleepwear	Travel emergency kit (sewing, stain pen, lint roller, shoe polish). Tech bags. Passports.
NYC → Toronto (extended)	5–7 days	3–4 suits, 5–6 shirts, 2 casual, exercise, formal option	5–6 outfits mixed, 2 casual, evening option, fitness wear	Same kit + extra chargers. Consider shipping luggage ahead for long stays.

Trip Type	Duration	Mr. Leigh	Mrs. Leigh	Shared
Weekend personal	2 days	2 casual outfits, smart-casual, exercise	3–4 casual outfits, comfortable shoes, light layers	Minimal tech. Winston travel kit if applicable.
International	5+ days	Full range + formal. Garment bag for suits.	Full range + formal + evening. Jewellery case.	Adapters (UK/EU). Prescriptions in carry-on. Travel insurance docs.

9. Travel and Logistics

9.1 Travel Preferences

Dimension	Preference	Detail
Airline (NYC → Toronto)	Porter Airlines preferred	Billy Bishop airport: 15–20 min to Yorkville. Smaller, quieter, faster. Business class.
Airline (long-haul)	Business class minimum	Preferred carriers to be confirmed. Aisle for Mr. Leigh; window for Mrs. Leigh.
Ground (NYC)	Private car service	Atlantic Executive Cars, (212) 555-1820. Black SUV or sedan. Professional, discreet drivers.
Ground (Toronto)	Private car service	Executive Town Car, (416) 555-0768. Airport + Bay Street runs.
Hotels (when needed)	Five-star, quiet, central	Separate work desk required. Confirm Wi-Fi speed. No street-facing rooms.
Frequency	NYC–Toronto: 6–10x/year	Occasional: San Francisco, London, Singapore

9.2 Travel Coordination Timeline

Timing	Task	Owner
2 weeks before	Confirm flights, ground transport, accommodation (if hotel). Verify passports current.	Butler / PA
1 week before	Prepare packing list. Confirm with principals. Begin destination residence prep coordination.	Butler
3 days before	Place Toronto grocery order (Grocery Gateway). Coordinate cleaning service. Confirm building concierge.	Butler

Timing	Task	Owner
1 day before	Prepare travel briefing: itinerary, contacts, local info. Confirm car service. Check Canadian SIM.	Butler / PA
Day of	Final pack verification: passports, documents, devices, chargers, medications. Winston arrangements confirmed. Close departure residence.	Butler
Post-travel	Unpack. Launder travel items. Restock travel supplies. Debrief any issues. Update travel log.	Butler / HK

9.3 Airport and Transit Quick Reference

Route	Airport	Drive Time from Residence	Terminal Notes	Car Service
NYC → Toronto	JFK	45–75 min from West Village	International terminal. TSA PreCheck if enrolled.	Atlantic Executive (212) 555-1820
NYC → Toronto	Billy Bishop (YTZ) via Porter	30–40 min from West Village	Preferred. Smaller, faster, pedestrian tunnel to terminal.	Atlantic Executive
Toronto → NYC	Pearson (YYZ)	35–55 min from Yorkville	Terminal 1 (most carriers) or Terminal 3 (older).	Executive Town Car (416) 555-0768
Toronto → NYC	Billy Bishop (YTZ)	15–20 min from Yorkville	Porter Airlines. Preflight lounge included with business class.	Executive Town Car

9.4 Hotel Stay: Turn-Up and Turn-Down Procedures

When the principals stay at a hotel, the butler (if travelling) or PA should coordinate with the hotel concierge or butler service to ensure the room meets Leigh household standards. If no butler is present, these instructions should be sent to the hotel in advance via the concierge or guest relations manager. Preferred hotels: The Carlyle (NYC overflow), Four Seasons Toronto (if TR unavailable), Claridge's (London), The Peninsula (Hong Kong), Aman Tokyo. Always request a suite with separate living area. **9.4.1 Pre-Arrival Setup (Turn-Up)** Contact the hotel at least 48 hours before arrival. Send the following requirements in writing to the guest relations manager or concierge. Confirm receipt and compliance by phone 4 hours before check-in.

Area	Requirement	Detail	Why It Matters
Room temperature	Set to 69°F (20.5°C)	Mr. Leigh prefers 68-69°F. If Mrs. Leigh is present, compromise at 70°F.	Arriving to a cold or stuffy room sets the wrong tone immediately.

Area	Requirement	Detail	Why It Matters
Lighting	All lamps on low, overhead lights OFF	Mrs. Leigh strongly dislikes overhead lighting. Request dimmer settings if available.	First impression of the room. Warm and welcoming, not clinical.
Minibar	Remove all snacks and sodas. Stock: Acqua Panna (still), San Pellegrino (sparkling), and 1 bottle of Sauvignon Blanc (chilled)	If hotel cannot stock specific brands, request premium still and sparkling water plus a crisp white wine.	The principals do not consume minibar snacks. Removing them keeps the space clean and avoids accidental charges.
Flowers	Fresh arrangement, low-scent or no lilies	Mrs. Leigh has seasonal pollen sensitivity. Avoid lilies, heavily scented blooms, and any wildflower arrangements. Prefer white tulips, ranunculus, or simple greenery.	Lilies or pollen-heavy flowers will cause discomfort and signal that staff did not read the brief.
Bedding	Request extra pillows (2 firm, 2 soft). Duvet, not blankets.	Mr. Leigh sleeps with 1 firm pillow. Mrs. Leigh sleeps with 2 soft pillows. Both prefer a duvet over tucked blankets.	Sleep quality on travel directly affects the next day's performance.
Bathroom	Request: fresh white towels only, Aesop or Le Labo toiletries if available. Remove hotel-branded minis if premium brand is available.	If the hotel does not carry Aesop/Le Labo, leave the standard amenities. Never request brands the hotel does not stock.	Consistent with household standards. Small detail that signals care.
Closet	Provide 6 wooden hangers (remove wire), 1 garment bag space cleared, iron and board in room (or confirm pressing service)	If the hotel only provides padded hangers, that is acceptable. Wire hangers are not.	Arrival unpacking should be smooth. Wire hangers damage suit shoulders.
Technology	Confirm Wi-Fi password and speed before arrival. Request Bluetooth speaker if not in-room.	Mr. Leigh needs reliable Wi-Fi for market monitoring. Test speed if possible.	Dead or slow Wi-Fi on arrival creates immediate frustration.
Coffee	Request in-room Nespresso or drip machine with medium-roast pods/grounds. No decaf.	If no in-room option, confirm room service coffee available by 6:15 AM.	Mr. Leigh's first task is coffee. This cannot wait for room service.
Noise	Request a room away from lifts, ice machines, and street-facing if possible	Both principals value quiet. Corner suites are ideal.	Noise complaints after check-in are awkward and disruptive.
Turndown time	Request turndown between 6:00 and 7:00 PM	Not while principals are in the room. If dining out, schedule during dinner.	Turndown happening at 9 or 10 PM disrupts the evening routine.

9.4.2 Arrival Checklist (Butler Walk-Through) If the butler is present, complete this walk-through before the principals enter the room. Allow 15-20 minutes.

Step	Action	Check
1	Confirm room temperature is 69°F. Adjust thermostat if needed.	Thermostat reading confirmed
2	Turn off all overhead lights. Turn on bedside lamps and living area lamps to low.	Warm lighting, no overhead
3	Check minibar: water and wine present, snacks removed.	Acqua Panna, San Pellegrino, white wine
4	Check flowers: low-scent, no lilies. Move to side table if blocking workspace.	Safe arrangement, good placement
5	Check bathroom: clean towels, premium toiletries, no previous guest items.	Fresh, complete, presentable
6	Check closet: wooden hangers, space cleared, iron available.	Ready for unpacking
7	Test Wi-Fi: connect personal device, confirm speed is adequate.	Connected, functional
8	Set out Mr. Leigh's phone charger and laptop charger on the desk.	Devices accessible
9	Place Mrs. Leigh's skincare bag on bathroom counter (left side).	Positioned per preference
10	Lay out tomorrow's clothing if already selected, or hang travel garments.	Wrinkle-free, ready
11	Confirm room service breakfast menu is available. Mark 6:15 AM coffee order.	Order placed or menu reviewed
12	Place Butler Book Quick Reference Card in the room folder (if travelling with copy).	Available for reference

9.4.3 Evening Turn-Down Procedure If the hotel provides turndown service, coordinate timing. If no hotel turndown is available (or if the butler is handling it), complete the following between 6:00 and 7:00 PM while the principals are at dinner or an evening engagement.

Step	Action	Notes
1	Close all curtains and blinds fully.	Blackout preferred. Check for gaps that let in street light.
2	Turn down the bed on both sides. Fold duvet at a 45-degree angle.	Hotel standard fold. Place a chocolate on each pillow only if the hotel provides them.
3	Place slippers at bedside (Mr. Leigh: right side, Mrs. Leigh: left side).	If travelling with personal slippers. Otherwise, position hotel slippers.
4	Set bedside water: 1 glass of still water on each nightstand.	Acqua Panna preferred. Use hotel glassware, not plastic cups.

Step	Action	Notes
5	Bathroom: replace used towels with fresh. Lay out bath mat. Fold hand towels.	Reset to arrival standard. Squeegee shower glass if used.
6	Set bathroom lighting to low (night light mode if available).	Bright bathroom lights at 2 AM are jarring. Dim is better.
7	Charge all devices. Place phones face-down on nightstands, cables tidy.	No cable mess visible. Use a small tray if available.
8	Lay out next-day clothing if confirmed. Press if needed (hotel valet or in-room iron).	Confirm outfit choice before pressing. Never assume.
9	Set alarm clock (if physical) to OFF. Principals use phone alarms only.	Hotel alarm clocks going off at 4 AM from a previous guest is unforgivable.
10	Adjust thermostat to 67°F for sleeping (slightly cooler than daytime).	Both principals sleep better in a cool room.
11	Remove any room service trays, used glasses, or food packaging.	Room should look and smell fresh.
12	Final check: quiet, cool, dark, clean, devices charged, water placed, clothes ready.	Walk through once more before leaving.

9.4.4 Morning Turn-Up (Next Day) If the butler is present, arrive at the suite 45 minutes before the first scheduled activity.

Step	Action	Notes
1	Enter quietly. Do not knock loudly if principals may still be sleeping.	Use the butler's key or coordinate entry time via text the night before.
2	Open curtains partially (living area only, not bedroom if door is closed).	Let natural light into the living space. Bedroom stays dark until principals emerge.
3	Order or prepare coffee: black medium roast for Mr. Leigh, ready by 6:15 AM.	If room service: order 30 min before needed. Confirm hot, not warm.
4	Prepare Mrs. Leigh's tea if she is awake: camomile or peppermint, ceramic cup.	Ask via text or wait until she appears. Never assume which tea.
5	Review the day's schedule. Place a printed summary card on the desk.	Include: meetings, transport times, restaurant reservations, flight details.
6	Confirm ground transport for the day. Text driver with pickup time and address.	Reconfirm even if booked yesterday. Drivers forget.
7	Check wardrobe: today's outfit pressed and ready. Shoes polished if leather.	Mr. Leigh: suit or business casual depending on schedule. Mrs. Leigh: confirm choice.
8	Restock bathroom supplies used overnight. Fresh towels if needed.	Replenish water glasses. Check toiletry levels.

9.4.5 Hotel Communication Protocol When coordinating with hotel staff, follow these guidelines: 1. Always communicate in writing first (email to concierge or guest relations), then confirm by phone. 2. Use the title 'Mr. and Mrs. Leigh' in all correspondence. Never use first names with hotel staff. 3. Do not disclose the reason for travel, business details, or net worth to hotel staff. 4. If the hotel assigns a dedicated butler, brief them on key preferences (temperature, lighting, no cilantro, coffee timing) but do not share the full Butler Book. 5. Tip the hotel butler and housekeeping daily ($20-50/day depending on the property). Mr. Leigh will confirm the amount. 6. If anything is unsatisfactory, handle it directly with the hotel. Do not escalate to the principals unless the hotel cannot resolve the issue. **9.4.6 Extended Stay Additions (3+ Nights)** For stays longer than 3 nights, request the following additional arrangements:

Item	Action	When
Laundry service	Confirm hotel dry cleaning turnaround time. Send suits and shirts on day 2.	Day 2 morning
Grocery delivery	Order Acqua Panna, San Pellegrino, and fresh fruit via concierge or local delivery.	Day 2
Workspace setup	Request a second monitor or printer if Mr. Leigh is working from the hotel.	Pre-arrival or day 1
Gym access	Confirm gym hours and equipment. Mr. Leigh may want early morning access (6 AM).	Pre-arrival
Restaurant reservations	Book dinner reservations for each evening. Mrs. Leigh prefers Mediterranean or farm-to-table.	Pre-arrival
Fresh flowers	Replace arrangement on day 3 if wilting. Same low-scent specification.	Day 3
Room deep clean	Request a full refresh on day 3: fresh linens, full towel replacement, carpet vacuum.	Day 3 during outing

10. Staff Operations Reference

Full staff structure, org chart, job descriptions, performance management, and HR protocols are in Chapter 6 (Sections 4, 10, 16). Here you will find the residence-specific staff operations reference.

10.1 Staff Deployment by Residence

Staff Member	Executive Residence	Private Residence	Toronto	Total Weekly Hours
Butler	Primary (weekday mornings for openings and meetings)	Primary (afternoons, evenings, weekends)	Remote coordination only	~58 hours
Housekeeper	Support (post-meeting clean, deep clean)	Primary (daily cleaning, laundry, inventory)	N/A	~45 hours

Staff Member	Executive Residence	Private Residence	Toronto	Total Weekly Hours
Chef (PT)	Occasional (meeting catering)	Primary (daily meals)	N/A	~28 hours
PA	Meeting coordination, guest access	Scheduling, travel, correspondence	Travel booking, remote coordination	~40 hours
Cleaning service	Sterling Home Services (bi-weekly deep)	Sterling Home Services (bi-weekly deep)	Maple Leaf Home Care (pre-arrival)	Contracted

10.2 Daily Butler Timeline (Typical Weekday)

Time	Location	Activity
6:30 AM	ER	Arrive. Daily opening SOP-ER-01. Breakfast prep. Coffee ready by 6:15.
8:00 AM	ER	Serve breakfast. Morning briefing with Mr. Leigh.
9:00–12:00	ER	Meeting support. Guest service. Office readiness.
12:00–1:00 PM	ER	Lunch prep and service.
1:00 PM	ER → PR	Transition to Private Residence. Confirm housekeeper status.
1:30–4:00 PM	PR	Admin: vendors, this operational manual, inventory, wardrobe review. Winston midday coordination.
4:00–6:00 PM	PR	Evening prep. Dinner coordination with chef. Winston afternoon walk.
7:00–8:00 PM	PR	Dinner service.
8:00–9:00 PM	PR	Evening reset. Winston final outing. Close residence. Log day. Depart.

11. Butler Book Systems and Continuity

The Butler Book is a living system. Chapter 5 procedures should be reviewed and updated whenever: a room is renovated, furniture is changed, technology is upgraded, a vendor is replaced, or the principals' preferences evolve. Every change updates the relevant section in Chapters 2–4 (property details) and Chapter 5 (procedures).

Review Type	Frequency	Scope	Owner
Daily log	Daily	Task completion, incidents, preference notes, issues	Butler
Weekly inventory	Weekly	Supply levels across all active residences	Butler / HK

Review Type	Frequency	Scope	Owner
Monthly review	Monthly	All SOPs accurate? Contacts current? Vendor performance?	Butler
Quarterly audit	Quarterly	Technology systems. Furnishings condition. Budget variance. Staff performance.	Butler + Principals
Annual deep review	Annually	Complete audit of Parts 2A and 2B. Insurance inventory photos. All contacts verified.	Butler + Principals

12. Summary

Chapter 5 establishes the complete operational framework for running the Leigh household across three residences. Every SOP references the specific rooms, materials, furnishings, and technology documented in Chapters 2–4, creating an integrated system where the property intelligence and the operational procedures work together. Key operational highlights: **Executive Residence:** Precision hospitality. Every meeting is a performance. Calacatta marble, Christofle silver, Crestron AV - all maintained to exacting standards. Building security coordination is a daily discipline. **Private Residence:** The home. Mrs. Leigh's domain. The vintage Persian rug, the La Cornue range, the brownstone character - all require care that honours both their value and their meaning. Winston's routines are woven into every daily SOP. **Toronto Residence:** Remote management mastery. The butler coordinates across time zones, cleaning services, and building concierges to deliver arrival-ready consistency every time. The dual-use living/meeting conversion is the signature operational challenge. **Cross-residence transitions:** The NYC–Toronto corridor is the most complex operation in the household. Passports, Canadian SIMs, Grocery Gateway orders, and Porter Airlines flights are all managed through documented, repeatable workflows. Together with the residence chapters, this document ensures that any trained professional can operate the Leigh household's three residences with confidence, consistency, and the level of care that a ~$120M family deserves.

Supplementary Section A: Stain Removal Guide

Every surface in the Leigh household has specific stain protocols. The wrong treatment on the wrong material can cause permanent damage worth thousands of dollars. When in doubt: blot (never rub), and call the appropriate professional.

A.1 Fabric and Clothing Stains

Stain Type	Immediate Action	Treatment	Products	Never Do
Red wine	Blot immediately with white cloth. Sprinkle salt to absorb.	After absorbing: cold water rinse. Apply Wine Away stain remover. Launder cold.	Wine Away Red Wine Stain Remover; salt	Hot water (sets the stain). Rubbing (spreads it). Bleach on colours.

Stain Type	Immediate Action	Treatment	Products	Never Do
Coffee / tea	Blot with cold water immediately.	Soak in cold water + white vinegar (1:1) for 15 min. Launder.	White vinegar; OxiClean Versatile	Hot water first. Rubbing dry fabric.
Grease / oil	Blot excess. Apply cornstarch to absorb (leave 15 min).	Brush off cornstarch. Apply dish soap (Dawn) directly. Let sit 10 min. Launder warm.	Cornstarch; Dawn dish soap	Water first (spreads grease). Dryer before treating (heat sets grease permanently).
Blood	Cold water immediately. Soak in cold salt water.	Hydrogen peroxide (3%) on white fabrics. OxiClean soak for colours. Launder cold.	Hydrogen peroxide; OxiClean	HOT WATER (cooks protein into fabric permanently). Bleach on colours.
Ink (ballpoint)	Place fabric stain-down on paper towel. Apply rubbing alcohol behind stain.	Alcohol pushes ink through fabric onto towel. Repeat with fresh towel. Launder.	Isopropyl rubbing alcohol (90%)	Rubbing (smears ink). Water first.
On silk or cashmere	must not TREAT AT HOME.	Take immediately to Marcel's Fine Garment Care, (212) 555-1480. Explain stain type and timing.	Professional dry cleaner only	Any DIY treatment on silk, cashmere, or delicate fabrics. Risk of irreversible damage.

A.2 Hard Surface Stains

Surface	Stain Type	Treatment	Products	Critical Warning
Calacatta marble (ER foyer, PR kitchen)	Acid etch (lemon, wine, tomato, vinegar)	Etching is physical damage, not a stain. Minor: polish with marble polishing powder. Severe: call professional stone restorer.	MB Stone Care Marble Polishing Powder	Marble etches INSTANTLY on contact with acid. Prevention is the only reliable strategy.
Calacatta marble	Oil / grease	Create a poultice: mix baking soda + water to paste. Apply over stain, cover with plastic wrap, tape edges. Leave 24–48 hours. Remove, rinse, dry.	Baking soda; plastic wrap	Do not use harsh degreasers. Do not scrub with abrasives.
White oak hardwood (ER)	Water ring / mark	Rub gently with fine steel wool (#0000) along grain. Apply wood floor restorer.	#0000 steel wool; Bona hardwood restorer	Across the grain (scratches visibly). Excessive water (warps wood).

Surface	Stain Type	Treatment	Products	Critical Warning
Persian rug (PR)	ANY STAIN	must not ATTEMPT DIY. Blot excess only. Call professional rug cleaner immediately. This rug is valued at $18,000–$25,000 and is irreplaceable.	Professional only	ANY chemical treatment, scrubbing, water flooding, or home remedies.
Caesarstone quartz (TR)	Most stains	Warm water + mild soap. For stubborn: Soft Scrub liquid (non-abrasive). Rinse thoroughly.	Mild dish soap; Soft Scrub liquid (if needed)	Abrasive pads (scratches surface permanently).
Window glass	Water spots / film	White vinegar + water (1:1) in spray bottle. Wipe with lint-free cloth or newspaper.	White vinegar; lint-free cloth	Paper towels (leave lint). Abrasive cleaners (scratch glass).
Upholstery (De Padova linen)	Liquid spill	Blot immediately with white cloth. Sprinkle baking soda. Vacuum after 15 min. If persistent: professional upholstery cleaner.	White cloth; baking soda	Coloured cloths (dye transfer). Rubbing. Water saturation.
Leather (Cassina, West Elm)	Water	Let air dry naturally. Condition with Lexol after fully dry.	Lexol leather conditioner	Hair dryer or heat (cracks leather). Rubbing while wet.

Supplementary Section B: Cleaning Supply Maintenance

Cleaning tools are an investment. Properly maintained supplies last longer and clean more effectively. Improperly maintained tools can damage surfaces.

Supply	Care Instruction	Frequency	Common Mistake
Microfibre cloths (E-Cloth)	Wash in warm water (not hot) with mild detergent. NO fabric softener. Air dry or tumble on LOW heat only. Never use high heat - it melts the fibres and destroys cleaning effectiveness.	After every 3–4 uses	High heat dryer: permanently ruins microfibre. Fabric softener: coats fibres, prevents dust pickup.
Vacuum (Dyson)	Empty canister after each use. Wash filter monthly (cold water, air dry 24 hours). Check brush bar for hair/debris weekly.	Weekly detail; monthly filter	Running with clogged filter: overheats motor. Wet filter reinstalled: damages motor.

Supply	Care Instruction	Frequency	Common Mistake
Mop heads	Wash after every use (machine, warm, no softener). Replace every 2–3 months or when fraying.	After each use	Storing damp: breeds bacteria and mildew. Using on wrong surface (see material guide).
Spray bottles	Rinse and refill fresh solution weekly. Label every bottle clearly (product name + dilution ratio).	Weekly	Mixing chemicals in same bottle: dangerous (never mix bleach + ammonia). Unlabelled bottles: hazardous.
Sponges	Replace kitchen sponges weekly. Disinfect daily (microwave damp sponge 1 minute or soak in diluted bleach 5 min).	Daily disinfect; weekly replace	Using same sponge on counters and dishes: cross-contamination. Old sponges: harbour bacteria.
Brass polish (Brasso)	Store sealed, upright. Use soft cloth only. Wash hands after use. Keep away from marble and wood surfaces.	As needed	Brasso on marble: permanent chemical damage. On wood: stains finish.
Leather conditioner (Lexol)	Store at room temperature. Shake before use. Apply with clean soft cloth, not directly onto furniture.	As needed	Over-conditioning: makes leather sticky. Conditioner on fabric: permanent grease stain.

Supplementary Section C: Iron and Steaming Guide

C.1 Equipment

Equipment	Model	Location	Maintenance
Steam iron	Rowenta DW5280 Focus	PR laundry room (basement)	Empty water after each use. Clean soleplate monthly with damp cloth. Descale every 2 months (white vinegar + water cycle).
Garment steamer	Jiffy?	PR laundry room	Refill with distilled water only. Drain after each use. Descale monthly. Replace hose if stiffening.
Ironing board	Brabantia, full-size	PR laundry room	Replace cover every 6–12 months or when scorched. Stable; check leg locks monthly.
Travel steamer	Steamfast SF-717 (compact)	Travel emergency kit	For Toronto trips and travel. Distilled water only. Drain between trips.

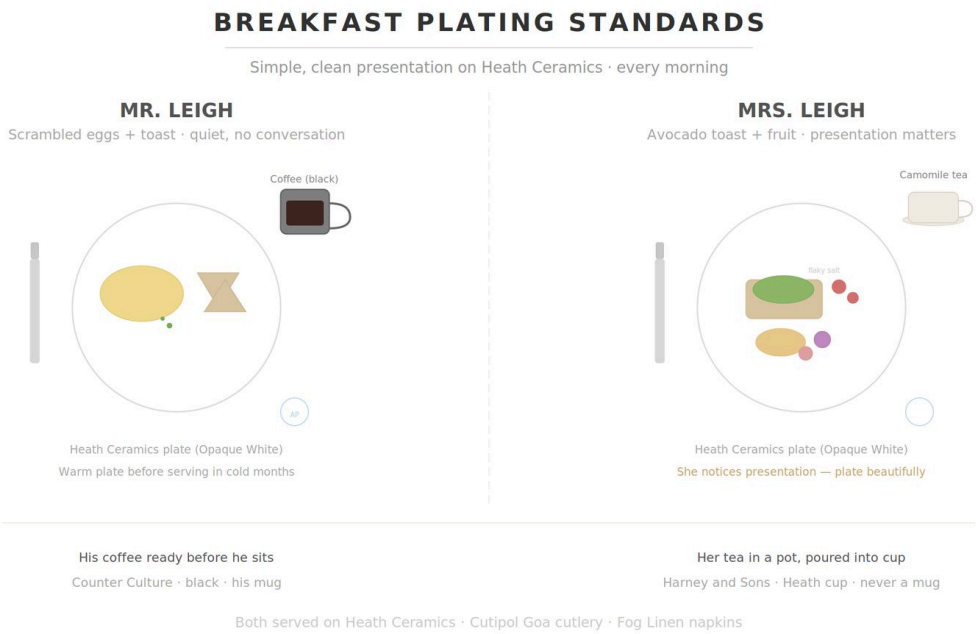

C.2 Ironing by Fabric

Fabric	Temperature	Steam	Method	Notes
Cotton (dress shirts)	High (400°F)	High steam	Iron damp. Start with collar (inside, then outside), then cuffs, then body. Use spray bottle if dry.	Mr. Leigh's white shirts: crisp finish required. Hang immediately on walnut hanger.
Linen (Fog Linen napkins)	High (400°F)	High steam	Iron damp for best results. Some wrinkling is acceptable and expected for linen.	Mrs. Leigh appreciates the natural linen texture. Perfectly flat is not the goal.
Silk	Low (275°F)	No steam (or very light)	Iron inside-out on low. Use press cloth (thin cotton between iron and silk). Quick passes.	Never rest hot iron on silk. Water spots are permanent on silk.
Wool (suits)	Medium (300°F)	Steam only preferred	Use garment steamer. If ironing: always use press cloth. Iron inside-out. Never press creases flat.	Marcel's handles suit pressing. Butler steams for light wrinkle removal between dry cleaning visits.
Cashmere	must not IRON	Steam gently from 6" distance	Steamer only. Hold 6 inches away. Never touch fabric with steamer head. Lay flat to dry after steaming.	Cashmere is delicate. Marcel's for any serious wrinkles.
Mattola organic linen sheets	Medium-high (380°F)	High steam	Iron while damp for crispness. Press flat on bed after for smooth finish.	PR primary bed: iron sheets before making bed on change days (Monday + Thursday).

Supplementary Section D: Quick Meals When Chef Is Unavailable

On chef's days off or when the schedule doesn't align, the butler should be prepared to offer simple, quality meals that respect both principals' preferences. These are not gourmet - they are reliable, fast, and good enough to feel like home. **Rules:** No cilantro (Mrs. Leigh). Light dairy (Mr. Leigh). Presentation matters for Mrs. Leigh. Fresh ingredients from Citarella or pantry staples.

D.1 Quick Meals (under 30 minutes)

Meal	For	Ingredients	Method	Time
Greek salad with grilled chicken	Both	Chicken breast, romaine, cucumber, tomato, feta (light for Mr. L), Frantoia olive oil, lemon, oregano	Season chicken, grill 6 min/side on La Cornue grill plate. Chop veg. Dress with oil + lemon. Plate on Heath Ceramics.	20 min
Pasta aglio e olio	Both	Spaghetti, garlic (6 cloves), Frantoia olive oil, chilli flakes, parsley, parmesan	Boil pasta. Sauté sliced garlic in olive oil (low heat, golden not brown). Toss with pasta + chilli flakes + parsley. Light parmesan for Mr. L.	15 min
Avocado toast with poached egg	Mrs. Leigh primary	Sourdough bread, avocado, egg, lemon, salt, chilli flakes, microgreens	Toast bread. Mash avocado with lemon + salt. Poach egg 3 min. Assemble. Top with microgreens and chilli flakes.	10 min
Steak with simple salad	Mr. Leigh primary	NY strip (from Citarella), mixed greens, cherry tomatoes, Frantoia olive oil, balsamic	Season steak, rest 20 min at room temp. Sear on La Cornue 4 min/side (medium-rare). Rest 5 min. Slice. Simple dressed salad alongside.	25 min

Meal	For	Ingredients	Method	Time
Salmon with steamed vegetables	Both	Salmon fillet (from Citarella), broccoli, green beans, lemon, Frantoia olive oil, dill	Season salmon. Pan-sear skin-side down 4 min, flip 2 min. Steam veg 5 min. Plate with lemon and dill.	20 min
Grain bowl (Mediterranean)	Mrs. Leigh primary	Quinoa (pre-cooked), roasted veg (bell pepper, zucchini, eggplant), chickpeas, tahini, lemon	Warm quinoa. Roast veg 15 min at 425°F. Assemble bowl. Drizzle tahini + lemon dressing.	25 min

D.2 Guest Snacks (Always Stocked)

Item	Brand / Source	Where	For	Restock
Marcona almonds	Whole Foods / Citarella	ER pantry + PR pantry	Meeting guests, casual visitors	Monthly
Quality dark chocolate	Hu Kitchen (no refined sugar)	PR pantry	Mrs. Leigh afternoon; guest offering	Monthly
Crackers	Rustic Bakery (organic flatbread)	ER + PR pantries	Cheese board, guest snack	Monthly
Dried fruit and nut mix	Citarella house blend	PR pantry	Casual snacking, trail mix	Bi-weekly
Biscuits (meeting-grade)	Walkers Shortbread	ER pantry	Meeting tray kit; with coffee/tea	Monthly
Fresh fruit	Seasonal (Citarella)	PR kitchen counter	Always visible. Replace when any piece softens.	2x/week
Cheese selection	Murray's Cheese (West Village)	PR fridge; ER for events	Weekend board, guest hosting	Weekly as needed

Supplementary Section E: Restaurant Directory

Organised by residence proximity. Includes favourites and reliable backup options for takeout.

E.1 West Village / PR Area

Restaurant	Cuisine	Distance	Price	Phone	Notes
FAVORITES					

Restaurant	Cuisine	Distance	Price	Phone	Notes
Via Carota	Italian	3 min walk	$$$	(212) 255-1962	Mrs. Leigh's favourite. Seasonal Italian. Reservations essential. No-cilantro not an issue (Italian cuisine). Beautiful presentation.
The Spotted Pig	Gastropub	5 min walk	$$	(212) 620-0393	Mr. Leigh enjoys the burger. Casual. Good for low-key evenings.
Sushi Nakazawa	Japanese	4 min walk	$$$$	(212) 924-2212	Special occasions. Omakase. Reserve 2+ weeks ahead.
RELIABLE TAKEOUT (when quick delivery needed)					
Joe's Pizza	Pizza	2 min walk	$	(212) 366-1182	Fast, reliable, classic NYC pizza. Good for casual nights.
Westville	American / healthy	5 min walk	$$	(212) 741-7971	Market-driven menu, quick, good quality. Delivery available.
Thai Villa	Thai	6 min walk	$$	(212) 675-1988	Good pad thai, curries. Confirm: no cilantro on Mrs. Leigh's order.

E.2 Tribeca / ER Area

Restaurant	Cuisine	Distance	Price	Phone	Notes
Locanda Verde	Italian	3 min walk	$$$	(212) 925-3797	Polished Italian. Good for post-meeting dinners with clients.
Nobu	Japanese	5 min walk	$$$$	(212) 219-0500	High-end. Good for impressing international guests. Reserve 1+ week.
Shake Shack (Tribeca)	Burgers	4 min walk	$	No reservations	Quick, reliable. Mr. Leigh's guilty pleasure. Takeout only.

Restaurant	Cuisine	Distance	Price	Phone	Notes
Zucker's Bagels	Deli / bagels	3 min walk	$	(212) 608-5844	Morning meetings: bagel platter option if catering isn't arranged.

E.3 Yorkville / TR Area (Toronto)

Restaurant	Cuisine	Distance	Price	Phone	Notes
Alo	French	8 min drive	$$$$	(416) 360-8068	Toronto's best. Tasting menu. Reserve 2+ weeks. For special Toronto occasions.
Kasa Moto	Japanese	5 min walk	$$$	(416) 920-1600	Reliable, upscale. Good for business dinners in Yorkville.
Terroni	Italian	7 min walk	$$	(416) 925-4020	Solid Italian. No-cilantro friendly. Good takeout.
Fresh	Plant-forward	6 min walk	$$	(416) 599-4442	Mrs. Leigh would enjoy. Vegan/vegetarian. Good for healthy quick meal.

Coffee and tea nearby: NYC: Stumptown Coffee (West Village, 5 min). Blue Bottle (Tribeca, 4 min). Toronto: Pilot Coffee (Yorkville, 3 min). For household supply: Counter Culture delivered via Fresh Direct (NYC) or Grocery Gateway (Toronto).

Supplementary Section F: Expanded Emergency Protocols

F.1 Severe Weather

Event	NYC Procedure	Toronto Procedure
Hurricane / tropical storm	Monitor NYC Emergency Management (notify.nyc.gov). Secure windows (ER: automated blinds down. PR: close and lock all windows). Move outdoor furniture inside (PR garden). Stock 3 days water + non-perishable food. Charge all devices. Cash on hand ($500).	Not applicable (Toronto does not experience hurricanes).

Event	NYC Procedure	Toronto Procedure
Winter storm / blizzard	Monitor NWS alerts. PR: ensure snow shovel accessible (basement). Salt for stoop steps. Confirm heating operational. Stock 2–3 days provisions.	CRITICAL. Toronto blizzards can be severe. Confirm building generator status. Maintain 65°F minimum (pipe protection). Stock provisions. Car: winter tires installed (November). If principals are present: do not drive in blizzard conditions.
Flooding	PR BROWNSTONE: Most vulnerable. Basement can flood. Ensure sump pump operational (if installed). Move valuables above basement level. Sandbags available at NYC OEM distribution points.	Building manages flooding. Unit is mid-floor; minimal direct risk. Monitor concierge updates.
Extreme heat (>100°F)	Confirm all AC operational. Extra water stocked. Limit Winston's walks to early AM and late PM (hot pavement burns paws). Check on elderly guests if visiting.	Confirm AC operational. Same Winston precautions if he's travelling.
Power outage (extended)	ER: building generator covers elevators and common areas, NOT units. Use UPS (office, 15 min). PR: NO generator. Flashlights in entry closet + bedroom. Consider portable generator ($500–1,500) for fridge and charging.	Building has emergency generator for common areas and partial unit power. Confirm scope with concierge.

F.2 Broken / Damaged Item Report

BROKEN OR DAMAGED ITEM PROCEDURE	
▶ Discover damage	Note what, where, when, how (if known). Do not move or further handle the item.
	↓
▶ Photograph damage	Multiple angles. Include context (surrounding area). Timestamp via phone camera.
	↓
◆ High-value item (>$1,000)?	Check Furnishings Register (Chapters 2-4). Items like Persian rug, Savoir mattress, Christofle, art = high-value.
	↓
⚠ If HIGH-VALUE: notify principals immediately	S-O-R format. Include photos. Do not attempt repair. Recommend professional assessment.
	↓
▶ If standard item: assess repairability	Can it be repaired in-house? (e.g., tighten screw, glue a handle). Or does it need professional repair or replacement?
	↓

BROKEN OR DAMAGED ITEM PROCEDURE	
▶ Log in Incident Report	Complete report form (Chapter 7, Section 7 format). Include photos, estimated value, recommended action.
	↓
▶ Coordinate repair or replacement	Within butler authority: arrange repair/replacement per Spending Authority Matrix. Above authority: present to principals.
	↓
✓ Update Furnishings Register and insurance log	If item is on the register, update condition notes. If insurance claim needed, contact PwC accountant.

F.3 Full Utility Outage Procedures

Utility	Immediate Action	Contact	Resolution Timeline	Compensation
Electricity (total outage)	Check breaker panel first. If building-wide: contact building management. Deploy flashlights. Protect perishables (fridge stays cold 4 hrs if closed).	Con Edison: 1-800-752-6633 (NYC). Toronto Hydro: 416-542-8000.	Building: usually 1–4 hours. Street: could be 4–24 hours. Extended: consider hotel.	Con Ed may credit account for outages >12 hours. Document duration.
Water (no water)	Check unit shutoff (ensure it's open). If building-wide: contact management. Stock bottled water (Acqua Panna).	NYC DEP: 311. Building management.	Building maintenance: 1–4 hours. Street main break: 4–12 hours.	Building may reduce HOA for extended outage. Document.
Gas (no gas, no smell)	Check other gas appliances. If all off: contact Con Edison. If just range: check pilot or ignition.	Con Edison: 1-800-752-6633.	Service restoration: 1–4 hours typically.	Credit for extended outage. Document.
Gas (smell detected)	EVACUATE IMMEDIATELY. Do not flip light switches. Do not use phone inside. Call 911 from outside, then Con Edison.	911 first. Then Con Edison: 1-800-752-6633. Enbridge (Toronto): 1-866-763-5427.	Emergency response: 30–60 min. Repair: depends on severity.	N/A. Safety priority.
Internet (outage)	Restart router (Eero). Check ISP outage map. Enable mobile hotspot.	Verizon: 1-800-837-4966. Bell: 1-866-310-2355. ClearPath: (212) 555-0425.	Router restart: 5 min. ISP outage: 1–24 hours.	ISP credits for outages >24 hours. Document.

Supplementary Section G: Yard and Exterior Maintenance

Applies to PR (West Village) garden only. ER and TR are condos with no exterior maintenance responsibility.

G.1 Seasonal Yard Work Calendar

Month	Task	DIY or Contractor	Est. Cost	Notes
March	Spring cleanup: remove winter debris, burlap wraps from jasmine, inspect patio for frost damage.	Green Thumb NYC ($200/visit)	$200	First visit of season. Assess winter damage.
April	Prune hydrangeas (dead wood only). Plant seasonal herbs (basil, rosemary, thyme, mint - NO CILANTRO). Refresh mulch in beds.	Green Thumb + butler (herb pots)	$200 + $30 herbs	Mrs. Leigh may want to plant herbs herself.
May–Sep	Bi-weekly maintenance: weed, water, deadhead, shape boxwood (June + September), train jasmine on trellis.	Green Thumb bi-weekly	$200/visit x10 = $2,000	Water pots daily in hot spells (butler or housekeeper).
October	Final cleanup. Cut back perennials. Divide hostas if needed. Store Fermob furniture in basement. Wrap jasmine in burlap before first frost.	Green Thumb final visit + butler (furniture)	$200 + $0	Furniture storage: basement. Cover with moving blankets.
November–Feb	No active gardening. Check patio drainage after storms. Clear snow from stoop and front areaway (NYC sidewalk law: clear within 4 hours of snowfall).	Butler / housekeeper (snow). No contractor.	$0 (shovel + salt on hand)	Salt sparingly on bluestone patio - damages stone. Use sand alternative if available.
		Annual garden budget	~$2,830	Includes 12 Green Thumb visits + herbs

G.2 Bluestone Patio Maintenance

Task	Frequency	Method	Cost
Sweep debris	Bi-weekly (butler/HK)	Standard broom. Remove leaves, petals, soil.	$0
Pressure wash	Annually (spring)	Professional pressure wash. Low PSI to avoid mortar damage.	$150–$250
Repoint mortar joints	As needed (inspect annually)	Mason fills cracked joints with matching mortar.	$300–$600 depending on extent
De-icing (winter)	As needed after frost/snow	Sand preferred over salt (salt damages bluestone). Apply sparingly.	$15/bag (sand)

Chapter 6: Household Management & Operational Systems

Key abbreviations: ER = Executive Residence | PR = Private Residence | TR = Toronto Residence | SOP = Standard Operating Procedure | PA = Personal Assistant | NDA = Non-Disclosure Agreement | ISP = Internet Service Provider | CAD = Canadian Dollars. Full glossary in Table of Contents.

1. Scope & Purpose

This chapter addresses the management systems that support the Leigh household beyond physical residence operations (Chapters 2-5). Where Chapter 1 documented who the principals are and Chapters 2-4 documented how the residences function, Chapter 6 establishes how the household is managed as an organisation: its finances, vendors, staff, technology, formal service standards, and administrative systems. **Family net worth context:** The Leigh family's estimated net worth is about $120 million (USD), generated primarily through AI infrastructure investments. This places them in the ultra-high-net-worth category with a well-staffed household, multiple residences, and professional-grade service expectations. The annual household operating budget of about $320,000 represents roughly 0.43% of net worth - a conservative, disciplined ratio consistent with newly acquired wealth that prioritises long-term preservation over lifestyle inflation. **Guiding principle:** The household should function smoothly whether the butler is present or absent. Systems, not individuals, guarantee consistency.

1.1 Chapter 6 Document Map

Section	Coverage	Key Visual Elements
2. Financial Administration	Budgets (USD/CAD), expense tracking, petty cash, reporting	Annual budget, monthly breakdowns, variance analysis, sample reports
3. Vendor Management	Selection, scoring, contracts, confidentiality	Vendor scorecard, selection flowchart, risk matrix
4. Human Resources	Recruitment, onboarding, performance, scheduling	Org chart, onboarding flowchart, performance matrix
5. Technology & Digital	Networks, devices, security, troubleshooting	Network diagram, device inventory, troubleshooting matrix
6. Formal Service	Greeting, beverage, table, telephone protocols	Guest arrival flowchart, table setting diagrams, service sequence

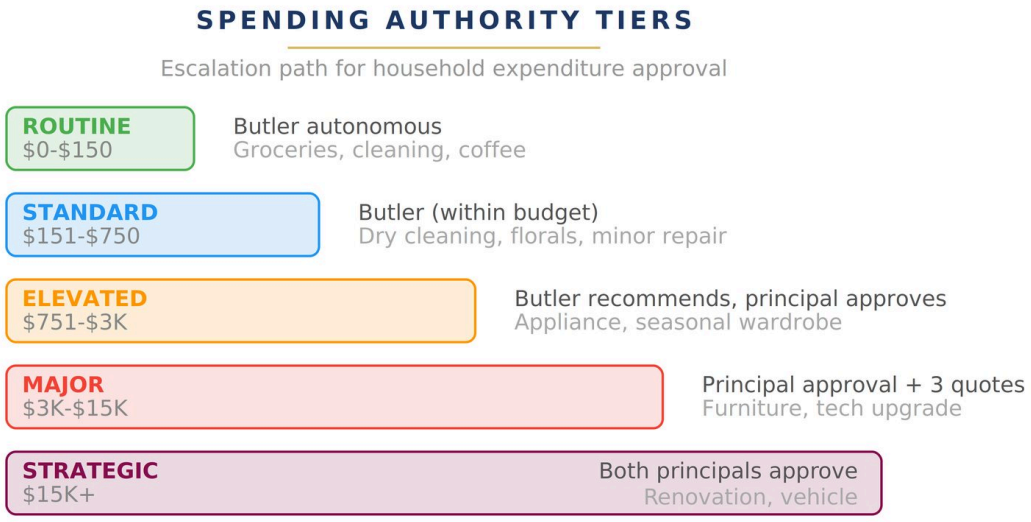

Section	Coverage	Key Visual Elements
7–18	Wine, floral, laundry, purchasing, transport, pets, philanthropy, calendar, risk, training, templates	Process flows, comparison matrices, checklists, worked examples

2. Household Financial Administration

2.1 Financial Management Philosophy

The Leigh household operates with financial discipline proportionate to a ~$120M net worth. The principals are first-generation wealthy and treat money with the respect of people who built it themselves. Spending should be thoughtful, quality-focused, and documented. The principals do not require extravagance but expect value, transparency, and accountability. The butler manages day-to-day finances: petty cash, invoices, recurring expenses, and monthly summaries. Large or unusual expenditures require principal approval. All amounts for the New York residences are in US dollars (USD). Toronto residence expenses are tracked in Canadian dollars (CAD) with USD equivalents noted for consolidated reporting.

2.2 Spending Authority Matrix

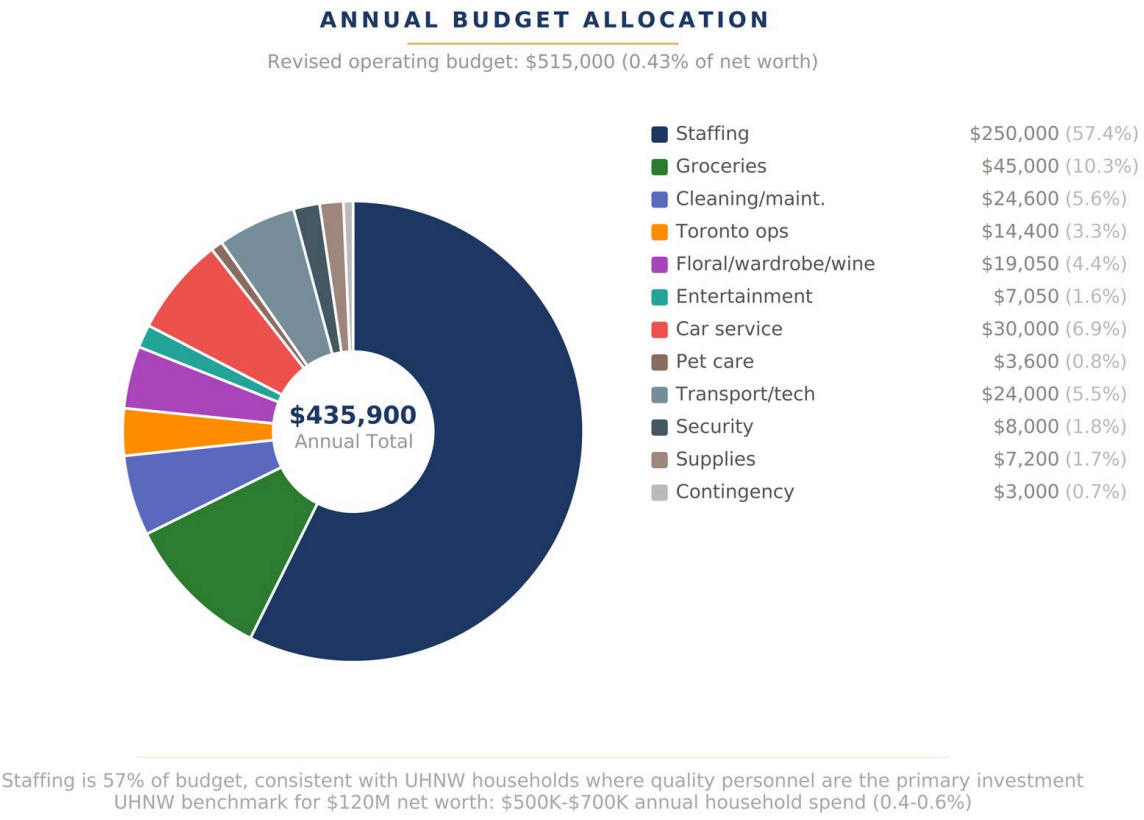

Expenditure Level	Amount Range	Approval Required	Documentation	Example
Routine	$0 – $150	Butler (autonomous)	Receipt logged same day	Groceries, cleaning supplies, coffee
Standard	$151 – $750	Butler (within budget)	Receipt + expense log entry	Dry cleaning batch, floral order, minor repair
Elevated	$751 – $3,000	Butler recommends; Principal approves	Written request + 2 quotes preferred	Appliance replacement, seasonal wardrobe purchase

Expenditure Level	Amount Range	Approval Required	Documentation	Example
Major	$3,001 – $15,000	Principal approval required	Formal proposal + 3 quotes required	Furniture, technology upgrade, major repair
Strategic	$15,000+	Both principals review	Business case + 3 quotes + timeline	Renovation, vehicle, major event

2.3 Annual Household Budget (USD)

Fiscal Year: January – December | All figures USD unless noted

Budget Category	Q1 (Jan–Mar)	Q2 (Apr–Jun)	Q3 (Jul–Sep)	Q4 (Oct–Dec)	Annual Total	% of Total
STAFFING & PERSONNEL						
Butler / Household Manager	$22,500	$22,500	$22,500	$22,500	$130,000	28.1%
Housekeeper	$13,500	$13,500	$13,500	$13,500	$58,000	16.9%
Chef (4 days/week / on-call)	$7,500	$7,500	$7,500	$7,500	$30,000	9.4%
Staff benefits & insurance	$3,000	$3,000	$3,000	$3,000	$12,000	3.8%

Budget Category	Q1 (Jan–Mar)	Q2 (Apr–Jun)	Q3 (Jul–Sep)	Q4 (Oct–Dec)	Annual Total	% of Total
Staff training & development	$750	$750	$750	$750	$3,000	0.9%
Staffing Subtotal	$62,500	$62,500	$62,500	$62,500	$250,000	52.3%
RESIDENCE OPERATIONS (NYC – USD)						
Groceries & provisions	$7,500	$7,500	$7,500	$8,500	$31,000	9.7%
Household supplies	$1,800	$1,800	$1,800	$1,800	$7,200	2.3%
Cleaning services (external)	$2,700	$2,700	$2,700	$2,700	$10,800	3.4%
Maintenance & repairs	$1,800	$1,500	$1,500	$1,800	$6,600	2.1%
HVAC & utilities supplement	$1,200	$900	$900	$1,200	$4,200	1.3%
NYC Operations Subtotal	$15,000	$14,400	$14,400	$16,000	$59,800	18.7%
TORONTO OPERATIONS (CAD, shown as USD equiv.)						
Toronto residence operations	$3,600	$3,600	$3,600	$3,600	$14,400	4.5%
Toronto Subtotal	$3,600	$3,600	$3,600	$3,600	$14,400	4.5%
SERVICE & LIFESTYLE						
Floral & seasonal décor	$900	$1,200	$900	$1,800	$4,800	1.5%
Wardrobe & dry cleaning	$2,700	$2,250	$2,250	$3,000	$10,200	3.2%
Wine & beverages	$900	$900	$900	$1,350	$4,050	1.3%
Entertainment & dining	$1,500	$1,500	$1,800	$2,250	$7,050	2.2%
Service Subtotal	$6,000	$5,850	$5,850	$8,400	$26,100	8.2%
PET, TRANSPORT & TECHNOLOGY						
Pet care (Winston)	$900	$900	$900	$900	$3,600	1.1%
Transport & car service	$5,400	$5,400	$5,400	$5,400	$21,600	6.8%
Technology & subscriptions	$600	$600	$600	$600	$2,400	0.8%
Emergency / contingency reserve	$750	$750	$750	$750	$3,000	0.9%
Pet/Transport/Tech Subtotal	$7,650	$7,650	$7,650	$7,650	$30,600	9.6%

Budget Category	Q1 (Jan–Mar)	Q2 (Apr–Jun)	Q3 (Jul–Sep)	Q4 (Oct–Dec)	Annual Total	% of Total
GRAND TOTAL	$79,500	$78,750	$78,750	$82,900	$405,000	100%

Budget notes: Q4 is higher due to holiday spending. Staffing represents 52% of total household spend. All figures exclude principal personal expenditures, investment costs, and property mortgage or rent. At ~$405K annually, household operations represent 0.43% of family net worth - a disciplined ratio for this wealth level.

2.4 Monthly Budget Detail - Sample Month (March)

Category	Line Item	Budgeted	Actual	Variance	Status
GROCERIES & PROVISIONS					
Groceries	Fresh produce (weekly x4)	$720	$695	+$25	Under budget
Groceries	Proteins (fish, poultry, meat)	$540	$570	-$30	Slight over
Groceries	Dairy & alternatives	$180	$165	+$15	Under budget
Groceries	Pantry staples & dry goods	$300	$290	+$10	On target
Beverages	Coffee beans & tea	$120	$125	-$5	On target
Beverages	Water (still & sparkling)	$90	$85	+$5	On target
Beverages	Wine & spirits	$300	$360	-$60	Over (guest dinner)
Hospitality	Snacks & guest provisions	$150	$105	+$45	Under budget
	Groceries Total	$2,400	$2,395	+$5	On target
SERVICES & VENDORS					
Cleaning service	Bi-weekly deep clean (x2)	$600	$600	$0	On target
Dry cleaning	Weekly collection & delivery	$450	$410	+$40	Under budget
Floral	Weekly arrange-ments (x4)	$300	$330	-$30	Slight over
IT support	Monthly check + ad hoc	$225	$225	$0	On target
Pet grooming	Winston grooming session	$120	$120	$0	On target
	Services Total	$1,695	$1,685	+$10	On target

2.5 Monthly Financial Summary - Example

LEIGH HOUSEHOLD - Monthly Financial Summary	
Reporting Period	March 2026
Prepared By	Butler
EXPENDITURE SUMMARY	
Total Budgeted (March)	$26,500
Total Actual (March)	$26,320
Variance	+$180 (0.7% under budget)
YEAR-TO-DATE (Q1)	
YTD Budgeted	$79,500
YTD Actual	$78,810
YTD Variance	+$690 (0.9% under budget)
NOTABLE ITEMS	
Wine & spirits	Over budget by $60 due to unplanned investor dinner on 15 March
General supplies	Over budget by $35 due to bulk light bulb replacement across ER and PR
PETTY CASH (USD)	
Opening balance	$750.00
Total disbursed	$521.25
Closing balance	$228.75
Replenishment needed	$521.25 to restore to $750
RECOMMENDATIONS	
Budget adjustment	No changes recommended for Q2. Tracking accurately.
Vendor review	Floral vendor consistently over quoted price. Recommend discussion or alternative quote.

2.6 Petty Cash Register - Sample Week (USD)

Date	Ref	Description	Out	In	Balance	Receipt	Approved
03/01	-	Opening balance (replenished)	-	$750.00	$750.00	-	Butler
03/02	PC-001	Emergency key duplication (ER)	$27.50	-	$722.50	Y	Butler

Date	Ref	Description	Out	In	Balance	Receipt	Approved
03/03	PC-002	Taxi for urgent dry cleaning pickup	$33.00	-	$689.50	Y	Butler
03/04	PC-003	Bakery - pastries for meeting	$51.00	-	$638.50	Y	Butler
03/05	PC-004	Batteries (AA, AAA) for remotes	$19.20	-	$619.30	Y	Butler
03/06	PC-005	Parking - vendor coordination	$12.00	-	$607.30	Y	Butler
03/07	PC-006	Bottled water (emergency restock)	$23.40	-	$583.90	Y	Butler
		Week 1 Total	$166.10	-	$583.90	7/7	

2.7 Invoice Processing Flowchart

INVOICE PROCESSING WORKFLOW	
▶ Receive invoice	From vendor, service provider, or delivery
	↓
▶ Verify goods/services received	Confirm delivery matches order and agreed terms
	↓
▶ Log in Invoice Register	Date, vendor, amount, category, due date
	↓
◆ Within butler authority?	Check Spending Authority Matrix (Section 2.2)
	↓
▶ If YES: Approve + schedule payment	Process via approved payment method
	↓
⚠ If NO: Present to principals	Include context, recommendation, and urgency
	↓
▶ File invoice (digital + physical)	Category folder; retain for monthly summary
	↓
✓ Update register with payment date	Confirm payment; close entry

2.8 Budget Allocation by Residence

Category	Executive Res. (NYC)	Private Res. (NYC)	Toronto Res. (CAD → USD)	Cross-Residence	Total
Groceries & provisions	$10,800	$15,200	$5,000	-	$31,000
Household supplies	$2,100	$3,300	$1,800	-	$7,200
Cleaning services	$3,600	$4,500	$2,700	-	$10,800
Maintenance & repairs	$2,250	$2,700	$1,650	-	$6,600
Wardrobe & dry cleaning	-	-	-	$10,200	$10,200
Transport	-	-	-	$21,600	$21,600
% of Operating Budget	26%	35%	17%	22%	100%

The Private Residence consumes the largest share (35%) as the primary living space. Toronto is the most efficient (17%) as it is used intermittently.

3. Vendor Management System

3.1 Vendor Selection Flowchart

VENDOR SELECTION PROCESS	
▶ Identify need	Define scope, frequency, budget range
	↓
▶ Research candidates (min. 3)	Referrals, online review, industry contacts
	↓
▶ Request quotes/proposals	Compare price, quality, reliability, discretion
	↓
▶ Check references + insurance	Verify background for household-access vendors
	↓
◆ Trial engagement possible?	One-time service before committing
	↓
▶ Conduct trial; score performance	Use Vendor Performance Scorecard (Section 3.3)
	↓
◆ Score 3.5+ average?	Below 3.5: reject. Above 3.5: recommend.

VENDOR SELECTION PROCESS	
	↓
▶ Present recommendation to principals	For significant or recurring contracts
	↓
✓ Onboard + add to Vendor Master List	Access instructions, NDA, communication protocols

3.2 Vendor Risk Matrix

Category	Examples	Frequency	Access Level	Confidentiality Risk	Criticality
Building services	Management, concierge, security	Ongoing	Common areas	Medium	HIGH
Cleaning	Professional service	Weekly	Full residence	HIGH	HIGH
IT & technology	Network, AV, smart home	Monthly	Full + digital	VERY HIGH	HIGH
HVAC	Heating, cooling	Seasonal	Utility areas	Low	Medium
Plumbing	Plumber	As needed	Specific rooms	Low	Medium
Floral	Florist	Weekly	Delivery only	Low	LOW
Dry cleaning	Garment care	Weekly	Pickup only	Medium	Medium
Pet services	Vet, grooming	Scheduled	Variable	Low	Medium
Security specialist	Alarms, CCTV, cyber	Annual	Full + digital	VERY HIGH	HIGH

3.3 Vendor Performance Scorecard - Example

Vendor: ProClean Residential Services | Category: Cleaning | Review: Q1 2026

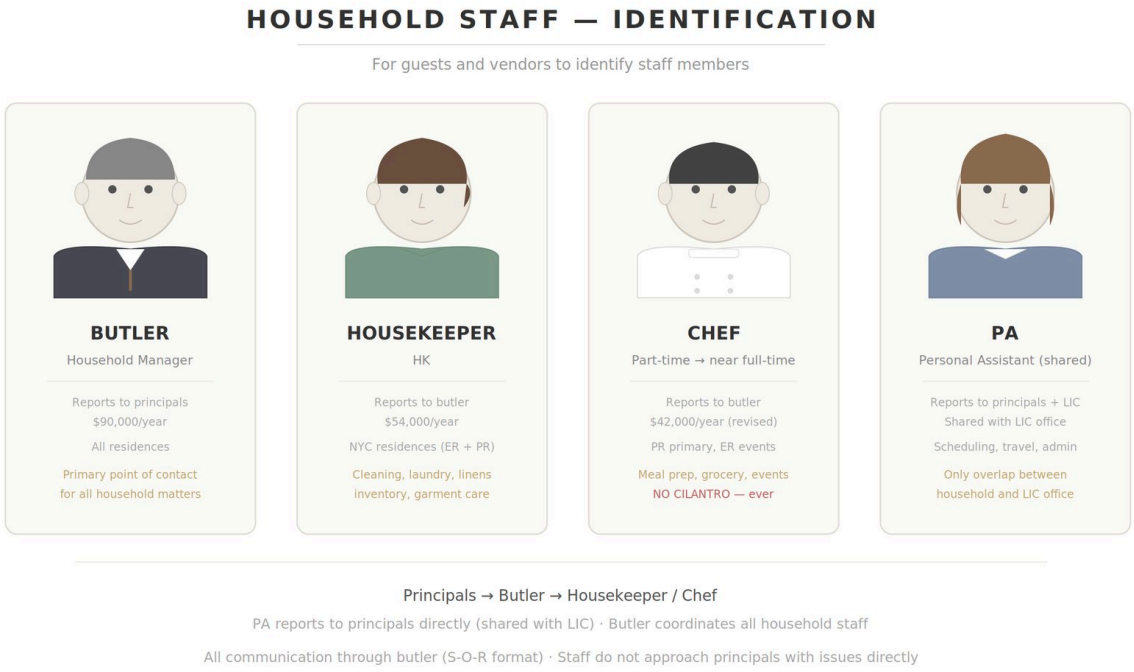

Criterion	Weight	Score (1–5)	Weighted	Evidence
Quality of work	25%	4	1.00	Consistent; minor dust miss 2/12, corrected
Reliability	20%	5	1.00	No missed appointments; always on time
Response time	15%	4	0.60	Same-day messages; 24hr emergency
Discretion	20%	5	1.00	Exemplary conduct
Communication	10%	4	0.40	Professional; occasionally slow on email
Value for cost	10%	3	0.30	Slightly above market; quality justifies

Criterion	Weight	Score (1–5)	Weighted	Evidence
OVERALL	100%	-	4.30 / 5.00	CONTINUE. Strong performer.

4. Human Resources & Staff Management

4.1 Organisation Chart

The following diagram shows household reporting structure. All boxes use readable contrast for clarity.

		MR. & MRS. LEIGH Principals • Final Authority	~$120M Net Worth		
		|	|		
		BUTLER Household Manager	Operations Lead		
	┌──	┼──	┼──	┐	
	HOUSEKEEPER Cleaning & Linen	CHEF Near Full-Time	PA Scheduling	VENDORS External	

4.2 Communication Flow

Direction	From	To	Channel	Content
↓ Downward	Principals	Butler	In-person / text	Decisions, preferences, schedule changes
↓ Downward	Butler	Staff	Briefing / written	Daily tasks, SOP reminders, feedback
↑ Upward	Staff	Butler	In-person / text	Task completion, issues, supply needs
↑ Upward	Butler	Principals	S-O-R format	Situation, Options, Recommendation
↔ Lateral	Staff	Staff	In-person	Coordination, handoff, coverage
↔ External	Butler	Vendors	Phone / email	Scheduling, instructions, review

4.3 Recruitment Flowchart

RECRUITMENT & ONBOARDING	
▶ Define role requirements	Job description, hours, compensation, start date
	↓
▶ Source candidates	Agencies, academy networks, referrals
	↓
▶ Screen applications	CV review, references, experience
	↓
◆ Interview round 1 (Butler)	Skills, professionalism, cultural fit
	↓
◆ Interview round 2 (Principals)	Final assessment; principals meet candidate
	↓
▶ Offer + contract + NDA	Employment terms, confidentiality agreement
	↓
▶ 30-day probation	Daily feedback; the household manual review; shadowing
	↓
◆ Probation review	Meet standards? Continue. Below? Extend or end.
	↓
✓ Full team member	Monthly performance reviews begin

4.4 Performance Scoring Matrix

Score	Rating	Description	Action
5	Outstanding	Consistently exceeds standards; anticipates needs	Recognise; consider additional responsibility
4	Proficient	Meets all standards reliably; occasionally exceeds	Maintain; encourage growth
3	Competent	Meets most standards; occasional gaps	Coach specific areas; set targets
2	Developing	Below standard in several areas	Improvement plan; daily check-ins; 30-day review
1	Unsatisfactory	Fails basic standards despite coaching	Formal warning; consider termination

4.5 Sample Staff Schedule (NYC, typical week)

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Butler	7am–8pm	7am–8pm	7am–8pm	7am–8pm	7am–8pm	9am–3pm	OFF
Housekeeper	7am–4pm	7am–4pm	7am–4pm	7am–4pm	7am–4pm	OFF	OFF
Chef	10am–2pm 5–8pm	10am–2pm 5–8pm	OFF	10am–2pm 5–8pm	10am–2pm 5–8pm	ON CALL	OFF
PA	9am–5pm	9am–5pm	9am–5pm	9am–5pm	9am–5pm	OFF	OFF

4.6 Multi-Residence Staffing Model A household with three residences across two countries cannot be staffed by four people in one location. The Leigh staffing model uses a hub-and-spoke approach: the core team is based in NYC (where both the Executive Residence and Private Residence are located, approximately 30 minutes apart), with contracted services in Toronto. **Core Staff (NYC-Based)**

Role	Salary	Primary Base	Secondary	Toronto
Butler / Household Manager	$130,000	PR (afternoons, evenings)	ER (mornings, meetings)	Travels with principals (4-6 trips/year)
Housekeeper	$58,000	PR (daily cleaning, laundry)	ER (post-meeting reset, deep clean 2x/week)	N/A (does not travel)
Chef	$62,000 (4 days/week)	PR kitchen (La Cornue)	ER (catering prep for events)	N/A
PA	Shared with LIC	LIC office / remote	ER (meeting coordination)	Remote support

Contracted Services (Toronto)

Service	Provider	Frequency	Cost (CAD)	Notes
Cleaning service	Maple Leaf Home Care	Bi-weekly when unoccupied; daily during visits	~$3,600/year	Primary on-ground partner. Butler coordinates via phone.
Concierge relationship	Sarah Chen / Michael Okafor (building)	Ongoing	Holiday tip	Receives packages, manages access, alerts butler to issues.
Grocery delivery	Instacart / local delivery	Pre-arrival + during visits	~$800/year	Butler places order 48 hours before arrival.
Seasonal maintenance	Building-managed + contracted	As scheduled	~$1,200/year	HVAC filter changes, winter preparation, window cleaning.

How It Works Day-to-Day NYC (typical week): The butler arrives at ER by 6:00 AM for the daily opening (SOP-ER-01). After Mr. Leigh's morning meetings, the butler crosses to PR by early afternoon. The housekeeper works PR from 7:00 AM to 4:00 PM daily, with two mornings per week at ER for deep cleaning. The chef arrives at PR at 10:00 AM on working days. The butler handles evening service at PR and closes the residence. Toronto trips (4-6 per year, typically 3-5 nights): The butler travels with the principals. Maple Leaf Home Care performs a full pre-arrival clean 24 hours before. The butler does a walk-through on arrival (SOP-TR-01). During the stay, the cleaning service comes daily. The butler handles all service, meal coordination (restaurant reservations or catering), and transport. Back in NYC, the housekeeper maintains both residences on a reduced schedule. While principals are in Toronto: The housekeeper runs PR and ER on maintenance mode: mail collection, plant watering, temperature checks, security walk-throughs. No deep cleaning is needed during short absences. The chef is off duty unless the trip is mid-week. **Why Not a Toronto Housekeeper?** At 4-6 visits per year (roughly 20-30 total nights), a permanent Toronto housekeeper is not cost-justified. The cleaning service at ~$3,600/year delivers the same result as a part-time employee at ~$18,000-25,000/year. If the principals begin spending more than 60 nights per year in Toronto, a part-time housekeeper should be added to the budget. This threshold should be reviewed annually. Note: If the household scales to include children or additional residences, the staffing model will need to expand. The butler should present a staffing review to the principals annually as part of the Chapter 6 budget process.

5. Technology & Digital Systems Management

5.1 Network Architecture Diagram

Network Layer	Components	Access	Security Level
PRIMARY NETWORK	Computers, tablets, printers, NAS storage	Principals + Butler only	●●●●● HIGHEST
IoT / SMART HOME	Thermostats, lighting, locks, cameras	Butler-managed only	●●●● HIGH
GUEST NETWORK	Visitor devices during meetings/stays	Time-limited; unique password per event	●●● MODERATE
STAFF NETWORK	Staff devices (if approved)	With explicit permission only	●●● MODERATE

Rule: All networks are physically or logically segregated. A breach on the guest network cannot reach the primary network. The IoT network is isolated to prevent smart device vulnerabilities from compromising data.

5.2 Device Inventory & Maintenance Matrix

Device	Qty	Location(s)	Owner	Maintenance	Backup Plan
Wi-Fi router / mesh	3	Each residence	Butler	Firmware quarterly; restart monthly	Mobile hotspot
Smart TV / display	5	Meeting, living areas	Shared	Update monthly; clean weekly	Laptop + HDMI
Conferencing system	1	ER meeting lounge	Mr. Leigh	Test before every meeting	Laptop camera + mic
Smart thermostat	3	Each residence	Butler	Battery monthly; calibrate seasonally	Manual HVAC control
Smart lighting	3	Each residence	Butler / Mrs. Leigh	Battery quarterly; update scenes	Manual switches
Printer / scanner	1	ER office	Mr. Leigh / Butler	Toner weekly; clean monthly	Email to print service
Charging stations	6+	Office, bedroom, lounge	Shared	Check cables weekly	Spare cables in each room
Smart lock	3	Each residence	Butler	Battery bi-monthly; test monthly	Physical backup key
Security cameras	As installed	Entries, common areas	Butler	Clean lens monthly; review footage weekly	Contact security vendor

5.3 Technology Troubleshooting Matrix

Issue	Severity	First Response (0–5 min)	Second Response (5–30 min)	Escalation
Wi-Fi down (all)	CRITICAL	Restart router; check building	Enable mobile hotspot	IT vendor (same-day)
Smart lock failure	CRITICAL	Use physical backup key	Restart lock unit	Security vendor (immediate)
Conference display down	HIGH (if meeting)	Power cycle; check cables	Switch to laptop display	IT vendor (2–4 hours)
Internet slow	HIGH	Restart router; check devices	Disconnect unused devices	ISP (same-day)
Thermostat unresponsive	Medium	Check batteries; manual override	Restart device	HVAC vendor (next day)

Issue	Severity	First Response (0–5 min)	Second Response (5–30 min)	Escalation
Printer not printing	Medium	Check paper, toner, connection	Restart printer + computer	IT vendor (next day)
Smart lights flickering	LOW	Check bulb; restart switch	Replace bulb	Electrician (scheduled)

6. Formal Service Standards & Protocols

6.1 Guest Arrival Flowchart - Professional Meeting

GUEST ARRIVAL PROTOCOL - EXECUTIVE RESIDENCE	
▶ Pre-arrival preparation	Meeting room set; refreshments staged; tech tested; building security briefed
|	↓
▶ Guest arrives at building	Building security confirms identity; notifies butler
|	↓
▶ Butler greets at residence door	"Good [time], [title + surname]. Welcome. May I take your coat?"
|	↓
▶ Coat and belongings handled	Hang coat; offer to store bag; guide to reception area
|	↓
▶ Offer beverage	"May I offer you water, coffee, or tea?" Prepare and serve
|	↓
▶ Inform principal discreetly	"[Guest name] has arrived." Verbal or text, depending on context
|	↓
▶ Guide to meeting area	When principal is ready; ensure guest is comfortable
|	↓
▶ Withdraw	Available but invisible. Monitor for refill needs from service zone
|	↓
✓ Post-meeting: assist departure	Retrieve coat; escort to door; "Thank you for visiting. Good [time]."

6.2 Table Service Sequence Diagram

Step	Action	Direction	Timing	Key Detail
1	Seat guests	-	Before service	Pull chair; napkin placed on lap if formal
2	Pour water	From RIGHT	Immediately	Still and sparkling offered; fill 2/3
3	Serve first course	From LEFT	When all plates ready	Simultaneously if multiple staff; else host last
4	Pour wine (if paired)	From RIGHT	After course served	Label shown; tasting pour for host; clockwise
5	Clear first course	From RIGHT	When ALL finished	Never clear while someone is still eating
6	Crumb table	-	Between courses	Folded napkin or crumber; discreet
7	Serve main course	From LEFT	When all plates ready	Protein nearest guest; garnish at 12 o'clock
8	Refill wine	From RIGHT	When glass 1/3 full	Ask before pouring a different wine
9	Clear main course	From RIGHT	When ALL finished	Remove salt, pepper, bread if dessert follows
10	Serve dessert	From LEFT	With appropriate utensils	Place dessert spoon/fork before course
11	Coffee / tea service	From RIGHT	After dessert cleared	Offer options; serve with cup on saucer
12	After-dinner beverages	-	If group relocates	Serve in sitting area; whisky/port if requested

6.3 Table Setting Diagrams

Casual Setting (Daily, 2 persons)

Position	Item	Placement
Centre	Dinner plate	Centred, 1 inch from table edge
Left of plate	Fork	Tines up, aligned with plate edge
Right of plate	Knife	Blade facing plate
Above knife	Water glass	At 1 o'clock position
Left of forks	Napkin	Folded simply; or on plate

Position	Item	Placement
Optional	Placemat	Under plate; linen or quality cotton

Formal Setting (4–6 guests, special occasion)

Position	Item	Placement
Centre	Charger plate + dinner plate	Charger remains throughout; dinner plate on top
Left (outside in)	Salad fork, dinner fork	Used outside-in per course
Right (outside in)	Soup spoon, dinner knife, fish knife	Used outside-in per course
Above plate (horizontal)	Dessert spoon + fork	Spoon above, fork below; handles alternating
Upper left	Bread plate + butter knife	Knife across plate, blade inward
Upper right	Water glass, red wine, white wine	Triangle formation; water largest, at 1 o'clock
On plate or left	Napkin	Elegant fold; on charger or left of forks
Centre table	Low centrepiece	Approved by Mrs. Leigh; must not block sightlines

6.4 Beverage Service Comparison Matrix

Beverage	Glassware	Temperature	Serve From	Refill Trigger	Special Notes
Still water	Tumbler or stemless	Room temp or lightly chilled	Right	Below half	Always available in all spaces
Sparkling water	Tumbler or stemless	Chilled	Right	Below half	Offer alongside still
Black coffee	Cup + saucer	Hot (150–158°F)	Right	When requested	Mr. Leigh: specific mug in office
Herbal tea	Cup + saucer (ceramic)	Hot, not boiling	Right	When requested	Mrs. Leigh: loose-leaf preferred
White wine	White wine glass	Chilled (46–50°F)	Right	1/3 remaining	Label shown; tasting pour for host
Red wine	Red wine glass	Room temp (61–65°F)	Right	1/3 remaining	Decant if needed; breathe 15–30 min
Champagne	Flute or coupe	Well chilled (43–46°F)	Right	1/3 remaining	Pour slowly; angle glass

Beverage	Glassware	Temperature	Serve From	Refill Trigger	Special Notes
Whisky (Mr. Leigh)	Rocks glass or Glencairn	Room temp; no ice unless asked	Right	Never refill unprompted	Must never be suggested; serve only if requested. Reserve shelf: maintain 6–8 bottles of premium wine ($50–150 each) for investor dinners, stored in ER bar cabinet, replenished quarterly

7. Wine, Beverage & Cellar Management

7.1 Beverage Inventory Tracker

Item	Type	Brand/Region	Qty	Location	Min Stock	Reorder	Unit Cost	Status
WINE								
Sauvignon Blanc	White	Marlborough, NZ	6	PR wine fridge	3	When ≤3	$18	✓ In stock
Chardonnay	White	Burgundy, FR	4	PR wine fridge	2	When ≤2	$25	✓ In stock
Pinot Noir	Red	Oregon, US	4	ER wine rack	2	When ≤2	$28	✓ In stock
Cab. Sauvignon	Red	Napa Valley, US	3	ER wine rack	2	When ≤2	$35	⚠ Low
Champagne	Sparkling	Reims, FR	2	PR wine fridge	2	When ≤2	$50	✓ In stock
SPIRITS								
Single malt whisky	Spirit	Glenfiddich 15	1	ER bar cabinet	1	When empty	$65	✓ In stock
Gin	Spirit	Hendrick's	1	ER bar cabinet	1	When empty	$35	✓ In stock
NON-ALCOHOLIC								
Sparkling water	Water	San Pellegrino	24	All residences	12	Weekly	$1.50	✓ In stock
Still water	Water	Acqua Panna	24	All residences	12	Weekly	$1.00	✓ In stock
Tonic water	Mixer	Fever-Tree Premium	6	ER bar cabinet	4	When ≤4	$2.00	✓ In stock

7.2 Wine Pairing Quick Reference

Course Type	Wine Style	Specific Recommendation	Temperature	Notes
Light starter / salad	Crisp white	Sauvignon Blanc	46–50°F	Clean acidity; complements greens and citrus
Seafood / fish	Medium white	Chardonnay (unoaked preferred)	50–54°F	Pair with grilled or pan-seared fish
Poultry / pork	Light red or full white	Pinot Noir or oaked Chardonnay	57–61°F	Versatile; suits both principals' preferences
Red meat / steak	Full-bodied red	Cabernet Sauvignon	61–65°F	Mr. Leigh's occasional steak dinner
Vegetarian main	Medium white or rosé	Sauvignon Blanc or Provençal rosé	46–54°F	Mrs. Leigh's plant-forward preference
Dessert	Sweet / sparkling	Champagne or Moscato d'Asti	43–46°F	Light and celebratory; not heavy
Cheese course	Medium red	Pinot Noir	57–61°F	Complements soft and semi-hard cheeses

8. Floral, Seasonal & Aesthetic Management

8.1 Seasonal Transition Calendar

Season	Months	Colour Palette	Linens	Floral	Décor Actions	Special Notes
Spring	Mar–May	Soft greens, whites, light pastels	Light cotton; bright whites	Tulips, ranunculus, branches (LOW SCENT)	Open curtains wider; lighter throws	⚠ Mrs. Leigh allergy: reduce or eliminate fresh flowers
Summer	Jun–Aug	Whites, blues, natural wood tones	Light linen; breathable fabrics	Peonies, hydrangeas, greenery	Light layers removed; outdoor prep if applicable	Stock cold beverages; adjust lighting for longer days
Autumn	Sep–Nov	Warm neutrals, burgundy, forest green	Heavier cotton; warm throws	Dahlias, dried arrangements, branches	Warmer throws; richer accent pieces	Thanksgiving prep; holiday planning begins
Winter	Dec–Feb	Deep greens, gold, ivory, cranberry	Flannel or heavy cotton; layered	Pine, holly, amaryllis, candles	Christmas décor (Mrs. Leigh approves)	Gift management; year-end inventory

9. Laundry, Linen & Fabric Care

9.1 Fabric Care Decision Matrix

Fabric	Wash Method	Water Temp	Dry Method	Iron	Special Care	Risk if Wrong
Cotton (sheets)	Machine – normal	Warm	Tumble medium	While damp	Separate whites/colours	Shrinkage; colour bleeding
Linen (table)	Machine – gentle	Cool/warm	Line dry or tumble low	While damp, high heat	Natural wrinkling acceptable	Excessive shrinkage
Silk	Hand wash ONLY	Cold	Lay flat	Low heat + press cloth	Never bleach; gentle detergent	Irreversible damage; colour loss
Wool (suits)	Dry clean preferred	Cold if hand wash	Lay flat; reshape	Steam only	Never hang knitwear; fold	Stretching; felting; shrinkage
Cashmere	Hand wash	Cold	Lay flat on towel	Steam gently	Cashmere shampoo; pill comb	Pilling; shape loss; irreversible
Technical (workout)	Machine – normal	Cold	Hang dry or tumble low	Do NOT iron	No fabric softener	Degrades moisture-wicking

9.2 Linen Inventory Tracker

Item	Residence	Current Qty	Min Qty	Condition	Last Replaced	Action Needed
King sheets (white)	PR	3 sets	3 sets	Good	Jan 2026	None
King sheets (white)	ER	2 sets	2 sets	Good	Jan 2026	None
Bath towels	PR	8	8	Good	Dec 2025	None
Bath towels	ER	6	6	2 showing wear	Oct 2025	Replace 2 by Q2
Bath towels	TR	4	4	Good	Jan 2026	None
Hand towels	All	12 total	12	Good	Nov 2025	None
Table linen (white)	ER	3	2	Good	Sep 2025	None
Cloth napkins	ER	16	12	Good	Sep 2025	None
Guest towel sets	PR + ER	4 sets	4 sets	Good	Jan 2026	None
						Total actions: Replace 2 bath towels (ER)

10. Household Purchasing & Procurement

10.1 Purchasing Decision Flowchart

PURCHASING DECISION PROCESS	
▶ Identify need	Item missing, depleted, or damaged
|	↓
◆ Is it a routine restock?	Check Preferred Products Register (Section 10.2)
|	↓
▶ If YES: Order from preferred supplier	Log purchase; maintain consistency
|	↓
◆ If NO: Is it within budget?	Check Spending Authority Matrix (Section 2.2)
|	↓
▶ If within authority: Research + purchase	Quality over quantity; document decision
|	↓
⚠ If above authority: Present to principals	Include options, costs, and recommendation
|	↓
✓ Log purchase and file receipt	Update expense tracker and inventory

10.2 Preferred Products Register

Category	Product	Brand/Type	Supplier	Unit Cost	Reorder Freq.	Notes
KITCHEN & BEVERAGES						
Coffee beans	Medium roast, whole bean	Counter Culture Coffee	Fresh Direct / specialty delivery	$15/250g	Bi-weekly	Grind fresh; store airtight
Tea – camomile	Loose-leaf	Harney & Sons	Fresh Direct / specialty delivery	$8/100g	Monthly	Mrs. Leigh primary
Tea – peppermint	Loose-leaf	Harney & Sons	Fresh Direct / specialty delivery	$8/100g	Monthly	Mrs. Leigh primary
Tea – Earl Grey	Loose-leaf or bags	Harney & Sons	Fresh Direct / specialty delivery	$6/box	Monthly	Guest option
Matcha	Ceremonial grade	Ippodo Tea Co.	Direct order / ippodo-tea.com	$25/30g	Monthly	Mrs. Leigh afternoon

Category	Product	Brand/Type	Supplier	Unit Cost	Reorder Freq.	Notes
Olive oil	Extra virgin, cold pressed	Frantoia	Murray's Cheese / specialty grocer	$12/500ml	Monthly	Cooking + finishing
CLEANING & HOUSEHOLD						
All-purpose cleaner	Low-scent, eco-friendly	Seventh Generation	Amazon Subscribe / Fresh Direct	$5/bottle	Monthly	No synthetic fragrances
Laundry detergent	Gentle, liquid	The Laundress	The Laundress direct / Saks	$12/bottle	Monthly	Suitable for delicates
Dishwasher tablets	Fragrance-free	Seventh Generation	Amazon Subscribe / Fresh Direct	$8/box	Monthly	Low residue
Microfibre cloths	Multi-pack	E-Cloth	Amazon	$10/pack	Quarterly	Colour-coded by use
BATHROOM & PERSONAL						
Hand soap	Quality liquid, neutral scent	Aesop Resurrection	Aesop store / Nordstrom	$8/bottle	Monthly	Each bathroom
Toilet paper	Premium, soft	Charmin Ultra Soft	Amazon Subscribe / Fresh Direct	$15/pack	Bi-weekly	2-week minimum stock
Tissues	Quality, soft	Puffs Plus Lotion	Amazon Subscribe / Fresh Direct	$4/box	Monthly	Every room with seating

11. Vehicle & Transport Management

11.1 Transport Coordination Flowchart

TRANSPORT BOOKING PROCESS	
▶ Confirm travel details	Destination, time, passengers, luggage, special needs
|	↓
▶ Book car service (24hr advance)	Preferred provider; confirm driver, vehicle type
|	↓
▶ Send confirmation to driver	Pickup address, time, destination, principal preferences
|	↓
▶ Verify driver arrival (–30 min)	Confirm vehicle on location; clean, climate-controlled
|	↓
▶ Confirm principal readiness (–15 min)	Bags, documents, devices, coat

TRANSPORT BOOKING PROCESS	
|	↓
✓ Post-journey: confirm arrival + log	Record in transport log; note any issues

12. Pet Management Protocols

12.1 Winston - Daily Care Schedule

Time	Activity	Duration	Location	Owner	Notes
07:00	Morning walk	30 min	Local park / neighbourhood	Butler or housekeeper	Energetic; proper exercise, not a stroll
08:00	Morning feed	10 min	Kitchen (PR)	Butler	Premium kibble; fresh water bowl
12:00	Midday walk / garden	20–30 min	Local area	Housekeeper	Shorter if poor weather
15:00	Grooming check	10 min	Service area	Housekeeper	Paw wipes; quick brush; ear check
17:00	Afternoon walk	30 min	Park / neighbourhood	Mrs. Leigh or butler	Mrs. Leigh often joins; coordinate timing
18:30	Evening feed	10 min	Kitchen (PR)	Butler	Same portion as morning
21:00	Final outing	10 min	Building vicinity	Butler	Quick comfort walk before settling

12.2 Winston - Guest Management Decision Matrix

Guest Type	Winston Present?	Preparation	During Visit
Close family	Yes, unless requested otherwise	No special prep needed	Winston free to roam; casual
Close friends	Yes, usually	Confirm guest comfort with dogs	Winston present but managed
Professional guests (known)	Confirm in advance	Clean guest areas of pet hair	Settled in comfortable area if not present
Professional guests (formal)	No	Full clean of meeting + reception areas	Winston in private area; quiet, comfortable
Guest with dog allergy	No	Deep clean all guest-accessible areas	Winston remains in separate area entire visit

13. Philanthropy & Correspondence Support

13.1 Correspondence Processing Flowchart

INCOMING CORRESPONDENCE PROCESS	
▶ Collect and sort daily	Separate: personal, professional, financial, household, junk
|	↓
◆ Personal to principals?	Addressed directly to Mr. or Mrs. Leigh by name
|	↓
▶ If YES: Present unopened	On tray or in designated location; never open without authorisation
|	↓
◆ Household/operational?	Bills, vendor correspondence, deliveries, subscriptions
|	↓
▶ If YES: Open, log, and action	Record in correspondence log; file or escalate as needed
|	↓
▶ Junk mail / unsolicited	Discard or shred without troubling principals
|	↓
✓ Packages: log sender, contents, recipient	Store securely; notify recipient

13.2 Gift Giving and Receiving Management

This section prevents two critical errors: giving a gift the household has already given before (repetition) and giving away something that was received as a gift (perceived regifting). Both would damage the principals' reputation. Every gift sent or received must be logged here immediately.

13.2.1 Core Rules

1. Log every gift within 24 hours of sending or receiving. No exceptions. 2. Before selecting any gift, check the Giving History for that recipient. Never repeat a gift to the same person within 3 years. 3. Before giving away or donating any item, check the Receiving Registry. If it was received as a gift, it must never leave the household in a way the giver could discover. 4. Thank-you notes for received gifts must be sent within 48 hours. Handwritten on Leigh household stationery. Mrs. Leigh reviews before sending. 5. Mr. Leigh handles business gift decisions. Mrs. Leigh handles personal and family gifts. The butler coordinates logistics for both.

13.2.2 Gifts Given: History by Recipient

Check this table before selecting any gift. Sorted by recipient, most recent first.

Recipient	Date	Occasion	Gift Description	Cost	Source	Notes
Robert & Catherine Leigh	Jun 2026	Anniversary	Engraved crystal vase (Tiffany)	$280	Tiffany & Co.	Well received. Catherine displayed on mantle.
Robert & Catherine Leigh	Mar 2026	Anniversary	Bouquet + handwritten card	$85	Bloom and Branch	Simple, appreciated.
Robert & Catherine Leigh	Dec 2025	Christmas	Cashmere throw (Loro Piana)	$450	Saks Fifth Avenue	Catherine loved the colour (ivory).
Dr. David & Margaret Walsh	Dec 2025	Christmas	Signed first edition (architecture)	$320	Strand Bookstore	Dr. Walsh collects architecture books.
Dr. David Walsh	Dec 2025	Birthday	Bottle of Barolo (2018 vintage)	$95	Sherry-Lehmann	He appreciates wine. Italian preferred.
Margaret Walsh	Dec 2025	Birthday	Orchid arrangement + card	$110	Bloom and Branch	She gardens. Orchid is indoor-friendly.
Charlotte Walsh-Price	May 2026	Birthday	Jo Malone gift set (Peony & Blush)	$125	Jo Malone London	She mentioned this scent at dinner.
Thomas Leigh	Nov 2025	Birthday	AirPods Max (silver)	$549	Apple Store	Tech-forward. He was using old headphones.
Dorothy Leigh	Birthday	Feb 2026	Cashmere scarf (soft grey)	$195	Nordstrom	Warm, practical. She uses daily.
James Chen	Mar 2026	Thank-you (deal)	Macallan 18 Year	$350	Park Avenue Liquors	Business gift. Appropriate for closing.
James Chen	Dec 2025	Holiday	Montblanc pen (Meisterstuck)	$630	Montblanc boutique	He writes notes by hand. Well received.

13.2.3 Gifts Received: Registry

Every gift received by the household is logged here. This registry serves two purposes: ensuring thank-you notes are sent promptly, and preventing any received gift from being given away or donated where the original giver might learn of it.

From	Date	Occasion	Gift Description	Location Stored	Thank-You Sent	Notes
Robert & Catherine Leigh	Dec 2025	Christmas	Framed family photograph (silver frame)	PR living room mantle	Yes, 26 Dec	Displayed prominently. Do not move.
Robert & Catherine Leigh	Jun 2025	Housewarming	Set of Riedel Vinum glasses (6)	PR kitchen cabinet	Yes, same week	Now in active rotation for dinners.
Dr. David & Margaret Walsh	Dec 2025	Christmas	Hand-thrown ceramic bowl (local artist)	PR dining room console	Yes, 27 Dec	Mrs. Leigh loves it. Do not relocate.
Dr. David Walsh	Jun 2025	Wedding	Signed architectural print (Louis Kahn)	PR stairway wall	Yes, thank-you card	Framed by household. High sentimental value.
Charlotte Walsh-Price	Dec 2025	Christmas	Diptyque candle set (Baies + Figuier)	PR primary bedroom	Yes, 28 Dec	Mrs. Leigh's favourite candles.
Thomas Leigh	Dec 2025	Christmas	Craft beer subscription (3 months)	N/A (consumable)	Yes, 27 Dec	Mr. Leigh enjoyed. Consumed.
James Chen	Dec 2025	Holiday	Bottle of Dom Pérignon 2012	PR wine fridge	Yes, same day	Never serve this to James Chen. Save for special occasion.
LIC office staff	Dec 2025	Holiday	Gift basket (cheese, wine, chocolate)	Consumed	Yes, group card	Shared with household staff.
Bloom & Branch (vendor)	Dec 2025	Holiday	Complimentary arrangement	ER foyer	Yes, thank-you call	Vendor courtesy. No reciprocation needed.
Building management (ER)	Dec 2025	Holiday	Wine + card	Consumed	Yes, tip + card	Annual tip already covers this relationship.

13.2.4 Gift Selection Guidelines

Recipient Type	Budget Range	Preferred Categories	Avoid	Lead Time
Parents (both sets)	$80 – $450	Quality homewares, cashmere, books, flowers, fine food/wine	Technology (generational gap), overly personal items	2 weeks

Recipient Type	Budget Range	Preferred Categories	Avoid	Lead Time
Siblings	$100 – $550	Tech, fashion accessories, experience gifts, quality spirits	Homewares (too domestic), religious items	1 week
Business partners	$200 – $650	Fine spirits, quality pens, leather goods, rare books	Anything too personal, cologne/perfume, cash	1 week
Household staff (holiday)	$200 – $500 each	Cash bonus (preferred), quality item + card	Gift cards (impersonal), used items	Budget approved Nov
Vendors (holiday)	$50 – $150	Wine, baked goods, handwritten card	Cash (inappropriate for vendors), nothing at all	Early December
Host/hostess gifts	$40 – $120	Wine (not from ER bar), flowers, artisan chocolate, candles	Anything requiring reciprocation, anything too expensive	Day of event

13.2.5 Anti-Regifting Protocol

The following items must never be given away, donated, sold, or removed from the household without checking this registry: 1. Any item that appears in the Gifts Received Registry above. 2. Any decorative item, artwork, book, or home accessory that arrived as a gift, even if not yet logged. When in doubt, ask Mrs. Leigh. 3. Any wine or spirit bottle that was received as a gift (marked in the wine log with a "G" tag). The Dom Pérignon from James Chen, for example, must never be served when he is a guest. If an item must be removed (broken, worn out, no longer wanted), it should be discreetly discarded or donated to a charity where the original giver has no connection. Never sell received gifts on consignment or resale platforms.

13.2.6 Seasonal Gift Planning Calendar

Month	Recipients	Action Required	Budget	Owner
October	All (planning)	Draft holiday gift list. Present to Mrs. Leigh for review. Confirm budget with Mr. Leigh.	Total: $3,000 – $5,000	Butler
November	Staff	Confirm staff bonus amounts with principals. Prepare envelopes.	$200 – $500 each	Butler
Early December	Vendors	Wine or baked goods for key vendors (florist, dry cleaner, building staff, doormen).	$50 – $150 each	Butler
Early December	Family (shipping)	Ship gifts to Toronto (Robert & Catherine), Boston (Walshes), London (Charlotte), Vancouver (Thomas).	Shipping: ~$200 total	Butler

Month	Recipients	Action Required	Budget	Owner
Mid-December	Family (local)	Wrap and prepare gifts for any family visiting over holidays.	Included above	Butler/HK
December 24	Under tree	All wrapped gifts placed under PR tree by Christmas Eve. Gift log updated.	N/A	Butler
December 26+	Thank-you notes	Begin writing thank-you notes for all received gifts. Mrs. Leigh reviews. Mailed within 48 hours.	Stationery cost	Butler
Birthdays (ongoing)	Per calendar	Check Master Calendar (Section 15). Order 2 weeks before. Wrap at household. Card signed by principals.	$80 – $650 per gift	Butler

13.2.7 Preferred Vendors for Gift Sourcing

Category	Vendor	Notes
Flowers	Bloom and Branch, (212) 555-1265	Sophie Laurent. Custom arrangements. Same-day delivery in Manhattan.
Wine and spirits	Sherry-Lehmann / Park Avenue Liquors	Premium selection. Gift wrapping available. Delivery.
Books (rare/signed)	Strand Bookstore / Rizzoli	Architecture for Dr. Walsh. Art for Mrs. Leigh's parents.
Luxury accessories	Tiffany & Co. / Montblanc / Hermès	For business associates and milestone occasions.
Cashmere/textiles	Loro Piana / Nordstrom	For parents. Neutral colours. Quality over branding.
Candles/fragrance	Diptyque / Jo Malone / Cire Trudon	Mrs. Leigh's preferred brands. Safe for most women.
Food/chocolate	La Maison du Chocolat / Dean & DeLuca	Host gifts and vendor appreciation.
Technology	Apple Store	For Thomas Leigh. Latest models preferred.
Gift wrapping	In-house (PR pantry)	Brown kraft paper + wax seal (Leigh monogram). Mrs. Leigh's preference. Never commercial wrapping paper.

Chapter 7: Operational Documents

Key abbreviations: ER = Executive Residence | PR = Private Residence | TR = Toronto Residence | SOP = Standard Operating Procedure | S-O-R = Situation-Options-Recommendation | NDA = Non-Disclosure Agreement | LIC = Leigh Infrastructure Capital | NEXUS = US-Canada Trusted Traveller. Full glossary in Table of Contents.

Table of Contents

1. Purpose of Chapter 7
2. Quick-Reference Cards
3. Sample Weekly Meal Plan and Shopping List
4. Narrative Butler Day - Hour-by-Hour
5. Completed Guest Profile Examples
6. Sample Residence Transition Checklist
7. Sample Incident Report
8. Weekly Cleaning Rotation
9. Packing List - Completed Example
10. Master Contact Directory
11. Butler Book Handover Briefing
12. Summary

1. Purpose of Chapter 7

Chapters 1–6 describe the family, residences, and management systems. Chapter 7 is the practical toolkit - filled-in examples showing those systems in action. Every brand, vendor, and specification in this section matches the details established in Chapters 2–4 and 6.

2. Quick-Reference Cards

Laminate these and keep in the butler's working binder or post in each service zone.

2.1 Principal Preferences - At a Glance

	Mr. Andrew Leigh	Mrs. Kate Leigh
Morning beverage	Counter Culture medium roast, black, no sugar, no milk. Served in his designated mug.	Harney and Sons camomile or peppermint (loose-leaf). Ceramic cup, not a mug.
Afternoon beverage	Green tea or Counter Culture black coffee	Ippodo matcha latte (oat milk) or Harney and Sons Earl Grey (splash of milk)
Evening beverage	Acqua Panna still water. Occasional Glenfiddich 15 whisky (This must never be suggested).	Harney and Sons herbal tea or glass of Sauvignon Blanc (occasional)
Breakfast	Greek yoghurt + berries, or scrambled eggs + toast. Simple. Quiet.	Seasonal fruit, avocado toast, or smoothie (mango, spinach, oat milk). Unhurried.
Dining style	Simple, clean, quality. Grilled proteins, seasonal vegetables.	Mediterranean, plant-forward. Beautiful presentation. Seasonal.
▶ SENSITIVITY (Tier 3)	Mild lactose SENSITIVITY - avoid heavy dairy. Small amounts OK. Not an allergy.	NO CILANTRO - genetic aversion (NOT an allergy). Verify with ALL food providers. Not life-threatening but absolute restriction.
Temperature	68–70°F (office: 68–69°F)	70–72°F (bedroom: 67–68°F for sleeping)
Lighting	Functional, moderate. Lutron meeting scene: 65%.	Warm, layered. No harsh overhead. Lutron evening scene: lamps 60%.
Communication	Direct, factual, S-O-R format	Thoughtful, clear, allow time to consider
Privacy	Very high. Guest identities confidential.	High. Media always declined.

2.2 Emergency Contacts

Contact	Name	Phone	Notes
EMERGENCY	911	911	NYC and Toronto. Always call first.
Poison Control	National Hotline	1-800-222-1222	Accidental ingestion or exposure
Physician (Mr. L)	Dr. James Murray	(212) 555-0234	NYC-based
Physician (Mrs. L)	Dr. Amy Park	(212) 555-0478	NYC-based
Dentist	Dr. Michael Tanaka, DDS	(212) 555-0612	Bi-annual
Allergist (Mrs. L)	Dr. Priya Nair	(212) 555-0891	Seasonal
Veterinarian	Dr. Karen Webb, Manhattan Vet Partners	(212) 555-0187	Winston

	ESTIMATED WEEKLY TOTAL	$430	

4. Narrative Butler Day - Hour-by-Hour

Scenario: Tuesday. Mr. Leigh has a 10:30 AM investor meeting at the Executive Residence (Tribeca) with 3 guests. Mrs. Leigh is at the Private Residence (West Village). Dinner together at the PR at 7:30 PM.

Time	Location	Activity and Detail
6:30 AM	ER (Tribeca)	Arrive at Executive Residence. Begin SOP-ER-01. Walk through foyer (damp microfibre on Calacatta Gold marble). Meeting lounge: align Minotti sofa cushions, lint-roll if needed. Clear coffee table. Temperature: confirm 69°F via Nest.
6:50 AM	ER	Meeting lounge setup for 5 (Mr. Leigh + 3 guests + 1 associate). Pre-stage Acqua Panna still and San Pellegrino sparkling on side console with Riedel tumblers and marble coasters.
7:10 AM	ER	Tech check: Wi-Fi speed test (target 500+ Mbps, Verizon Fios). Samsung Frame on art mode. Test Crestron input switch to HDMI. Logitech Rally camera and audio check. Replace remote batteries if needed.
7:30 AM	ER	Prepare breakfast. Grind Counter Culture medium roast beans fresh. Brew in Miele built-in espresso machine. Serve in Mr. Leigh's designated mug. Greek yoghurt with fresh berries, plated simply.
7:50 AM	ER	Mr. Leigh arrives. "Good morning, sir." Serve breakfast. Place today's summary card beside his coffee.
8:15 AM	ER	Morning briefing (2 min): "Your 10:30 meeting is confirmed - three guests arriving at 10:15. Building security has been briefed. The lounge is set. Crestron is tested. Is there anything you'd like adjusted?"

Time	Location	Activity and Detail
8:30 AM	Phone	Call building security desk ((212) 555-0314). Provide guest names to David Kowalski's team. Confirm elevator access. Brief doorman James Thornton (day shift).
9:45 AM	ER	Mr. Leigh retreats to private office. Silent environment. No cleaning, no deliveries. Crestron: office scene (quiet, focused).
10:15 AM	ER	Guests arrive at building. Doorman confirms. Greet at unit door: "Good morning, Mr. Chen. Welcome." Hang coat on walnut hanger. Offer beverage: "May I offer you Acqua Panna, San Pellegrino, coffee, or tea?"
10:25 AM	ER	All seated. Beverages served in Riedel tumblers. Inform Mr. Leigh: "Your guests have arrived." Withdraw to service zone. Crestron: Meeting scene (blinds 60%, LEDs 65%).
10:30–12:00	ER (service)	Meeting in progress. Monitor from service zone. At ~11:15 (natural break): offer water refills. Refresh Counter Culture coffee in Miele machine. No interruptions.
12:00 PM	ER	Meeting concludes. Assist departure: retrieve coats, escort to door. "Thank you for visiting, Mr. Chen. Good afternoon." Clear meeting lounge: remove Riedel glasses, wipe Minotti cushions if needed.
12:20 PM	ER	Secure sensitive materials. Any printed documents to locked cabinet or cross-cut shredder. No papers visible anywhere.
12:30 PM	ER	Prepare lunch: grilled chicken salad, Acqua Panna still water, green tea. Serve at dining area or desk per Mr. Leigh's preference. Christofle not needed for solo lunch - simple plating.
1:00 PM	ER → PR	Mr. Leigh enters focused work block. Transition to Private Residence (West Village). Confirm housekeeper completed SOP-PR-01 morning reset.
1:30 PM	PR	Admin block. Review vendor invoices. Update expense tracker. Call Bloom and Branch ((212) 555-1265) re: floral pricing. Draft décor transition note for Mrs. Leigh.

Time	Location	Activity and Detail
2:30 PM	PR	Butler Book update: log meeting guest notes (Mr. Chen: black coffee, arrived 5 min early, NDA on file). Update guest profile. Review tomorrow's calendar.
3:30 PM	PR	Wardrobe check. Send 2 suits to Marcel's Fine Garment Care ((212) 555-1480) for dry cleaning - pickup Thursday. Confirm Mrs. Leigh's yoga mat in living room for tomorrow.
4:30 PM	PR	Coordinate with chef: dinner tonight is herb-roasted chicken, seasonal vegetables, quinoa. No cilantro. Set Nakashima dining table for 2: Heath Ceramics plates, Cutipol Goa flatware, Fog Linen napkins. Chill Sauvignon Blanc.
5:00 PM	PR	Mrs. Leigh returns with Winston. Offer Harney and Sons camomile tea in ceramic cup. Leave décor options note in her reading area near the De Padova sofa.
5:30 PM	PR	Evening prep. Lutron: Evening scene (Artemide floor lamps 60%, sconces low, overhead OFF). Kitchen: chef begins dinner. Confirm table set.
7:15 PM	PR	Mr. Leigh arrives from Tribeca. Take coat. Confirm dinner ready. Acqua Panna water poured. Sauvignon Blanc opened and breathing.
7:30 PM	PR	Serve dinner. Courses from left, cleared from right. Refill wine when 1/3 remaining. Match pace to conversation. Heath Ceramics hand-wash after - never dishwasher for Cutipol Goa (damages matte finish).
8:30 PM	PR	Clear dinner. Kitchen closeout (quiet - La Cornue wiped, Calacatta Borghini counter sealed if any acid spills). Offer Harney and Sons herbal tea to Mrs. Leigh.
8:45 PM	PR	Bedroom: Nest to 67°F. Ceiling fan on low. Blackout curtains drawn. Matouk Milagro towels fresh in en-suite. Aesop products checked. Walk Winston last outing (10 min). Simplisafe armed.

Time	Location	Activity and Detail
9:00 PM	-	Day complete. Log: meeting (3 guests, no issues), suits to Marcel's Thursday, Bloom and Branch pricing discussion pending, décor note delivered. Depart.

5. Completed Guest Profile Examples

5.1 James Chen (Investor)

Field	Detail
Full name	James Chen
Relationship	Investment partner; co-investor in two portfolio companies
Company	Meridian Capital Partners
Visits to date	3 (Oct 2025, Jan 2026, Mar 2026). All at Executive Residence (Tribeca).
Typical visit	Professional meeting, 60–90 min. Sometimes with 1 associate. Crestron AV used for presentations.
Beverage	Counter Culture black coffee, no sugar. Also accepts San Pellegrino sparkling in Riedel tumbler.
Dietary	No known restrictions. Accepted biscuits at last meeting.
Communication	Formal. Address as Mr. Chen. Professional handshake.
NDA status	Active NDA on file with Leigh Infrastructure Capital.
Building access	Pre-register with David Kowalski's security team, (212) 555-0314. Guest elevator access. Doorman James Thornton (day) or Carlos Mendez (evening) greets at building.
Notes (Mar 2026)	Arrived 5 min early (build in buffer). Appreciated prompt coffee service from Miele espresso machine. Left business card for associate (filed).

5.2 Robert and Catherine Leigh (Parents)

Field	Detail
Relationship	Mr. Leigh's parents. Robert (mid-60s, civil engineer, retired). Catherine (mid-60s, teacher, retired).
Location	Toronto, Canada. Visit NYC several times per year; stay 2–4 nights.
Accommodation	Private Residence (West Village) guest bedroom, 3rd floor. En-suite bathroom.

Field	Detail
Robert's preferences	Enjoys Glenfiddich 15 whisky (neat). Prefers sit-down meals at the Nakashima dining table. Early riser. Interested in current events.
Catherine's preferences	Tea drinker: Harney and Sons English Breakfast with milk. Enjoys home-cooked comfort food from the La Cornue. Appreciates Bloom and Branch flowers in guest room. Reader.
Medical	Robert: managed hypertension (daily medication). Ensure ground-floor accessible seating if needed. Catherine: no known conditions.
Hosting tone	Warm, domestic, relaxed. Family dinner atmosphere at the Nakashima table with Heath Ceramics. Winston present and welcomed.
Guest room prep	Bloom and Branch fresh flowers. Extra blanket (Catherine runs cold). Stock Harney and Sons English Breakfast. Glenfiddich visible in living area. Matouk Milagro towels. Aesop toiletries. Acqua Panna water on bedside.

6. Sample Residence Transition Checklist

Scenario: NYC Private Residence (West Village) → Toronto Business Residence (Yorkville). Friday departure, Friday evening arrival (~10:30 PM).

Task	Status	Time	Notes
DEPARTURE - NYC PRIVATE RESIDENCE (WEST VILLAGE)			
Packing verified	✓	11:00 AM	Per packing protocol (Section 9). Counter Culture coffee beans packed for Toronto (in case supply low).
Winston boarding arranged	✓	10:00 AM	Preferred facility. Drop-off 2:00 PM. Orijen food (3-day supply), vaccination records from Dr. Karen Webb provided.
Atlantic Executive car confirmed	✓	9:00 AM	Pickup at PR (West Village): 5:30 PM. Black SUV. (212) 555-1820.
PR SOP-PR closing completed	✓	3:00 PM	Perishables removed from Sub-Zero fridge. La Cornue wiped. Simplisafe armed. Lutron to away mode.

Task	Status	Time	Notes
ER status confirmed	✓	2:00 PM	Housekeeper completed SOP-ER-04 closing. August Pro locked. Nest to night setback (67°F).
ARRIVAL - TORONTO BUSINESS RESIDENCE (YORKVILLE)			
Maple Leaf Home Care clean	✓	4:00 PM local	Cleaning completed 2:00 PM. Photos received and approved via text.
Grocery Gateway delivery	✓	3:00 PM	Acqua Panna, San Pellegrino, Counter Culture beans, oat milk, eggs, bread, fruit. 1 Sauvignon Blanc chilled.
Systems verified via concierge	✓	4:30 PM	Sarah Chen confirmed: Wi-Fi online, Ecobee at 70°F / 21°C, warm lighting set.

Executive Town Car confirmed	✓	2:00 PM	Airport pickup at 10:15 PM. Porter Airlines from Billy Bishop. (416) 555-0768.
Late arrival ready	✓	4:30 PM	Bedroom: Brooklinen percale sheets fresh. Aesop travel sizes. Acqua Panna on bedside. Ecobee: 19°C / 66°F for sleeping.
TRANSITION STATUS	COMPLETE	-	All verified. No issues.

7. Sample Incident Report

Field	Detail
Date and time	Wednesday, 12 March 2026, 2:15 PM
Residence	Executive Residence (Tribeca)
Type	Water leak - service zone kitchen (Zone E)
DESCRIPTION	
What happened	Water pooling on quartzite countertop and floor beneath the Sub-Zero refrigerator's water line connection. Leak originated from a loose fitting. No principals or guests present.
ACTIONS TAKEN	

Field	Detail
Step 1	Shut off cold water valve under sink (accessible, functional).
Step 2	Placed towels around affected area. Moved items from lower cabinets to dry surface.
Step 3	Photographed leak source and affected area (3 photos filed in incident folder).
Step 4	Called Reliable Plumbing NYC, (212) 555-0933 at 2:25 PM. Also notified David Kowalski (building management, (212) 555-0310).
RESOLUTION	
Plumber arrival	4:00 PM. Tightened water line fitting. Tested 15 minutes - no further leak. Checked Sub-Zero water filter connection.
Cost	$0 (building maintenance agreement covers plumbing). Plumber's visit logged for records.
Status	RESOLVED
FOLLOW-UP	
Principal notification	Text to Mr. Leigh at 2:30 PM: "Minor kitchen leak at ER - contained, plumber scheduled, no damage." Mr. Leigh acknowledged.
Inspection	Housekeeper to check under Sub-Zero daily for one week.
Log	Maintenance Log updated. Reliable Plumbing contact confirmed in Vendor Master List.

8. Weekly Cleaning Rotation

Products matched to specific materials per Chapters 2–4 residence profiles.

Day	Area	Task	Product	Method	Time
MONDAY - BATHROOMS (ER + PR)					
Mon	ER en-suite	Clean Dornbracht fixtures, marble floor, walk-in shower	Chrome polish; pH-neutral stone cleaner	Polish fixtures dry. Damp mop heated marble floor. Never abrasive.	20 min
Mon	PR primary en-suite	Victoria and Albert tub, Dornbracht fixtures, Calacatta marble floor	Chrome polish; pH-neutral stone cleaner; tub cleaner	Tub: rinse and dry after each use. Fixtures: polish dry. Marble: damp mop.	25 min

12. Summary

Chapter 7 provides the daily working tools that bring the Butler Book to life. Every document in this section uses the exact brands, vendors, contacts, and specifications established in Chapters 1 through 6. A butler picking up this section should be able to execute a full day of service with confidence because every detail is consistent, specific, and actionable. Key brand references verified across all documents: Coffee: Counter Culture medium roast (whole bean, ground fresh daily in Miele built-in machine) Tea: Harney and Sons (camomile, peppermint, Earl Grey); Ippodo matcha Water: Acqua Panna (still), San Pellegrino (sparkling) in Riedel tumblers Tableware: Wedgwood Gio and Christofle Cluny (ER); Heath Ceramics and Cutipol Goa (PR) Linens: Frette 600tc (ER); Mattola organic linen (PR); Brooklinen Classic Percale (TR) Towels: Matouk Milagro (white, monogrammed) across all residences Toiletries: Aesop full range (all residences) Furnishings: Minotti, B and B Italia, Crestron (ER); De Padova, Cassina, La Cornue (PR); CB2, West Elm (TR) Vendors: Sterling Home Services (cleaning),

Marcel's (dry cleaning), Bloom and Branch (floral), ClearPath Tech (IT), Reliable Plumbing, Bright Spark Electric Together, All eight chapters of the Leigh Household Butler Book form a complete, consistent, 201-page system for managing a ~$120M household across three residences in two countries.

13. Coffee and Tea Preparation Guide

Precision matters. Mr. Leigh notices if the coffee is different. Mrs. Leigh will know if the tea was brewed in a mug instead of a pot. These are daily rituals - get them right every time.

13.1 Mr. Leigh - Coffee

Step	Detail	Equipment	Notes
1. Grind beans	Counter Culture medium roast. Grind fresh each morning. Medium-fine setting (espresso grind for Miele; medium for pour-over).	Baratza Encore grinder (ER). Built-in Miele grinder (ER). Manual Hario grinder (travel kit).	Never pre-grind. Beans lose flavour within 30 minutes of grinding. Store beans in airtight canister, not the bag.
2. Brew	ER: Miele built-in espresso machine - double shot, lungo setting. PR: Pour-over (Chemex 6-cup) or Breville Barista Express espresso. TR: Breville Barista Express.	Miele (ER). Chemex + Hario V60 (PR). Breville (PR + TR).	Chemex ratio: 1:15 (1g coffee per 15g water). Water temp: 200–205°F. Brew time: 3.5–4 min.

Step	Detail	Equipment	Notes
3. Serve	Black. No sugar. No milk. Serve in his designated mug (ER office: grey stoneware mug with LIC logo. PR: simple white ceramic). Never a paper cup.	His specific mugs.	The mug matters to him. If his mug is dirty, wash it immediately rather than substituting.
4. Timing	Ready by 6:45 AM (ER) or 7:00 AM (PR). He reaches for it within minutes of arriving. A second cup is often requested around 2:00–3:00 PM.	Same equipment.	If he hasn't asked for a second cup by 3:30 PM, he won't. Switch to offering green tea.

13.2 Mrs. Leigh - Tea

Step	Detail	Equipment	Notes
1. Select tea	Harney and Sons loose-leaf. Morning: camomile or peppermint. Afternoon: Ippodo matcha or Harney and Sons Earl Grey with splash of milk.	Harney tins (stocked at all residences). Ippodo matcha (PR + TR).	She rotates based on mood. If unsure, ask: "Camomile or peppermint this morning, Mrs. Leigh?"
2. Brew (herbal)	Heat filtered water to 200°F (NOT boiling - boiling water makes herbal tea bitter). Steep loose-leaf in ceramic teapot (PR: Kinto PEBBLE pot, cream) for 5–7 min.	Kinto teapot (PR). Simple ceramic pot (ER + TR). Tea strainer.	Never steep in the cup - always use a pot. Strain into cup. She dislikes leaves floating.
2b. Brew (matcha)	Sift 2g Ippodo matcha into matcha bowl. Add 2 oz hot water (175°F). Whisk with bamboo chasen until frothy. Heat 6 oz oat milk. Pour matcha into oat milk.	Matcha bowl, chasen whisk, sifter (PR kitchen drawer). Oat milk.	Matcha is afternoon only. Lower water temp than herbal. Whisk vigorously in W-pattern for 15–20 seconds.
3. Serve	In a ceramic cup (not a mug). PR: Heath Ceramics small cup. ER: simple white cup and saucer. On a small tray with a teaspoon if milk is included.	Heath cup (PR). White cup+saucer (ER).	The cup matters. Ceramic, not porcelain. Warm the cup with hot water before pouring (discard water, then pour tea). She notices cold cups.

14. Master Calendar - Birthdays, Anniversaries and Important Dates

This calendar consolidates personal dates (birthdays, anniversaries), household operational dates, financial deadlines, and renewal tracking into one reference. Cross-references Chapter 8, Section 12 (Compliance Calendar) for regulatory and document renewals.

14.1 Personal Dates

Date	Person / Event	Type	Action Required	Gift Budget	Notes
February 14	Valentine's Day	Optional	If requested: dinner reservation (Via Carota or The Waverly Inn). Flowers for Mrs. Leigh (Bloom and Branch).	$150–$300	Discreet. If principals don't mention it, don't raise it.
March 18	Mr. Leigh's birthday	Personal	Confirm Mrs. Leigh's plans (she organises). Support logistics: dinner reservation, gift wrapping, card from staff.	Per Mrs. Leigh	Do NOT plan anything independently. Mrs. Leigh leads.
May 22	Mrs. Leigh's birthday	Personal	Confirm Mr. Leigh's plans. Bloom and Branch delivery (her favourite arrangement). Ensure favourite Sauvignon Blanc chilled.	Per Mr. Leigh	Mr. Leigh will instruct. Fresh flowers are always welcome.
June 15	Wedding anniversary	Personal	Confirm plans with both principals. Typically a dinner out (Le Bernardin or Estela). Card from staff.	Per principals	Quiet, elegant. Not a large event.
August 3	Winston's birthday	Informal	New toy or treat. Mrs. Leigh may request a special walk or outing.	$25–50	Low-key. A fun gesture.
October 12	Robert Leigh's birthday	Family	Card from both principals. If visiting: Glenfiddich 15 as gift. If not: coordinate delivery.	$85–$150	Ship to Toronto if not visiting. Handwritten card from Mr. Leigh.
November 5	Catherine Leigh's birthday	Family	Card + flowers. Catherine prefers Harney and Sons English Breakfast tea gift set or quality scarf.	$75–$125	Ship to Toronto. Mrs. Leigh often selects the gift.

Date	Person / Event	Type	Action Required	Gift Budget	Notes
December 8	Dr. William Walsh's birthday	Family	Card + quality architectural book or wine. Mrs. Leigh selects.	$80–$120	Ship to Boston.
December 22	Margaret Walsh's birthday	Family	Card + flowers or quality tea. Mrs. Leigh selects.	$75–$100	Ship to Boston. Close to Christmas - combine shipping if possible.

14.2 Holiday and Seasonal Calendar

Date	Event	Household Action	Res.
Jan 1	New Year's Day	Quiet day. Late breakfast. No meetings scheduled. Full residence reset after any NYE gathering.	PR
Early March	Spring transition begins	Allergy prep for Mrs. Leigh: reduce fresh flowers, stock Allegra. Spring deep clean scheduled. Garden service restart.	PR + ER
Late May	Memorial Day weekend	Principals may travel or entertain at PR. Garden in full bloom. Weekend schedule.	PR
July 4	Independence Day	If in NYC: plans vary. PR garden may be used for small gathering. Fireworks visible from ER (Tribeca views).	PR or ER
Early Sep	Labour Day	Summer-to-autumn transition. Wardrobe rotation begins. Garden furniture assessment.	PR
4th Thu Nov	Thanksgiving (American)	Major household event. Mrs. Leigh directs menu and décor. La Cornue is centrepiece of cooking. Full Nakashima table (8 seats). Family invited.	PR
Dec 24–25	Christmas Eve + Day	Mrs. Leigh directs all decorating (begin early December). Tree, garlands, candles. Gift management via gift log. Family dinner Christmas Day. Bloom and Branch holiday arrangement.	PR

Date	Event	Household Action	Res.
Dec 31	New Year's Eve	Plans vary: quiet dinner at home or small gathering. Champagne chilled. ER or PR depending on plans.	Variable

14.3 Financial Calendar

Date	Event	Owner	Action
Jan 15	Q4 estimated tax payment	PwC accountant	Confirm payment processed. Butler not involved in payment; confirm with accountant.
Jan 31	Year-end household financial summary due	Butler	Complete Chapter 6 monthly summary for December + annual summary.
Apr 15	US tax filing deadline	PwC accountant	Confirm filed. Extension available but discouraged.
Apr 15	Q1 estimated tax payment	PwC accountant	Confirm payment.
Apr 30	Canadian tax filing deadline	Canadian accountant	Mr. Leigh files in both US and Canada. Confirm both filed.
Jun 15	Q2 estimated tax payment	PwC accountant	Confirm payment.
Sep 15	Q3 estimated tax payment	PwC accountant	Confirm payment.
Monthly (1st)	Household financial summary	Butler	Complete monthly budget vs. actual. Submit to principals by 5th of following month.
Quarterly	Vendor performance reviews	Butler	Score all active vendors. Present summary to principals. Address underperformers.
Annually (Jan)	Insurance policy review	PwC / accountant	Review all policies: property, liability, employer's, travel, vehicle. Update valuations.
Annually (Jan)	Estate planning review	Wachtell Lipton	Schedule meeting. Review wills, trusts, succession. Update if family changes.

14.4 Renewal Tracking Summary

This consolidates all renewal deadlines from across the Butler Book. Cross-reference Chapter 8, Section 12 for the full compliance calendar.

Item	Current Expiry	Renewal Lead Time	Cost	Status
Mr. Leigh Canadian Passport	June 2026	6–9 months	CAD $160	⚠ URGENT - Submit by Sep 2025
Mr. Leigh US Passport	March 2032	9–12 months	$130	OK
Mrs. Leigh US Passport	September 2033	9–12 months	$130	OK
Global Entry (Mr. Leigh)	January 2029	12 months	$100	OK
Global Entry (Mrs. Leigh)	March 2029	12 months	$100	OK
NEXUS (Mr. Leigh)	February 2029	12 months	$50	OK
NY Driver's Licence (Mr. L)	April 2032	12 months	$80	OK
NY Driver's Licence (Mrs. L)	November 2031	12 months	$80	OK
Ontario DL (Mr. L)	July 2030	6 months	CAD $90	OK
BMW Registration (Ontario)	June 2026	1 month	CAD $120	Due soon
BMW Lease End	June 2028	6 months	N/A	Plan next vehicle by Dec 2027
BMW Insurance (Aviva)	Annual (June)	1 month	CAD $3,600/yr	Renew each June
PR Homeowner's Insurance	Annual	1 month	$8,500/yr	Review in January
Smoke Detector Batteries	Every 6 months	N/A	~$30	January + July
Fire Extinguisher Inspection	Annual	N/A	~$50	January (all residences)
PR Marble Resealing	Every 6 months	N/A	~$200	March + September
PR Persian Rug Clean	Annual	2 weeks	$400–$600	Spring (March/April)
La Cornue Professional Service	Annual	1 month	$400–$600	January

14.5 Consolidated Master Calendar

This calendar consolidates every recurring task, deadline, and milestone from all chapters. Check on the 1st of each month. Colour key: yellow = personal/operations, green = medical/veterinary, blue = maintenance/travel, pink = financial/safety, grey = vehicle.

January

Task / Event	Category	Owner	Reference
Annual estate planning review	Financial	Butler/PA	Ch8 S9
PR property tax Q1 due	Financial	Accountant	Ch6 S2
HVAC filter change (quarterly, all)	Maintenance	Butler/HK	Ch2-4
Smoke detector batteries (all)	Safety	Butler/HK	Ch2-4
Fire extinguisher inspection (all)	Safety	Butler	Ch2-4
La Cornue service (PR)	Maintenance	Butler	Ch3
Budget review, vendor renewals	Operations	Butler	Ch6
Flu season: stock Allegra	Medical	Butler	Ch1 S10

February

Task / Event	Category	Owner	Reference
14th: Valentine's Day (optional)	Personal	Butler	Ch7 S14
Mrs. Leigh allergist pre-season visit	Medical	Butler	Ch1 S10
Wardrobe maintenance	Operations	Butler/HK	Ch5 S8

March

Task / Event	Category	Owner	Reference
18th: Mr. Leigh's birthday	Personal	Butler	Ch7 S14
Spring deep clean (all)	Maintenance	Butler/HK	Ch5 S6

12. Compliance Calendar and Renewal Tracker
13. Summary

1. Scope of This Chapter

This chapter covers the technical, legal, financial, and compliance details that support household operations but do not fit neatly into the residence profiles (Chapters 2-4), operational procedures (Chapter 5), or management systems (Chapter 6). This is the reference manual for systems, accounts, documents, and external relationships that the butler must track, maintain, and coordinate.

2. Computing Systems and Operating Environments

Knowing the exact hardware and OS is critical for troubleshooting and ensuring the correct IT support is contacted. Mr. Leigh uses Apple exclusively. The household IT environment is Apple-centric.

2.1 Personal Devices

Device	Owner	Model	OS	Serial/ID	Location	Support Contact
Laptop (primary)	Mr. Leigh	MacBook Pro 16" (M3 Max, 64GB, 1TB)	macOS Sonoma 14.x	[Serial on file]	ER office (primary); travels	AppleCare+ active. ClearPath Tech (212) 555-0425 for network issues.
Laptop (backup)	Mr. Leigh	MacBook Air 15" (M3, 16GB, 512GB)	macOS Sonoma 14.x	[Serial on file]	PR home office	AppleCare+. Backup if primary needs repair.
Phone	Mr. Leigh	iPhone 15 Pro Max (256GB, Natural Titanium)	iOS 17.x	[Serial on file]	Always on person	AppleCare+. Carrier: Verizon. Canadian SIM: Telus (kept at TR).
Tablet	Mr. Leigh	iPad Pro 12.9" (M2, 256GB, Wi-Fi + Cellular)	iPadOS 17.x	[Serial on file]	Travels; PR reading	AppleCare+.
Phone	Mrs. Leigh	iPhone 15 Pro (128GB, Blue Titanium)	iOS 17.x	[Serial on file]	Always on person	AppleCare+. Carrier: Verizon.
Tablet	Mrs. Leigh	iPad Air (M1, 64GB, Wi-Fi)	iPadOS 17.x	[Serial on file]	PR; yoga/reading	AppleCare+.
Watch	Mr. Leigh	Apple Watch Ultra 2	watchOS 10.x	[Serial on file]	Daily wear	AppleCare+. Fitness tracking.
Watch	Mrs. Leigh	Apple Watch Series 9 (Starlight)	watchOS 10.x	[Serial on file]	Daily wear	AppleCare+.

2.2 Household Computers

Device	Location	Model	OS	Purpose	IT Contact
Desktop monitor setup	ER office	Dual 27" Apple Studio Displays + CalDigit TS4 dock	macOS (via MacBook)	Mr. Leigh's primary work station. Thunderbolt connection.	ClearPath Tech (212) 555-0425
Monitor setup	TR work nook	27" Dell U2723QE + USB-C dock	macOS (via MacBook)	Secondary work station. USB-C single cable.	NorthPoint Tech (416) 555-0438
Printer	ER office	HP LaserJet Pro M404dw	AirPrint compatible	Network printer. Wi-Fi connected to primary network.	ClearPath Tech

2.3 Troubleshooting by OS

Issue	macOS Fix	iOS Fix	Escalation
App crashing	Force quit (Cmd+Option+Esc). Restart app. If persistent: restart Mac.	Force close (swipe up from app switcher). Restart iPhone (hold side + volume).	If recurring: schedule Genius Bar or contact ClearPath.
Wi-Fi not connecting	Settings > Wi-Fi > Forget network > Rejoin. Restart router (Eero app).	Settings > Wi-Fi > Forget > Rejoin. Toggle airplane mode on/off.	ClearPath (NYC) or NorthPoint (TR). See Chapters 2-4 for router locations.
Printer not responding	System Preferences > Printers > Remove > Re-add. Restart printer.	Not applicable (print from Mac only).	ClearPath. Check HP toner level via HP Smart app.
iCloud sync issue	Sign out of iCloud > Restart > Sign back in. Check storage (Settings > Apple ID).	Same process on iPhone.	Apple Support: 1-800-275-2273. Do NOT share principal passwords with support.
Data loss / accidental deletion	Check Trash. Check iCloud.com recently deleted. Time Machine backup (if configured).	Check Recently Deleted folder in relevant app. iCloud recovery.	STOP using the device. Contact ClearPath immediately. Do not attempt recovery without IT support.

3. ISP, Phone Services and Connectivity Costs

3.1 Internet Service Providers

Residence	Provider	Plan	Speed	Cost/Mo	Account #	Support	Outage Procedure
ER (Tribeca)	Verizon Fios	Gigabit Connection	1 Gbps up/down	$89.99/mo	[On file]	1-800-837-4966	Restart Eero (utility closet). Check Verizon outage map. Enable mobile hotspot. Call if >30 min.
PR (West Village)	Verizon Fios	500 Mbps	500 Mbps up/down	$69.99/mo	[On file]	1-800-837-4966	Restart Eero (basement node first). Check outage map. Hotspot in kitchen drawer. Call if >30 min.
TR (Yorkville)	Bell Canada	Fibe 500	500 Mbps down/100 up	CAD $109.95/mo	[On file]	1-866-310-2355	Restart Eero. Canadian SIM hotspot in entry console. Call NorthPoint (416) 555-0438 then Bell.

3.2 Mobile Phone Service

User	Carrier	Plan	Cost/Mo	Acct	International	Support
Mr. Leigh (US)	Verizon	Unlimited Ultimate	$90/mo	[On file]	TravelPass: $10/day in Canada. Or use Telus SIM.	1-800-922-0204
Mr. Leigh (Canada)	Telus (prepaid)	Prepaid data + talk	CAD $40/mo (when active)	[On file]	Local Canadian number. Activate before each trip.	1-866-558-2273

User	Carrier	Plan	Cost/Mo	Acct	International	Support
Mrs. Leigh	Verizon	Unlimited Plus	$80/mo	[On file]	TravelPass included. Rarely needs Canadian SIM.	1-800-922-0204

3.3 Annual Connectivity Costs

Service	Monthly	Annual	Notes
Verizon Fios (ER)	$89.99	$1,080	Gigabit; includes router rental
Verizon Fios (PR)	$69.99	$840	500 Mbps
Bell Canada (TR)	CAD $109.95 (~$80 USD)	~$960 USD	500/100 Mbps
Verizon Mobile (Mr. L)	$90	$1,080	Unlimited Ultimate
Telus Prepaid (Mr. L)	~$30 USD (active months only)	~$240 USD	Estimated 8 active months/year
Verizon Mobile (Mrs. L)	$80	$960	Unlimited Plus
TOTAL CONNECTIVITY	~$440/mo	~$5,160/year	0.004% of net worth

4. Subscriptions and Digital Services

All subscriptions are tracked here for billing awareness, support troubleshooting, and password management. The butler does not manage passwords directly but should know which services exist and how to contact support.

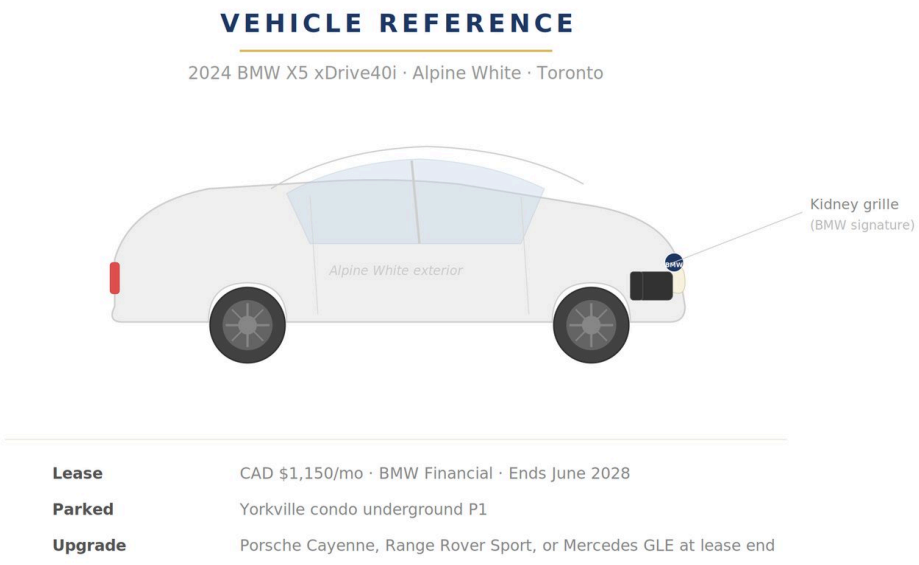

Service	Type	User(s)	Cost/Mo	Cost/Yr	Platform	Support
STREAMING AND ENTERTAINMENT						
Apple TV+	Video streaming	Both	$9.99	$120	Apple ID (Mr. L primary)	apple.com/support
Netflix	Video streaming	Both	$22.99 (Premium)	$276	Shared household account	netflix.com/help
Spotify	Music	Both (Family plan)	$16.99	$204	Separate profiles	support.spotify.com
Apple Music	Music (Mr. L backup)	Mr. Leigh	Incl. in Apple One	See below	Apple ID	apple.com/support
Audible	Audiobooks	Mrs. Leigh	$14.95	$179	Amazon account	audible.com/help
PRODUCTIVITY AND CLOUD						

Service	Type	User(s)	Cost/Mo	Cost/Yr	Platform	Support
Apple One (Premier)	iCloud 2TB + services bundle	Mr. Leigh (family sharing)	$37.95	$455	Apple ID	apple.com/support
Microsoft 365	Office suite (backup)	Mr. Leigh	$9.99	$120	Microsoft account	support.microsoft.com
NEWS AND INFORMATION						
The New York Times	Digital subscription	Both	$25/mo	$300	NYT account	nytimes.com/help
The Wall Street Journal	Digital subscription	Mr. Leigh	$38.99/mo	$468	WSJ account	wsj.com/help
Bloomberg	Terminal access (office)	Mr. Leigh	Via LIC firm	Via firm	Bloomberg LP	Firm IT handles
HOME AND LIFESTYLE						
Eero Secure+	Network security + ad blocking	Household	$9.99	$120	Eero app (butler manages)	support.eero.com
Ring Protect Plus	Video doorbell recording (PR)	Household	$20/mo	$240	Ring app (butler manages)	ring.com/help
Simplisafe Interactive	Alarm monitoring (PR)	Household	$27.99	$336	Simplisafe app	simplisafe.com/support
Fresh Direct	Grocery delivery (NYC)	Household	DeliveryPass $79/yr	$79	Butler orders	freshdirect.com/help
TOTAL SUBSCRIPTIONS	~$340/mo	~$3,900/year	Excludes Bloomberg (firm expense)			

5. Vehicle and Transport Management

5.1 Vehicle Inventory

The Leigh household does not currently own personal vehicles in NYC (car service preferred). A leased vehicle is maintained in Toronto. NYC transport is via car service (Blacklane or Uber Black) at about $2,500/month for extended stays.

Attribute	Toronto Vehicle
Vehicle	2024 BMW X5 xDrive40i (Alpine White)
Ownership	36-month lease (BMW Financial Services Canada). Lease start: June 2025. Lease end: June 2028.
Monthly payment	CAD $1,150/mo (~$840 USD)
Annual cost	CAD $13,800/yr (~$10,080 USD) + insurance CAD $3,600/yr (~$2,630 USD)
Insurance	Aviva Canada. Policy #: [On file]. Covers comprehensive + collision + liability ($2M).
Registration	Ontario plate. Renewal: annual, due June. Current sticker valid through June 2026.
Parking	Building underground space (included in condo fees). Visitor parking available for 2nd vehicle.
Depreciation	Lease vehicle; depreciation absorbed by BMW Financial. Residual value at lease end: ~CAD $42,000. No purchase obligation.
Fuel	Premium unleaded (91 octane). Estimated CAD $200/mo during active use months.

5.2 Vehicle Maintenance Schedule

Service	Interval	Est. Cost (CAD)	Provider	Notes
Oil and filter change	Every 10,000 km or 12 months	$120–$180	BMW Toronto Downtown, (416) 555-2100	Included in BMW maintenance plan for first 4 years

Service	Interval	Est. Cost (CAD)	Provider	Notes
Tire rotation	Every 10,000 km	$60–$80	BMW Toronto Downtown	Check tread depth; Toronto winters require winter tires
Winter tire swap	November and April	$120 per swap	BMW Toronto Downtown	Winter tires stored at dealership ($150/season storage)
Brake inspection	Every 20,000 km	Included in plan	BMW Toronto Downtown	Pad replacement when <3mm
Annual safety inspection	Annual (required in Ontario)	$40–$60	BMW Toronto Downtown	Required for registration renewal
Wash and detail	Monthly when in use	$80–$150	Mobile detailing service	Schedule before principal arrival in Toronto

5.3 Registration and Tags

Document	Jurisdiction	Current Status	Renewal Date	Cost	Procedure
Vehicle registration	Ontario, Canada	Active	June 2026	CAD $120	Online at ServiceOntario.ca or in-person. Requires valid insurance + safety inspection.
License plate sticker	Ontario	Valid through June 2026	June 2026	Included above	Eliminated in Ontario as of 2022; no physical sticker needed. Registration renewal still required.
Parking permit	Building garage	Active (included in condo fees)	Annual with condo fees	Included	Building management handles. Confirm with Sarah Chen annually.

6. Aviation: Charter and Commercial Flight Procedures

6.1 Commercial Flight Preferences

Route	Preferred Airline	Class	Airport	Typical Cost	Booking Lead Time
NYC → Toronto	Porter Airlines	Business	Billy Bishop (YTZ)	$400–$650 RT	2+ weeks preferred

Route	Preferred Airline	Class	Airport	Typical Cost	Booking Lead Time
NYC → Toronto (alt)	Air Canada	Business	JFK → Pearson (YYZ)	$600–$900 RT	2+ weeks
NYC → San Francisco	United or Delta	Business	JFK or EWR → SFO	$1,200–$2,000 RT	3+ weeks
NYC → London	British Airways or Delta	Business	JFK → LHR	$3,500–$6,000 RT	4+ weeks
NYC → Singapore	Singapore Airlines	Business	JFK → SIN (via FRA)	$5,000–$8,000 RT	6+ weeks

6.2 Private Aviation: Charter, Jet Cards & Fractional Ownership

The Leigh household is not a routine private aviation user, but at the $120M net worth level, private flights are a realistic option for time-sensitive travel, multi-city itineraries, privacy-sensitive situations, and group travel where charter becomes cost-competitive with multiple business class tickets. The butler should understand all three tiers of private aviation and know when to recommend each.

6.2.1 Decision Matrix: When to Fly Private vs. Commercial

Scenario	Recommendation
NYC–Toronto routine (solo)	Commercial: Porter Airlines business class ($400–650 RT). Best value. Billy Bishop is 15 min from TR.
NYC–Toronto urgent (same-day)	Charter or jet card: Teterboro → Billy Bishop. 1.5 hrs wheels-up to wheels-down. ~$8,000–12,000 one-way.
NYC–Toronto with 3+ guests	Charter: Cost per seat approaches business class. Light jet seats 6–8. Group arrives together.
Multi-city same day (NYC–DC–Boston)	Charter: Only viable option. Commercial connections would take 12+ hours.
Transcontinental (NYC–SFO/LAX)	Commercial business class unless 3+ travellers or schedule demands it. Charter: $25,000–40,000 one-way.
Transatlantic (NYC–London)	Commercial business class. Charter ($80,000–120,000 one-way) is not cost-justified at current household scale.
Privacy-sensitive (media, deal closing)	Charter from Teterboro. No passenger manifests, no terminal exposure, direct FBO-to-car transfer.
Guest transport (flying investors in)	Charter or jet card. Mr. Leigh approves all guest aviation. Demonstrates serious intent to partners.

6.2.2 Three Tiers of Private Aviation

Tier 1: On-Demand Charter (Current Arrangement) Book individual flights as needed through a broker. No ownership, no commitment. Pay per flight. Best for households using private aviation fewer than 25 hours per year.

Factor	Detail
Current broker	Sentient Jet. Membership card on file with Mr. Leigh. Contact: 1-877-534-3003 (24/7).
How it works	Call broker → provide date, time, origin, destination, passengers, luggage → receive quote within 1 hour → Mr. Leigh approves → confirmation + itinerary → coordinate ground transport both ends.
Typical cost: NYC–Toronto	$8,000–12,000 one-way (light jet, Citation CJ3/CJ4). Seats 6–8. Flight time: 1 hr 20 min.
Typical cost: NYC–Miami	$15,000–22,000 one-way (light or midsize jet).
Typical cost: NYC–SFO	$25,000–40,000 one-way (midsize or super-mid, e.g., Challenger 350).
Typical cost: NYC–London	$80,000–120,000 one-way (heavy jet, Gulfstream G550/G650). Generally not recommended at current scale.
Lead time	24–48 hours ideal. Same-day possible at premium (+15–25%).
Cancellation	Varies by broker. Sentient: free cancellation 72+ hours. Within 72 hours: 50–100% of cost.
Advantages	No commitment. Pay only when flying. Full flexibility on aircraft type and route.
Disadvantages	Highest per-hour cost. Availability not guaranteed in peak periods (holidays, Davos, Art Basel).

Tier 2: Jet Card Programme (Recommended Next Step) Pre-purchase a block of flight hours at a fixed rate. Provides guaranteed availability, locked-in pricing, and simpler booking. Best for households flying 25–75 private hours per year. This is the recommended next step if private aviation use increases.

Factor	Detail
Recommended providers	Sentient Jet (already a member), NetJets (industry leader, Berkshire Hathaway owned), Wheels Up (strong on East Coast short hops), Magellan Jets (boutique, excellent service).
How it works	Purchase 25-hour card (typically $150,000–$200,000 for light jet). Fixed hourly rate locked for 12 months. Call to book, guaranteed aircraft within 10 hours of requested time.
Cost: 25-hr light jet card	$150,000–200,000 ($6,000–8,000/hr). Covers about 12–15 NYC–Toronto round trips.
Cost: 25-hr midsize card	$200,000–275,000 ($8,000–11,000/hr). For longer routes (SFO, Miami).
Key benefit	Guaranteed availability. During peak travel (holidays, major events), on-demand charter often has no aircraft available. Jet cards guarantee a plane.

Factor	Detail
When to recommend	If Mr. Leigh begins flying private more than 6–8 times per year. Present as an S-O-R: "At current usage, a jet card would save about 15–20% versus on-demand charter and guarantee availability."

Tier 3: Fractional Ownership Purchase a share (typically 1/16 to 1/4) of a specific aircraft. Includes guaranteed access, crew, maintenance, and management. Best for households flying 75+ private hours per year. Not currently recommended for the Leigh household but included for awareness.

Factor	Detail
Leading providers	NetJets (largest, most established), Flexjet (premium service, newer fleet), PlaneSense (Pilatus PC-12/PC-24, efficient for short routes).
Typical entry cost	1/16 share of a light jet: $500,000–800,000 purchase + $15,000–20,000/month management fee + occupied hourly rate.
What you get	50 flight hours/year guaranteed. Your name on the aircraft. Crew assigned. Maintenance handled. No scheduling conflicts with other owners.
Why not yet	At current usage (estimated 10–15 private flights/year), fractional ownership is significantly more expensive than jet cards. Becomes cost-effective above ~100 hours/year.
When to revisit	If the household acquires a vacation property (East Hampton) or if LIC deal flow increases international travel significantly.

6.2.3 FBO Procedures (Private Terminal Operations)

Private flights operate from Fixed Base Operators (FBOs), not commercial terminals. There are no TSA security lines, no boarding gates, and no baggage carousels. The experience is fundamentally different from commercial aviation.

Factor	Detail
NYC FBOs	Teterboro (TEB): Primary. 20 min from Tribeca. Meridian, Signature Flight Support, Jet Aviation. Westchester (HPN): Alternative. 45 min from NYC. Atlantic Aviation. Republic (FRG, Long Island): Occasionally used.
Toronto FBOs	Pearson (YYZ) private terminal: Skyservice FBO. 25–35 min from Yorkville. Billy Bishop (YTZ): Porter FBO. 15 min from TR. Preferred for light jets.
Arrival procedure	Drive directly to FBO (not main terminal). Butler or car service drops at FBO entrance. No check-in, no security line. Walk through lounge to aircraft on tarmac. Bags loaded by FBO ground crew.
Timing	Arrive 15–20 minutes before departure (vs. 2 hours for commercial). Wheels-up typically within 10 min of boarding.

Factor	Detail
Lounge amenities	Private lounge, Wi-Fi, refreshments, conference room (most FBOs). Useful if waiting for delayed passengers.
Ground transport	Coordinate car service at BOTH ends. Car meets aircraft on tarmac at destination FBO. No terminal walk.
Customs (international)	For NYC–Toronto: US Customs preclearance at Pearson or on-arrival at Teterboro. NEXUS/Global Entry cards expedite. Passports required.

6.2.4 Guest Aviation Protocol

When Mr. Leigh hosts guests who require flight arrangements, whether investors flying in for meetings, family members visiting, or colleagues attending events, the butler coordinates all logistics. **Commercial Bookings for Guests**

Step	Detail
1. Get approval	Mr. Leigh or PA confirms: guest name, dates, origin city, class of service, who pays (household or guest's firm).
2. Book flights	Use the household Amex or coordinate with PA. Business class for professional guests; economy for casual/family unless principals specify otherwise.
3. Send confirmation	Email itinerary to guest. Include: flight details, ground transport arrangements, arrival instructions for the residence.
4. Ground transport	Book car service for airport pickup. Driver holds sign with guest name (not "Leigh Household"). Provide driver with flight number for tracking.
5. Arrival prep	Guest room prepared per SOP. Guest profile updated in Butler Book. Building security notified (ER). NDA status confirmed.

Charter Bookings for Guests

Step	Detail
1. Mr. Leigh approves	All guest charter flights require explicit principal approval. These are $8,000+ expenses.
2. Contact broker	Call Sentient Jet. Provide: date, time, origin, destination, number of passengers, luggage estimate, any dietary preferences for on-board catering.
3. On-board catering	Request through broker: light meals, specific beverages, dietary restrictions. For investor guests: premium presentation (charcuterie, wine, sparkling water). No cilantro on any catering order.
4. Ground transport	Car service at both FBOs. Guest picked up from home/office, driven to origin FBO. Car waiting on tarmac at destination.

Step	Detail
5. Communication	Send guest: FBO address (not airport code), arrival time, driver details, lounge access info. Guests unfamiliar with private aviation may need guidance on what to expect.

6.2.5 On-Board Preferences

Item	Leigh Household Standard
Mr. Leigh	Black coffee (Counter Culture beans if possible), still water (Acqua Panna), light meal if flight > 2 hrs. No alcohol on daytime flights. Quiet environment for working.
Mrs. Leigh	Herbal tea (camomile or peppermint), sparkling water (San Pellegrino), fruit plate. She enjoys the experience: window views, conversation with Mr. Leigh.
Guest catering	Default: charcuterie board, mixed nuts, fresh fruit, still + sparkling water, 1 bottle white wine (Sancerre), 1 red (Pinot Noir). Confirm dietary restrictions 24+ hours before.
No cilantro	Confirm with broker on every catering order. This applies to all flights, all passengers.
Wi-Fi	Request aircraft with Wi-Fi for Mr. Leigh (working flights). Most modern light jets and all midsize+ have it.
Temperature	Mr. Leigh prefers cabin cool (68–69°F). Adjust if Mrs. Leigh or guests are cold.

6.2.6 Annual Aviation Budget Estimate

Scenario	Estimated Annual Cost
Commercial only (current baseline)	12–15 flights/year at $400–$6,000 each = $15,000–$40,000.
Mixed: commercial + 4–6 charters	Commercial: ~$20,000 + Charter: 4–6 flights at $8,000–15,000 = $32,000–90,000. Total: $50,000–$110,000.
Jet card (25 hrs light)	Card: $175,000 + commercial flights: $10,000 = ~$185,000. Most cost-effective if flying private 10+ times/year.
Budget line item	Currently budgeted under Transport ($21,600/year). If private aviation increases, present S-O-R to principals for a dedicated aviation line item.

6.3 Airport Lounge Access

Program	Member	Card/ID	Access
Porter Lounge	Both principals	Included with business class	Billy Bishop pre-flight lounge. Complimentary food and beverages.

Program	Member	Card/ID	Access
Delta Sky Club	Mr. Leigh	Amex Platinum benefit	JFK Terminal 4. Access via Amex Platinum card.
Priority Pass	Both	Via Amex Platinum	900+ lounges worldwide. Useful for international connections.
Air Canada Maple Leaf	Mr. Leigh	Star Alliance Gold (earned)	Pearson Terminal 1. Business class passengers also eligible.

7. Travel Documents and Renewal Tracking

7.1 Document Inventory

Document	Holder	Number	Issue Date	Expiry Date	Renewal Lead Time	Storage Location
PASSPORTS						
US Passport	Mr. Leigh	[On file]	March 2022	March 2032	Renew 9–12 months before expiry	PR bedroom safe
Canadian Passport	Mr. Leigh	[On file]	June 2021	June 2026	Renew 6–9 months before expiry. DUE SOON.	PR bedroom safe
US Passport	Mrs. Leigh	[On file]	September 2023	September 2033	Renew 9–12 months before expiry	PR bedroom safe
TRUSTED TRAVELLER PROGRAMS						
Global Entry	Mr. Leigh	[On file]	January 2024	January 2029	Renew 1 year before expiry	Linked to US passport
Global Entry	Mrs. Leigh	[On file]	March 2024	March 2029	Renew 1 year before expiry	Linked to US passport
TSA PreCheck	Both	Included with Global Entry	-	-	Renews with Global Entry	Known Traveler Number on all bookings
NEXUS	Mr. Leigh	[On file]	February 2024	February 2029	Renew 1 year before. Covers US-Canada border.	PR bedroom safe
DRIVER'S LICENCES						
New York State DL	Mr. Leigh	[On file]	April 2024	April 2032 (8-year)	Renew 1 year before	Wallet

Document	Holder	Number	Issue Date	Expiry Date	Renewal Lead Time	Storage Location
New York State DL	Mrs. Leigh	[On file]	November 2023	November 2031	Renew 1 year before	Wallet
Ontario DL (G class)	Mr. Leigh	[On file]	July 2025	July 2030 (5-year)	Renew online at ServiceOntario 6 months before	TR entry console

URGENT: Mr. Leigh's Canadian passport expires June 2026. Renewal application should be submitted by September 2025. Process: Service Canada office or mail-in. Allow 6–8 weeks processing. Butler to flag this in Q3 2025 planning.

7.2 Renewal Procedure

Document	Jurisdiction	Renewal Method	Cost	Processing Time	Notes
US Passport	US	Mail (DS-82) or in-person at passport agency	$130 (renewal)	6–8 weeks standard; 2–3 weeks expedited ($60 extra)	Expedite recommended for principals
Canadian Passport	Canada	Service Canada office or mail	CAD $160 (10-year adult)	20 business days in-person; 6–8 weeks by mail	In-person preferred for faster processing
Global Entry	US CBP	Online at ttp.cbp.dhs.gov	$100 (5-year)	2–6 weeks online; interview required	Conditionally approved online, then interview at CBP office or on arrival
NEXUS	US-Canada joint	Online at ttp.cbp.dhs.gov	$50 (5-year)	2–8 weeks; interview at NEXUS enrollment centre	Mr. Leigh uses NEXUS for frequent border crossings
NY Driver's Licence	NYS DMV	Online at dmv.ny.gov or in-person	$80 (8-year)	New card mailed within 2 weeks	Online renewal preferred; no road test needed
Ontario DL	ServiceOntario	Online at ontario.ca/driving	CAD $90 (5-year)	Instant online; card mailed 4–6 weeks	No test required for renewal

8. Banking, Credit Cards and Currency Exchange

The butler does not manage the principals' personal banking but must understand the financial infrastructure to coordinate household expenses, process vendor payments, and manage petty cash.

8.1 Banking Relationships

Institution	Type	Account Holder	Purpose	Contact	Notes
JPMorgan Chase	US primary bank	Both (joint)	Operating accounts, savings, bill pay	Private banker: [Name on file]	Household operating account. Butler processes vendor payments via approved methods.
Goldman Sachs	US wealth management	Both (joint)	Investment portfolio, family office	Advisor: [Name on file]	Butler has no access. Managed by principals and accountant.
RBC Royal Bank	Canadian bank	Mr. Leigh	Toronto operating, CAD transactions	Branch: Yorkville, (416) 555-2400	CAD chequing for Toronto expenses. Butler coordinates wire transfers for large CAD payments.

8.2 Credit Cards

Card	Holder	Network	Annual Fee	Primary Use	Key Benefits
Amex Platinum	Mr. Leigh	American Express	$695/yr	Travel, dining, premium purchases	5x points on flights. Global Entry credit. Delta Sky Club + Priority Pass lounge access. Hotel elite status.
Amex Platinum	Mrs. Leigh	American Express	$0 (additional card)	Personal spending, dining	Same lounge access and travel protections as primary.
Chase Sapphire Reserve	Mr. Leigh	Visa	$550/yr	Backup travel, international (Visa more widely accepted than Amex)	3x on travel and dining. $300 travel credit. No foreign transaction fees.
RBC Avion Visa Infinite	Mr. Leigh	Visa	CAD $120/yr	Canadian purchases, CAD transactions	Avion points for flights. No FX fees on USD purchases. Airport lounge access.
Household operating card	Butler (authorised user)	Chase Ink Business	$95/yr	Vendor payments, household supplies, groceries	Linked to JPMorgan household account. Monthly limit: $15,000. Butler submits receipts.

8.3 Currency Exchange Procedures

The household operates in both USD and CAD. The butler must track exchange rates and manage cross-border expenses efficiently.

Scenario	Procedure	Rate Source	Notes
Monthly reporting	Convert all CAD expenses to USD at Bank of Canada noon rate on the last business day of the month.	bankofcanada.ca/rates	Include both CAD and USD amounts in monthly financial summary (Chapter 6, Section 2.5).
Large CAD payments (>$1,000)	Wire transfer from RBC CAD account. Request via principal approval. RBC branch handles.	RBC spot rate	Butler prepares the transfer request; principal authorises. Allow 1–2 business days.
Small CAD expenses	Use RBC Avion Visa (no FX fees) or pay from CAD chequing. Log receipt in CAD with USD equivalent.	Visa exchange rate	No currency conversion fee on Avion card.
Cash exchange	Avoid cash exchange where possible. If needed: RBC branch or Toronto Pearson exchange desk.	Posted rates	Airport rates are poor. RBC branch rate is better. Plan ahead.

9. Legal Counsel

Category	Firm / Attorney	Contact	Jurisdiction	Retainer	When to Contact
Corporate / Business	Sullivan and Cromwell LLP	Partner: [Name on file]. (212) 555-3100	New York	Active retainer via Leigh Infrastructure Capital	Business contracts, investment agreements, fund matters. Mr. Leigh manages directly.
Real Estate	Fried Frank LLP	Associate: [Name on file]. (212) 555-3200	New York + Toronto	As needed	Property purchases, lease reviews, condo board issues, brownstone permits.
Estate Planning	Wachtell Lipton	Partner: [Name on file]. (212) 555-3300	New York	Annual review	Wills, trusts, succession planning. Annual review scheduled each January.

Category	Firm / Attorney	Contact	Jurisdiction	Retainer	When to Contact
Personal / Civil	Boies Schiller Flexner	Associate: [Name on file]. (212) 555-3400	New York	As needed	Personal liability, civil disputes, defamation, privacy matters. Contact if media issue arises.
Criminal (emergency)	Morvillo Abramowitz	Partner: [Name on file]. (212) 555-3500	New York	No retainer (emergency contact)	Extremely unlikely. Contact ONLY on principal instruction in a crisis. Butler should never contact independently.
Canadian Legal	McCarthy Tétrault	Partner: [Name on file]. (416) 555-3600	Ontario	As needed	Canadian tax, Ontario property law, cross-border regulatory. Managed by principals and accountant.
Family Accountant	PricewaterhouseCoopers	Manager: [Name on file]. (212) 555-3700	US + Canada	Annual engagement	Tax filing (US + Canada), quarterly estimates, property tax coordination, insurance claims.

Butler's role: The butler does not contact legal counsel independently unless specifically instructed by the principals. If a legal issue arises (e.g., a vendor dispute, a building violation notice, or a media inquiry), the butler documents the situation and presents it to the principals using S-O-R format. The principals decide whether to involve counsel.

10. Sustainability and Environmental Responsibility

10.1 Why Sustainability Matters for the Leighs

The Leigh family is building a public reputation through Leigh Infrastructure Capital and their emerging philanthropic work in education and technology equity. Environmental responsibility is both a personal value (particularly for Mrs. Leigh) and a reputational necessity. A household at the ~$120M level attracts attention; any perception of waste or environmental indifference could undermine the family's public image and philanthropic credibility. **In practice:** Sustainability in this household means intelligent choices, not performative gestures. Buy quality that lasts. Reduce waste where practical. Choose energy-efficient options. Support sustainable vendors when quality is equal.

10.2 Household Carbon Footprint Awareness

Source	Estimated Annual Impact	Mitigation
Air travel	12–18 tonnes CO2 (largest contributor by far)	Prefer Porter (newer, more fuel-efficient fleet). Consider carbon offset programs. Consolidate trips where possible.
BMW X5 (Toronto)	3–4 tonnes CO2/year (estimated 8,000 km)	Consider hybrid or EV replacement at lease end (June 2028). Current X5 xDrive40i is not a hybrid.
Three residences (energy)	8–12 tonnes CO2 combined	Energy-efficient appliances already in place (Miele, Sub-Zero). Smart thermostats reduce waste. LED lighting throughout. Set standby temps when unoccupied.
Household consumption	2–3 tonnes CO2 (food, products, waste)	Buy local and seasonal produce (Citarella, farmers markets). Reduce single-use plastics. Seventh Generation cleaning products. Reusable shopping bags.

10.3 Sustainable Purchasing Guidelines

Cleaning products: Seventh Generation (already adopted). No synthetic fragrances. Concentrated formulas reduce packaging. **Toiletries:** Aesop uses recycled packaging. Drunk Elephant is cruelty-free. Continue current brands. **Food:** Local and seasonal from Citarella and Union Square Greenmarket. Organic where practical. Reduce food waste through meal planning (Chapter 7, Section 3). **Paper products:** Charmin is not the most sustainable option. Consider transitioning to Who Gives A Crap (recycled, B Corp certified) if quality is acceptable to principals. **Energy:** Ensure all smart thermostats use eco-schedules. Lights off in unoccupied rooms. Standby mode for unoccupied residences. **Wine and spirits:** When quality is equal, prefer organic or biodynamic producers.

11. Staff Communication and Grooming Standards

11.1 How to Speak as Staff

Communication tone reflects directly on the household. Staff represent the Leigh family in every interaction: with guests, vendors, building personnel, and each other.

Context	Tone	Example	Avoid
Greeting principals	Warm, brief, professional	"Good morning, sir." or "Good morning, Mrs. Leigh."	Overly familiar: "Hey!" "What's up?" First names: "Hi Alex."

Context	Tone	Example	Avoid
Greeting guests	Polite, welcoming, formal	"Good afternoon, Mr. Chen. Welcome. May I take your coat?"	Casual: "Yo, come on in." Oversharing: "Mr. Leigh's just in his office, he'll be right out."
Offering service	Respectful, not presumptuous	"May I offer you water, coffee, or tea?"	"You look thirsty." "Do you want something?"
Reporting an issue	Calm, factual, S-O-R	"There's a minor leak in the ER kitchen. I've contained it and called the plumber. ETA 2 hours."	Panicked: "Oh no, there's water everywhere!" Vague: "There might be a problem."
Declining a request	Gracious, redirect	"I'm afraid I'm not able to confirm that. Let me check with the butler."	Blunt: "No." "That's not my job."
Vendor interactions	Professional, clear, firm	"We need the delivery by 3 PM. Can you confirm?"	Casual: "Yeah, just whenever is fine." Aggressive: "You better have it here by 3."
Media / press	Absolute decline. No information.	"I'm not able to help with that. Thank you." Then close the door or end the call.	Prohibited: confirm names, addresses, schedules, guest identities, or any household detail. Not even "no comment."

11.2 Grooming Standards (Expanded)

Element	Standard	Rationale
Hair	Clean, neat, styled conservatively. Tied back if longer than collar (all genders). No extreme colours or cuts.	Professional appearance. Should not draw attention.
Facial hair	Neatly trimmed and maintained. No stubble (either clean-shaven or intentional beard/moustache, well-groomed).	Consistency. A groomed beard is fine; overnight stubble is not.
Nails	Short, clean, filed. No chipped polish. Neutral or clear polish only.	Hands are visible constantly during service. Guests notice.
Fragrance	None or barely detectable. No perfume, cologne, or scented lotion during service.	Mrs. Leigh is sensitive to scent. The household uses Aesop for a reason: subtle, clean.
Breath	Fresh. Use mouthwash before service. No strong foods (garlic, onion) before shifts.	Close-proximity service (pouring wine, assisting with coats) requires fresh breath.
Shoes	Polished, clean, closed-toe. No sneakers during service. Non-slip soles in kitchen.	Sound matters: avoid hard-heeled shoes on hardwood or marble (use leather or rubber soles).

Element	Standard	Rationale
Jewellery	Wedding band acceptable. Discreet watch. No dangling earrings, bracelets, or visible chains.	Jewellery catches light, makes noise, and can scratch surfaces or furniture.
Tattoos	Not prohibited but should be covered during formal service.	Personal expression respected; professional presentation prioritised during service hours.

12. Compliance Calendar and Renewal Tracker

This master calendar tracks every document, permit, inspection, and renewal the butler must monitor. Items are listed chronologically by due date.

Month	Item	Type	Action Required	Owner
Q1: JANUARY – MARCH				
January	Annual estate planning review	Legal	Schedule meeting with Wachtell Lipton	Butler/PA
January	PR property tax (Q1 estimate)	Financial	Confirm payment with PwC accountant	Accountant
February	Mrs. Leigh allergist pre-season visit	Medical	Schedule with Dr. Priya Nair, (212) 555-0891	Butler
March	Mr. Leigh annual eye exam	Medical	Schedule with optometrist. Update prescription if changed.	Butler
March	Spring deep clean (all residences)	Operations	Schedule Sterling Home Services. Marble resealing ER + PR.	Butler/HK
Q2: APRIL – JUNE				
April	Winston annual vaccines	Veterinary	DHPP, rabies, bordetella, Lyme with Dr. Webb, (212) 555-0187	Butler
April	US tax filing deadline (April 15)	Financial	Confirm with PwC. Extensions available but discouraged.	Accountant
April	PR garden service begins	Operations	Contact Green Thumb NYC, (212) 555-1590. Bi-weekly through October.	Butler
May	Spring wardrobe rotation	Wardrobe	Schedule Marcel's pickup. Seasonal swap in PR walk-in closet.	Butler/HK

Month	Item	Type	Action Required	Owner
June	Mr. Leigh Canadian passport renewal	Travel	URGENT. Expires June 2026. Submit renewal at Service Canada.	Butler/PA
June	BMW registration renewal (Ontario)	Vehicle	Renew at ServiceOntario.ca. Requires valid insurance + safety inspection.	Butler
June	Both: dental cleaning	Medical	Schedule with Dr. Tanaka, (212) 555-0612	Butler
Q3: JULY – SEPTEMBER				
July	Q2 estimated tax payment	Financial	Confirm with PwC	Accountant
August	ER smoke detector battery replacement	Safety	Replace all batteries. Test each unit.	Butler/HK
September	Autumn wardrobe rotation	Wardrobe	Schedule Marcel's. Heavier linens deployed.	Butler/HK
September	Mrs. Leigh dermatology annual check	Medical	Schedule with Dr. Lisa Park, (212) 555-1920	Butler
Q4: OCTOBER – DECEMBER				
October	Both: flu vaccines + COVID booster	Medical	Schedule with respective physicians	Butler
October	Q3 estimated tax payment	Financial	Confirm with PwC	Accountant
October	PR garden service ends	Operations	Final visit. Fermob furniture stored in basement.	Butler/HK
November	BMW winter tire swap	Vehicle	Schedule at BMW Toronto Downtown, (416) 555-2100	Butler
November	Thanksgiving prep (American)	Operations	Confirm menu with chef. Mrs. Leigh directs décor.	Butler/Chef
December	Holiday décor and gift management	Operations	Mrs. Leigh approves all décor. Gift log maintained (Chapter 6).	Butler

Month	Item	Type	Action Required	Owner
December	Year-end inventory audit	Operations	Full inventory photos for insurance. All contacts verified. Butler Book annual review.	Butler
December	Q4 estimated tax payment	Financial	Confirm with PwC	Accountant

13. Summary

This chapter provides the technical, legal, financial, and compliance infrastructure that supports the Leigh household behind the scenes. It documents every computing device with exact models and operating systems for accurate troubleshooting. It tracks ISP costs, phone services, and all digital subscriptions ($5,160 connectivity + $3,900 subscriptions = $9,060/year in digital infrastructure). It details the Toronto vehicle with full maintenance schedules, registration tracking, and depreciation notes. The aviation section covers both commercial preferences and charter procedures, ensuring the butler can arrange any level of travel on short notice. Travel documents are tracked with exact expiry dates and renewal procedures - including flagging Mr. Leigh's Canadian passport renewal due June 2026. Banking relationships, credit cards, and currency exchange procedures enable smooth cross-border financial operations. Legal counsel is documented across six specialty areas. Sustainability guidance addresses the household's carbon footprint and purchasing decisions, aligning with the Leighs' public image and values. Staff communication and grooming standards are expanded with specific examples for every interaction type. The compliance calendar tracks every renewal, inspection, and deadline across the entire year.

Quick Reference Card

Laminate this page and post in each residence service zone.

Allergy & Dietary: CRITICAL

• NO CILANTRO. Ever, anywhere, any meal, any guest catering. Genetic aversion (Tier 2). • Mrs. Leigh: seasonal pollen allergy (Mar–May). Allegra 180mg daily. Close windows. • No shellfish in shared dishes (Mrs. Leigh sensitivity). • No artificial fragrances or synthetic scents in any residence.

Morning Standards

• Butler arrives ER: 5:45 AM. Coffee ready by 6:15. Mr. Leigh rises ~6:30. • Mr. Leigh: black coffee (Counter Culture, medium roast). No sugar, no milk. His LIC mug. • Mrs. Leigh: camomile tea (Harney & Sons). Kinto teapot. Never a mug. Rises ~7:00. • Breakfast: his = scrambled eggs + toast (quiet, no conversation). Hers = avocado toast + fruit.

Temperature Settings

• ER office: 68–69°F | ER meeting room: 69°F | PR living: 70–72°F • Bedrooms: 67–68°F (sleeping) | TR default: 21°C (70°F) | TR unoccupied: 18°C (65°F)

Communication Protocol

• All upward communication in S-O-R format: Situation → Options → Recommendation. • Staff do NOT approach principals directly with problems. Everything through the butler. • Mr. Leigh: direct, data-driven, brief. Mrs. Leigh: values warmth, context, aesthetics.

Key Phone Numbers

• Emergency: 911 | ER Building: (212) 555-0314 | TR Building: (416) 555-0213 • Mr. Leigh physician: Dr. Sullivan (212) 555-0234 | Vet: Dr. Webb (212) 555-0187 • Plumber: (212) 555-0933 | Electrician: (212) 555-0756 | IT: (212) 555-0425

Service Rules

• Serve from left, clear from right. Pour wine from right. • Knife blade always faces the plate. Forks left, knives right. • Refill water at 1/3 remaining. Wine: 1/3 red, 1/2 white. • Never stack plates at table. Never touch rim or eating surface. • Crumbing between main course and dessert. • Winston: wipe paws before entering on hardwood. No muddy prints. Ever.
